**BREACHES OF GAME LAWS RESULT IN PENALTIES**

At last Thursday's police court a number charged with breach of the game laws were fined and their guns confiscated. Game Warden Luxton, of Cochrane, laid the charges in the majority of the cases. There were also a number of similar cases at South Porcupine, the Game Warden having been busy over the week-end.

There were four drunk charges laid by the Town Police against four men who were asked by Magistrate Atkinson to contribute \$10.00 and costs each. One man got a \$50.00 touch for being boozey. The charge of breach of the O.T.A. against Geo. Boychuk was remanded to this week. G. Lahto on a disorderly charge was assessed \$5.00 and costs. A charge of theft of a gun preferred by R. J. Mills against H. Long was remanded a week. Remand was also made in a charge of illegal sale of firearms to an alien. Cows at large cost \$4.00 and costs on Thursday. Breach of the traffic by-law resulted in a fine of \$1.00 and costs. A man charged with being drunk appeared with a beautiful black eye. He claimed he was not intoxicated and that the officer arresting him had used him roughly. Officer Martin said the accused was under the influence of liquor and that any rough usage had followed his disorderly resistance. Magistrate Atkinson let the accused go, feeling no doubt that he had already been punished in connection with the matter.

**TWENTY-NINE CASES FOR POLICE COURT THIS WEEK**

As the Dutchman said, it is business how blazes keeps up,—as the police court these days. For this week's court there are 29 cases. This includes eight undecorated drunks. There is one charge of being drunk while in charge of a motor car—this being preferred against Geo. Roux. Pete Peterich will face a charge of assault. There are a number charged with breaches of the Motor and Highways Acts and traffic regulations. Thos. Mullin will answer to a charge of illegally having liquor. There are two charges of disorderly conduct.

Another raid by the police, with Deputy Chief Salley in charge, on Saturday evening, resulted in charges being preferred against six Chinamen for gambling. The raid was made on the premises of a Chinese man or firm on Spruce street. This is the second raid that has been made on the same premises inside the last few weeks. A number of Chinamen were found on the premises and apparently a big game had been in progress. A quantity of paraphernalia and some tables were seized.

**BANQUET TO BE TENDERED TO LIEUTENANT GOVERNOR.**

The Ontario Associated Boards of Trade and Chambers of Commerce are looking after the details for a Banquet to be given in honour of His Honour H. Cockshutt, Lieutenant Governor of Ontario. The event is to be held at the King Edward Hotel, Toronto on Thursday evening, Nov. 20th. The Banquet is to be fully representative of all Ontario. The various North Land towns have received letters from the Ontario Associated Boards to send representatives to the Banquet. It is very rightly pointed out that the Lieutenant-Governor has done much for the progress of this Province during his term of office. His interest and effort have been constant and unflinching. By his generous hospitality and keen interest in all movements for the public good he has popularized Government House and made it an institution of the people of Ontario. It is but fitting that this splendid service so willingly, energetically and unselfishly given should be suitably recognized. The Lieutenant-Governor has always remembered the North Land and his interest in this country has been unflinching. Any wishing to attend the Banquet at Toronto should apply to the President or Secretary of the local Board of Trade for tickets and particulars.

McQUINN ORCHESTRA MAKES DECIDED HIT IN DISTRICT

The orchestra now visiting the Camp, the McQuinn Brothers and Sisters, have won high commendation for the attractive music furnished. Dancers were delighted last week with the music by these talented artists at the McIntyre Hall, Schumacher. Again, at the New Empire Theatre, Timmings, on Monday evening, and at the dance in the theatre basement last night the McQuinn Brothers and Sisters furnished melody and harmony that won the heartiest applause. Piano, saxophone, bells, violin, xylophone, drums,—all were unusually gifted,—and the combination was effective and pleasing.

Comparatively few of the thousands of miles of railroad in Canada are electrified, but there is no railway organization which does not rely to a greater or lesser extent on electricity as an aid to efficient operation and service. Electricity plays an important part in all of the great Railroad Shops through the country. Some trains and cars are operated by power directly transmitted or stored in batteries. Bridges are operated, and a thousand and one electrical devices are in constant use which beside being labor saving do away with the human element which might make for inefficiency. Numbered among these are the automatic Block Signals which one finds distributed along the line of the Canadian Pacific, and notices particularly in the Rocky Mountain passes where they are more urgently required.

To the average layman an automatic signal is just a signal, and the general public is only interested in it because it gives added protection, or rather eliminates possible danger from the portion of track which it governs. To the railroad official it is more. It acts as watchman against broken rails, open switches, a fouled track or any other obstruction. Through a circuit in the rail this is accomplished, and if the circuit is broken, for the reason that another train is occupying the block, or that there is an open switch, a broken rail, washout or other obstruction, then the train approaching the signal may not pass. And while it awaits a through signal, trains following in the rear may not approach for the reason that they are also stopped by an automatic signal which will not release them until the preceding train has passed from that section of the track which they desire to enter. A perfect system. No electrical circuit—no through signal—no train may pass.

The value of this system in the Rockies can hardly be over-estimated. Not only is labor saved, but the company is able to ensure absolute protection.
