Attention! Householders!
Re Garbage
All table garbage should be wrapped in paper and placed in a covered garbage can. Garbage does not include ashes and chips and these must not be put in with garbage.
See that all lids are kept on your cans and that all doors of your toilets are kept closed.
Householders must supply their own garbage cans which should be kept clean and disinfected with chloride of lime.
Chloride of lime is supplied free of charge and can be had by applying at the City Hall.
Tin cans and other dry garbage may be put in covered barrels or boxes or bags.
Special attention should be paid to your yard. Keep it clean, and so avoid sickness and disease.
Outside toilets should be fly-proof, and should be disinfected quite often.

BOARD OF HEALTH

ASSESSMENT AND TAX RATE FIGURES SINCE THE TOWN WAS ESTABLISHED

Probably the most striking evidence of the growth of the Town of Timmins is evidenced by the assessment figures for the various years since the establishment of the Town. These figures as prepared by the Assessor, Mr. W. S. Macpherson are given below, and should prove of more than passing interest. Indeed it is more than likely that many will clip them out of this issue to serve for future reference. The figures in their form as given below are of historical interest to all interested in the Town of Timmins. A growth in assessment from less than a quarter million in 1912 to more than \$5,794,000 in 1924 is a truly remarkable showing for a town that is not, and never was, a "boom" town. Timmins has grown and grown permanently.
