**FIRST RUGBY FOOTBALL
HERE ON THURSDAY LAST**

Dome Won Over Hollinger 7 Points to 3. Good Crowd Shows Interest in Game.

About 200 spectators witnessed the first home match at Timmins of rugby football. This was on Thursday last

and resulted in a win for the Dome by 1 drop goal and a try (7 points) to 1 try (3 points) for the Hollinger. The first half was fast, both teams being tackled well at 25 yards. There were some narrow escapes on touch-downs, the Hollinger three-quarters coming in for some good tackles and keeping the Dome out. The Hollinger missed a good chance when Thomas got by and passed to Tonkin. Tonkin had a clear right of way but fumbled the pass and was robbed before he could gather the ball. The Dome got going again, Lyle finishing with a nice drop goal, the score remaining the same at half-time, 4 points to nil.

In the second half the Hollinger were still handicapped with the loss of Pascoe and Jackson, both having to retire in the first half owing to injuries, but the Hollinger put up a strong defensive game, the result being very little passing and much kicking of the ball, with Scrums coming often. The Dome were a little the better in getting the ball out of the scrums and make some dangerous runs. The Dome halves got away again and sent W. Freeman away on the left and he was lucky in getting a touch-down near the flag. The try was unconverted. The Hollinger were now down 7 points and set the pace going and after a few good runs Wills got through for a touch-down near the goal line. Thomas kicked the ball and was accurate but fell a foot short of the bar. Both teams pressed but were unable to alter the score. Referee Harris blew time with the Dome 1 drop goal, 1 try (7 points) and the Hollinger 1 try (3 points).

Hollinger—Gordon, back; Pascoe, Thomas, Jeckell, Wills, three-quarters; Oates, Chatterley, halves; Owens, Beard, Jackson, Timmins, Tonkin, Everest, Hicks and France, forwards.

Dome—Lyle, back; Allen, F. Freeman, Collins, Opie, three-quarters; Reynolds and Heard, halves; Tonkin, W. Freeman, Wilcox, Norrie, Watson, Jenkin, Hoeken and Uren, forwards.

Referee—E. Harris. Linesmen—W. Harris and F. Mills

**CONTRACT AWARDED FOR
PAVING OF MAIN STREETS.**

At a special meeting of the Town Council last week the tender of the Warren Paving Company was accepted for the street paving to be done here this summer. As some changes were made in the specifications or work as tendered on, the matter is not definitely settled yet as the Warren Paving Co. have to agree to the changes and accept the new contract. If they accept the work is to be taken up at once and rushed to completion. Much progress has already been made on Pine street and Third avenue in the matter of installing water services, sewers, etc., in readiness for the permanent roadways planned on these two streets. Under the contract as finally approved by the Council the Warren Paving Co. will simply do the paving, the other necessary works being looked after by other contracts. The Warren Paving Co. were recently awarded the contract for extensive paving on North Bay streets.

**MRS. NORMAN MARTIN WISHES
TO LOCATE HER HUSBAND**

Some weeks ago the Salvation Army desired to locate a gentleman in this camp whose parents were very anxious regarding him. The assistance of The Advance was enlisted, and in a few hours after the publication of this paper, the gentleman's whereabouts were known and anxiety relieved. This week Capt. Cornthwaite sets a somewhat similar task for The Advance. Information is wanted at once as to the present location of Mr. Norman Martin. Mrs. Martin and children reached here from Portage la Prairie on Monday evening and were unable to locate Mr. Martin. He had wired tickets for their trip here, but when the family reached here they could not find him. Soon they were at the end of their financial resources but luckily came into the hospitable hands of Capt. and Mrs. Cornthwaite, and are being well cared for of course. Naturally, however, there is great anxiety to locate the husband and father. He worked here for a time with the Telephone Co., later going to the Vipond Mine. Recently, however, he left the Vipond and yesterday no trace could be found of him. Some who knew him say they think he intended to go to Portage la Prairie. Others think they saw him in town this week. If this should come to his notice he should get in touch at once with Capt. Cornthwaite, and if anyone knowing the gentleman should have any information as to his present address or location they would be doing a real kindness by letting Capt. Cornthwaite know at once.

The Shillington correspondent of the North Bay Nugget says:—"Mr. and Mrs. John Wessman and family have left for Timmins where they intend to take up residence in the future."

-this much solid rock

ACTUAL THICKNESS

SOLID Gypsum Rock in sheets 3-8 inch thick and in the same convenient lengths of ordinary wallboard—that's what "Gyproc" is. Think of the extraordinary advantages Gyproc wallboard has over other wallboards—its wonderful fireproof qualities; its perfect insulating properties; the convenience of application; its low cost.

Is it any wonder that so many people are using it now instead of flimsy inflammable paper or fibre boards? Gyproc Wallboard will not shrink, crack, warp or burn. It can be cut, sawed and applied just the same as ordinary wallboard and costs no more. Just the material for new work, remodeling or repair work. Write for Gyproc booklet and sample of Gyproc Fireproof Wallboard.
