ONLY THE ONE KIND OF SOOT WILL SUIT THIS GENTLEMAN

A London, England, correspondent of The Ottawa Journal says that manufacturers and shipowners are much mystified by the activities of a young man who has been calling on them recently, and trying to negotiate for the purchase of the soot from their furnaces. He refuses to say why he wants this soot, but he is ready to pay three times the price offered by the ordinary soot merchants, and will not buy any and all soot. He takes a sample first, and makes his offer after an analysis. It is rumored that some new metal is being extracted, which makes the soot almost as valuable as a similar weight of the fuel of which it is a residue.

WHEN IN THE WOODS

When in the woods be sure your match is out before throwing it away; don't throw cigars, cigarettes, and pipe ashes on the ground without being absolutely sure they are out; build small campfires away from brush and small trees; never leave your campfire unwatched, make sure you thoroughly extinguish your campfire with water; when it is dead bury it in wet earth; see that others do likewise; report to responsible parties all forest fires large and small.

BARKS AND BITES BOTH

One of the gun turrets on the battle cruiser "Hood," flagship of the British special service squadron, which is making a cruise around the world and has reached Victoria B.C. An idea of the strength and size of the ship is given by comparison with the figures of the men who are loading supplies. The "Hood" and the "Repulse" which accompanies her, are the largest battle cruisers in the British fleet, and no such British vessels have ever been seen outside of home waters before. The "Hood" is of 30,000 tons displacement, is an oil burner and has a speed of over thirty knots an hour.

NORTH BAY DAMAGED BY EXPLOSION THAT WENT WILD

In blasting a rock cut in front of the town hall at North Bay on Friday afternoon, workmen came near to blowing up a large part of the town. Rocks weighing hundreds of pounds were hurled through the air, plate glass windows were smashed, and there were a number of narrow escapes from death or serious injury by people in the vicinity. Fortunately, however, no one was hurt, though considerable damage was done. The workmen say that a "faulty seam" in the cut was responsible for the "spread of the shot" with the consequent running wild of the explosion. The loss will run into thousands of dollars. Despatches from North Bay say that the G.W.V.A. clubhouse across from the Town Hall was the principal target for the flying missiles, two large plate glass windows being demolished. Several panes of glass in the apartments upstairs were also broken, and the inmates received a bad scare. Three windows in the Town Hall basement were smashed and Chief of Police Clark, who was standing near by, had a close call. Some bricks in the Methodist church were also dented and chipped, but the stained glass windows escaped injury. Five young men had gathered at the entrance to the clubrooms watching operations, but these also escaped serious injury, although two of them were hit by small stones and received minor injuries. One large

stone, weighing about 200 pounds, went sailing through space and crashed through the cab of the Hydro truck which was parked on First Avenue, a block away. The driver had just left his post and was standing a couple of yards distant. Had he been in the cab he would surely have met instant death.

Every Mother's Duty

It is a duty every mother owes to herself and her family to become thoroughly acquainted with

DR. THUNA'S TONSIL AND ADENOID PILLS

Swollen, red and inflamed tonsils yield like magic to the wonderful healing power of this remedy. Purely vegetable and pleasant to take. Can be given to the youngest child. Ask your druggist for free sample.

E. R. Riggs; Ryan Murry Drug Co., Timmins; W. D. Pearce & Sons, South Porcupine.

HOME EARNINGS MORE THAN ALL REQUIREMENTS

An official statement for the six months ended June 30th shows Dome Mines Limited earnings to have been \$1,053,822 before depreciation. The dividend rate requires \$953,344, so it will be seen that a moderate margin over requirements was secured. In the first six months of last year the net earnings were \$1,064,256.

The statement shows:

Tons Milled	236,500
Average recovery per ton	\$ 8.92
Total recovery	2,126,769
Operating and general costs, per ton	4.778
Costs	1,130,004
Misc. Revenue	113,368
Domination Tax (Estimated)	56,311
Net earnings before deprec.	1,053,822
Six months' dividends	953,344

ALL LUMBER MILLS MUST HAVE LICENSES IN ONTARIO

Legislation went into force on July 1st this year, making it compulsory for all lumber mills to take out a yearly license. This applies to all sawmills in the Province irrespective of size. Fees for the licenses range from \$1.00 to \$5.00 for the larger mills, the smaller mills being able to secure their licenses without any cost at all.

