Several of our citizens attended the official opening of the Timmins High School on Friday evening, Dec. 12.

When Jim Harrow moved into his pretty white-washed cottage he thought he had reached the height of happiness. His wife and his baby boy loudly voiced their pleasure, too. Everything seemed to be "breaking right" for Jim.

But the happy days didn't last long. Sickness fell upon Mrs. Harrow. "It's just a pain in my back, maybe rheumatism," she said. But Jim knew how a previous attack of pleurisy had weakened her, so he called in a doctor. The doctor hinted at "lung trouble" and advised a complete examination. Jim took his wife to a specialist, who quickly confirmed the first verdict. "Consumption," he said. Husband and wife stared at each other in hopeless misery, but cheer was forthcoming. "Don't worry," said the doctor, "a year's treatment at the Muskoka Hospital for Consumptives will put Mrs. Harrow on her feet again; but she must go now—no delay."

A kindly neighbor is taking care of the baby boy while Jim is "keeping house" by himself. Every few days the postman leaves a letter which tells how kind nurses, and careful doctors all do their utmost to bring back the health that belonged to Mrs. Harrow. Shortly the letters will cease for she is almost ready to come back to the little white cottage.

Should you wish to have a hand in such worthwhile work as this, please send your contributions to Hon. W. A. Charlton, President, 223 College Street, Toronto, Ontario.

### Attention! Householdors! Re Garbage

All table garbage should be wrapped in paper and placed in a covered garbage can. Garbage does not include ashes and chips and these must not be put in with garbage.

See that all lids are kept on your cans and that all doors of your toilets are kept closed.

Householders must supply their own garbage cans which should be kept clean and disinfected with chloride of lime.

Chloride of lime is supplied free of charge and can be had by applying at the City Hall.

Tin cans and other dry garbage may be put in covered barrels or boxes or bags.

Special attention should be paid to your yard. Keep it clean, and so avoid sickness and disease.

Outside toilets should be fly-proof, and should be disinfected quite often.
