**The Hospitals of the
Porcupine**

THE \$150,000 HOSPITAL AT TIMMINS

This district has made earnest effort to provide for the needs of the people in the matter of hospital accommodation. The Hospital at Timmins, erected and equipped by the Hollinger Consolidated Gold Mines, at a cost of over \$150,000.00, is fully equipped in the most modern way, including X-Ray apparatus, etc. It is in charge of the Sisters of the Assumption, and is noted for its equipment and fine service to the sick and suffering.

THE DOME MINES HOSPITAL

The Dome Hospital is another very creditable institution, well equipped and efficiently managed.

In addition to these two mines hospitals, there are several private hospitals in the Camp.

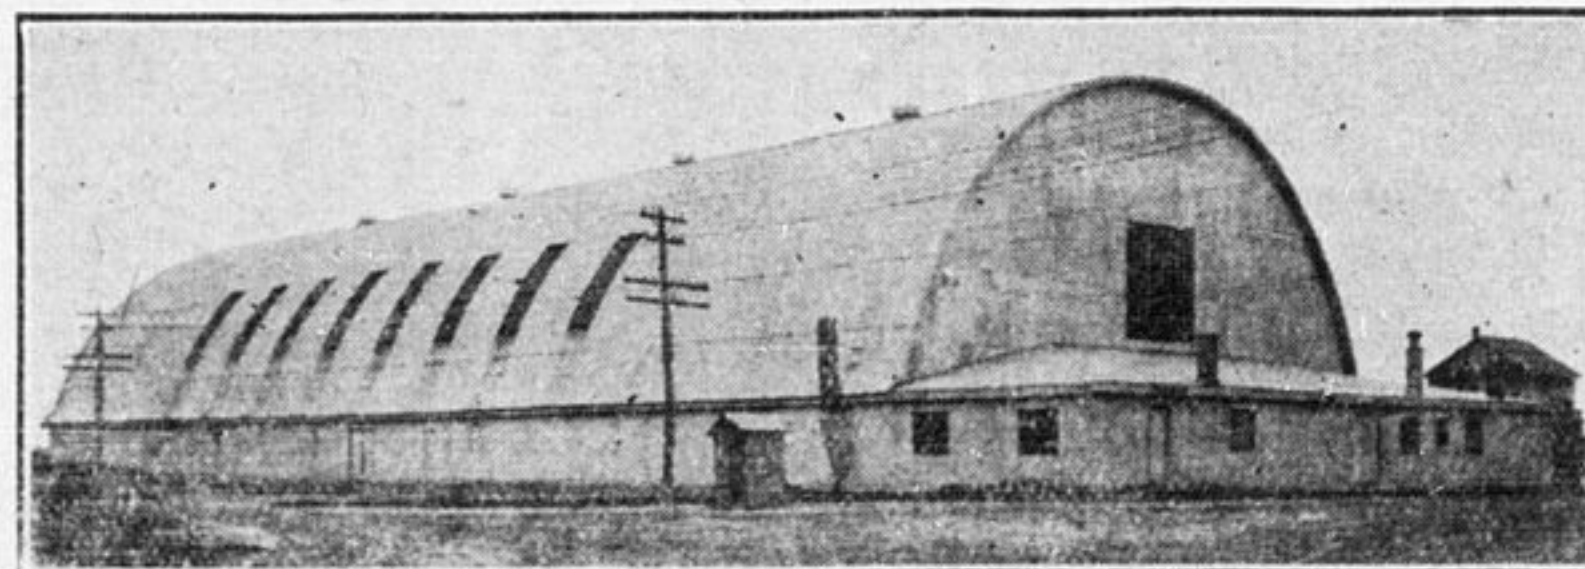

The hospital conducted by Dr. Day at Connaught is a remarkably good hospital, with much of the best equipment and conducted in excellent way.

Timmins has two private hospitals both doing good work. The one, the Cairns Hospital, conducted by Mrs. Moffatt, has been in operation for several years. The other, St. Joseph's Hospital, conducted by Mrs. O. A. Farley, was recently established at 120 Maple street, and has been of much good service.

At present there is an active movement on foot to secure a general public hospital for the needs of the people of the town and district who are not employees of the mines.

**Yes, There'll be Hockey
This Year**

Timmins Rink is one of the particularly useful buildings in town for which the people can thank the Hollinger Mine. During the summer the Rink gave fine service as a market building. It also is used as a place for

holding various special events, such as the Chautauqua, etc. In winter it is the scene of many thrilling hockey combats, as well as the pleasures of skating. This season it is expected to have many interesting hockey matches in this Rink.
