Prescriptions and THE DRUGS

Drugs and prescriptions must be of unvarying quality. They must possess purity, potency, and the essential remedial power. That is the type and character and class of drugs that we put into all prescriptions. There is no deviation from this high quality.

Wampole's Paraformic Throat Lozenges
By allowing one of these pleasant-tasting lozenges to dissolve slowly in the mouth—when in crowded cars, theatres and public gatherings—harmful germs will be destroyed, and contagious diseases such as Grippe and Influenza will be warded off.

We have sold thousands of these tablets for HEADACHES, RHEUMATISM, NEURALGIA, COLDS, Etc., and strongly recommend them for prompt relief of pain caused from similar disorders.

While the small size containing 12 tablets are offered at 25c., it is more economical to use a bottle of 40 which sells for 50c., or one of a hundred tablets for \$1.00.

Schumacher will no doubt welcome Mr. Neil Dougall to that town. Mr. Dougall comes from Wishaw, Scotland, to make his home at Schumacher with his sister, Mrs. Lampkin. NO EPIDEMICS HERE, SAYS SANITARY INSPECTOR.

This week, Mr. I. Dunn, Sanitary Inspector, called attention to an advertisement in The Advance last week in which emphasis was placed on the need for pure milk. This advt., he thought, might give some the impression from its wording that there was an epidemic of measles and scarlet fever in town. There is no such epidemic or epidemics, the Inspector pointed out. "At present," said Mr. Dunn, "there is only one case of measles in town, and only one house quarantined for scarlet fever. The health of the town is very good at present."

TEA SUPPLY INADEQUATE.—PRICES HIGHER.

Tea prices are going up mainly because tea is being demanded by millions more people. Tea is the cheapest and certainly one of the most palatable and satisfying beverages known. But the tea-growers have been unable to meet the tremendous demand. It takes three years for a tea bush to mature to the plucking stage.