In explanation of the terms of the act, in addition to circularizing all listed sawmill owners, W. C. Cain, Deputy Minister of Lands and Forests, issued the following statement:

"With a view to a more effective method of keeping check upon the output of mills, ascertaining the source of supply and the general class and quality of timber used, the present government in its intensive effort toward conservation of the forest wealth has provided this machinery and the statistical results, when regularly tabulated, will furnish the Department of Lands and Forests with valuable information.

"The act with its regulations requires each individual or company in Ontario manufacturing rough lumber before erecting or operating a sawmill in Ontario manufacturing rough lumber, lath, shingles, sawn ties, veneer, cooperage stock, pulp or paper and mills engaged in cutting up, barking, or roasting pulpwood to secure an annual license from the Department of Lands and Forests and to furnish certain facts in respect of the source of supply and output. Penalties are provided for failure to comply with the requirements."

MAN CAUGHT IN FALLING TRENCH, BUT NOT HURT

Thursday afternoon last one of the workmen employed on the storm sewer work stepped on the edge of the trench at the corner of Pine street and Fourth Avenue and the earth gave underneath him. The sand and gravel came down with him as he fell into the trench and he was covered up past the knees by the falling earth and pinned right in the trench. He called loudly for help, and other workmen were on the scene immediately and in a few minutes he was dug out, without the slightest injury, except that he received a considerable fright when he found himself half buried. The incident and the man's shouts attracted a crowd of considerable size to the scene and when the speedy shovel work had released the man the crowd expressed its appreciation by a cheer or two. The workmen had been warned to keep away from the edges of the excavations, and now special precautions are being taken to prevent any further accidents. The contractor, Mr. Leo Mascioli, had done a large amount of work of all kinds without an accident of any importance and he is anxious naturally to keep up this good record, and special attention is accordingly being given to protecting the workmen, as well as the public, while work is in progress.

NOT AMBITIOUS

How high are we now?" asked the timid aeroplane passenger. "About 4,000 feet," said the pilot. "I haven't started to climb yet." "I don't know whether or not I mentioned it before we hopped off," quavered the passenger, "but I'm not at all ambitious."—Exchange.

NO OFFENSE

One nice thing about a radio is that you can walk out and leave it without offending a singer.—Des Moines Register.

WHY ALL THE BOYS SHOULD STUDY MATHEMATICS

"Aw, what good is percentage?" growled little Tommy. "Now," asked his teacher, reproachfully, "don't you want to learn how to figure batting averages?"—Louisville Courier-Journal.

Health Restored by The Fruit Treatment

Fourteen years ago, Mr. James S. Delgaty, of Gilbert Plains, Man., was a nervous wreck. His system was shattered by Nervous Prostration, and he was reduced in weight from 170 to 115 pounds.

He wrote on May 15th, 1917, "Every medicine I tried proved useless until a friend induced me to take 'Fruit-a-tives.' I began to mend at once. After using this fruit medicine for three months, I was back to normal. I have never had such good health as I have enjoyed the past six years. We are never without a box of 'Fruit-a-tives' in the house."

Writing again on September 27th, 1923, Mr. Delgaty says, "I stand by my letter to you in 1917—I still recommend 'Fruit-a-tives.'"

"Fruit-a-tives" is a complete fruit treatment—being made of the juices of fresh ripe fruits and tonics.

25c. and 50c. a box—6 for \$2.50—at druggists or sent postpaid by Fruit-a-tives Limited, Ottawa.

BUY NOW IF YOU WANT CHERRIES Raspberries At Their Best

The next few days will end this year's fine crop of Montmorency Red Sour Cherries. This is the best preserving variety, so if you haven't purchased your requirements, buy now.

During the first week in August raspberries will be at their best. And black currants will be on the market in good quantity. It will be the best time to buy either of them for canning.

Look for This Label It Tells You the Quality of the Fruit You Buy

Every basket of N.P.G. fruit carries a label that tells you the quality of the fruit you are buying. You are certain that you will get just what you ask for.

The N.P.G. Purple Label denotes fruit of the highest and most select quality. The Red Label stands for a fine grade of fruit excellent for both table and preserving. Blue Label fruit is a family grade good for all purposes.

Niagara Peninsula Growers Ltd., are able to guarantee the quality of all fruit bearing their label because it is carefully graded and packed and then inspected before shipping.

If your grocer cannot supply you, telephone our local representative.
