Pays for Itself in One year.

The Electric Washer is not a luxury. No person ever thinks of it as such. It is a necessity, a real economy in every home. Washing **HAS TO BE DONE** there is no getting around that, and there is no cheaper, better way to do the washing than with an electric washer. It saves the clothes from harsh chemicals, saves laundry bills, saves washer-women's wages, saves drudgery and doctor bills. No investment in the home ever paid better. Terms are easy—you pay for the washer as it pays for itself.

\$1.00 DOWN

Jubilee Sale Electric Washers

Washer, Bench 4 Premiums --- \$1.00 down, a year to pay

Celebrating their 50th anniversary, Beatty Bros., Limited, who manufacture these washers are offering the remarkable prices, terms and premiums, here advertised. Never before in all the years of this company has such a tempting offer been made. It is only a few years since the Cataract sold for \$225.00 cash, without any extras. Study these prices. They are the pre-war bed-rock kind. As for the washers, they are all our regular stock, built and guaranteed in the regular way. Coming from an old reliable company, this Jubilee offer is most unusual. Here, then is the chance of a life time for any home where there is no Electric Washer now.

Complete Washing Outfit for the price of Machine Alone.

The complete washing outfit, includes the Washer, Bench, two galvanized Tubs, Ironing board, and Washing machine drainer, ALL of these for the price of the washer, unless you have the stationary tubs, you need the bench and galvanized tubs for the rinsing and blueing water. And you need the drainer to drain all the water into the Sink, without lifting. Of course, if you have the stationary tubs there are other articles equally valuable.

What Premiums are Worth

The bench furnished with these machines is built with large smoothly running castors and can be folded up and put away. It is worth \$7.50. The four premiums are easily worth \$15.00. The total value of the extras with any of these washers is \$22.50. The bench and any four of the premiums are FREE.

No Interest Charged Extra.

You have more than a year to pay, at the price advertised, without any interest. Any of these washers will pay for themselves in that time—in saving of laundry bills, doctor bills, or downright physical drudgery. If you can afford to pay \$1.00, \$1.50 or \$1.85 for laundry you can afford an Electric Washer.

Premiums Free Only While Sale Lasts.

The premiums are free only while this Jubilee sale lasts. They are all good value, useful things that every woman wants. There are seven on the list from which to choose. Look them over, decide what you want and get them quick while the sale lasts.
