Attention! Householders! Re Garbage
All table garbage should be wrapped in paper and placed in a covered garbage can. Garbage does not include ashes and chips and these must not be put in with garbage.
See that all lids are kept on your cans and that all doors of your toilets are kept closed.
Householders must supply their own garbage cans which should be kept clean and disinfected with chloride of lime.
Chloride of lime is supplied free of charge and can be had by applying at the City Hall.
Tin cans and other dry garbage may be put in covered barrels or boxes or bags.
Special attention should be paid to your yard. Keep it clean, and so avoid sickness and disease.
Outside toilets should be fly-proof, and should be disinfected quite often.
By Order of the BOARD OF HEALTH

**South Porcupine Library
Opened on Saturday Last**

Work Will be Started on Water Works System This Fall. Hallowe'en Dance on Oct. 31st. More About the Trick Car. Accident Near Dome Extension on Sunday. Other South Porcupine News.

South Porcupine, Oct. 21st.—Special to The Advance.
The new Public Library was opened on Saturday last. The Library adjoins the Public School and is a very excellent location. Rev. McVitty deserves much credit for his perseverance in this connection because it was he who has fought hard to make this new institution a reality. It is to be hoped that the residents will appreciate his good work by taking up the reins and keep the Library worthy of its name.

The latest reports on the Water Works are to the effect that a small amount of the work will be done this fall. It was proposed that the present short main be lengthened to take care of the west end of the town especially for fire protection, until such time as the regular water main will be installed. About four carloads of water main have been unloaded at Schumacher, where it is understood the work will be started as soon as possible. A large number of bids were received from different contractors on the installation, but it appears the South End contract will be let to someone in this district, which, in more than one sense, is a good move. Very little remains to be done towards the guarantee of the bonds in this connection and the residents will be pleased to learn that they will soon enjoy the same privileges as those of its brother town, Timmins. The effect this new system will have on real estate and business and in fact everything in general can only be ascertained after the installation is completed, when the investor shall realize that he was not quite awake, and he will only have himself to blame for not getting in on the ground floor.
The dance in the Oddfellows Hall last Thursday night was a success and many complained that they did not know about it until the last minute. The Goldfields Orchestra with "Gene Colombo" furnished a fine programme of the latest music and report that they will hold another dance on Thursday of this week. A large crowd is expected.

The Home and School Association will hold a big dance in the new School Hall, South Porcupine on Hallowe'en night, Friday, Oct. 31st. Colombo's Orchestra has been engaged for the occasion and the night in question promises to be the event of the season. Tickets have been on sale for some time and the ladies are confident that an extra large crowd will attend.

Reeve Gallagher left town last week on a short business trip.
Mr. Harry Owens and a gang of men are busy remodelling his building, formerly occupied by Bubbles' Garage and recently destroyed by fire. Mr. Owens is sparing no expense towards making the building look as good as the rest of the business buildings in the town. It will not be surprising to see many more business buildings on this street in the near future.

Bill Wilson went out to Timmins with the "Trick Car" on Sunday and brought back the Bass Drum for the South Porcupine Band. We can expect to hear many strange noises around the town before long. Speaking of "Trick Cars" the Radio Fans in town are complaining that

someone in the neighborhood must be using a "Trick Radio" which is putting the rest of the machines out of commission. During the past week, very peculiar noises have been detected, together with a heavy rumbling noise, which makes it impossible to get any of the concerts which are going. It is to be hoped that the freak or whatever it is, will soon be located and eliminated. The problem no doubt needs the advice of an expert.

If there is any truth in the Rabbit Foot it was revealed on Sunday last, when quite a serious accident was averted near the Dome Extension. Gus Knutson was driving along with a load of passengers and crashed into Henry Kaufman's car, also loaded with passengers and children, turning it over into the ditch, twisting the front axle and smashing two fenders beyond repair. Everyone escaped without a scratch although many heated arguments arose as to who was responsible for the accident, but both parties claim to be in the right. The part that concerns us most is the fact that no one was hurt. This should be a lesson to auto drivers in the future.

UNITED EXPLORERS IN HIGH-GRADE AT NIGHT HAWK

South Porcupine, Oct. 21st.—Special to The Advance.
Charles Dunn, who is in charge of operations on the United Explorers' claims in the Night Hawk Lake district returned to town last week and brought in considerable high-grade ore from the properties. He reports that the vein is from three to five feet wide and shows visible gold and heavy pannings for a distance of about three hundred feet in length. The visible gold is evenly distributed throughout the vein matter, which consists of Quartz and Schist well mineralized with Iron Pyrites. Test pits are being sunk along the vein in order to get below the oxidation for sampling purposes. A complete account of discovery and assay results will be obtainable about the middle of November, which by all present indications should prove very satisfactory.

"A LITTLE TOO MUCH IS JUST ENOUGH," AS OLD MAN SAID

The following is from The Vancouver (B.C.) Province:—
"An Iowa family is doing its share to counteract Canadian migration across the border. A woman from the state recently left for Canada with her brood of thirteen children, all riding on a single ticket. She bore the family Bible with her to prove that they were all under five years of age. The outfit filled seven full seats in the day coach and there are still seven others in the family to make the trip. There are five sets of triplets and two pairs of twins and the world is yet young. This young matron seems destined to supply one of the ample families of America."
Good night, good night!

Among the specials for the Old Empire Theatre in the near future are:—"The Royal Divorce," Friday and Saturday this week; "Glengarry Schoolboys," Nov. 7th and 8th.

SAY CUSTOMER, WHAT of THE NIGHTS THEY'RE COLD ARE THEY NOT?

Many a man contracts Consumption through not looking after himself at nights.
We are not Doctors or Druggists but we have some real Overcoats all ready to Slip on, at Prices ranging from \$28.00 to \$38.00.
Which will save you Dollars on Doctors' Bills.

The Moderation League of Ontario

President, I. F. Hellmuth, K.C.

Government Control is People's Control

THE people of Ontario—not any narrow or isolated section of them—but the people of Ontario as a whole—have certain ideals of public and private life. British traditions have given us these.

These ideals are well understood.
Lawlessness, disrespect for law, lack of self-restraint, and excesses of all kind find no approbation in Ontario.

Government Control, in the present plebiscite, is simply a mandate by the people to the Government to proceed with legislation which, while dealing with and as far as possible eliminating excesses in drinking, will restore respect for law, and recognize the right of the citizen to regulate his private life in accordance with the principles of moderation and sanity.

Prohibition is a denial of such a mandate. It consists of an absolute order of "MUST NOT".

That it undermined private and public life—that it made lawlessness profitable—that it took revenues which should be used for the public good—that it created evils harder to subdue than those it pretended to abolish—was the verdict of Alberta, Saskatchewan and Manitoba within the last year. They had tried Prohibition for seven years and found that period quite long enough.

Of course, the verdict was not rendered without a fight. Just as here, the people were told of the wonders of prohibition. They were told how rich they had become, how sober they were, how crime had vanished, how low taxes were and how happy and prosperous everybody was. "Impartial" writers wrote articles in the newspapers, "unbiased" speakers made speeches.

But the people were not moved. They knew better.

Then they acted. Just as soon as the opportunity arose they voted for Government Control. The Prohibitionists tried to prevent the people from expressing their views. Everywhere they said that a vote was unnecessary and sought to avoid one. Just as here.

But the people prevailed. They decided that, through their Governments, they would take control themselves.

Vote for Government Control as follows:

1 Are you in favour of the continuance of The Ontario Temperance Act?

2 Are you in favour of the sale as a beverage of beer and spirituous liquor in sealed packages under Government control? **X**
