**King's Valet Service**

We beg to announce that we have added a "Valet Service" in connection with our Dry Cleaning and Dyeing Plant and will call for and deliver Suits, or Overcoats, press and keep them in minor repairs, on a monthly contract.

We have every facility for doing this class of work and will handle it without delay.

With this service men need not worry about the appearance of their clothes; just leave them where our driver can get them and they will be pressed, repaired and delivered without Delay.

Not only will this save carrying your clothes up town but it will also do away with a lot of cussing.

Those wishing to take advantage of our Valet Service may get a contract form from our driver, A. Pidgeon, or call at King's Clothes Shop, Pine Street.

GIVE US A TRIAL.

**King's Dry Cleaning, Dyeing and Valet Service**

**MATCHES IN THE ROACH CUP COMPETITION SERIES.**

On Saturday last there were two snappy Juvenile Hockey matches in the Roach Cup series. The Lakesides beat the Rovers by 3 to 0, and the Maple Leafs won from the Tigers, 4 to 0.

On Thursday of this week, Feb. 26th, there will be another game in the Roach Cup series, in connection with the Junior and Ex-Junior Hockey match here at the Rink. The Maple Leafs and the Lakesides will play Thursday night and it should be a lively game as these teams were the winners in the games on Saturday.

On Saturday this week, Feb. 28th, the Rovers and Tigers will play, and as the teams are well matched, this should be another well worth seeing.

On Thursday of next week, March 3rd, the play-off in the Roach Cup series will take place, the winners of Feb. 28th, playing the winners of Feb. 26th.

Everybody should encourage the boys.

Juveniles in their clean, healthy sport. By presenting them with a handsome cup for competition Mr. Chas. Roach has added to the interest in the Juvenile Hockey. The Roach Cup has to be won for three successive years before it becomes the property of any one team, so it may be expected to incite the Juveniles to lively interest and effort from year to year.

**EMBARGO WOULD MEAN RUIN TO THE SETTLERS.**

The Thornloe correspondent of The New Liskeard Speaker last week forwarded the following paragraph to the nineteen-year-old newspaper of the Creamery Town. This was published after the Associated Boards of Trade had dealt with a resolution proposing an embargo by passing a resolution saying that the Associated Boards of Trade was OPPOSED to an EMBARGO. Delegates to the meeting of the Associated Boards will find support for their attitude in the matter in this paragraph, and there is every reason to believe that the correspondent at Thornloe not only truly represents the feeling of the settlers in his own immediate district, but practically all the thoughtful settlers all through the North Land. The Thornloe correspondent says:—

"Your correspondent has looked into the embargo on the pulpwood question and from all I can find out the settlers are much against an embargo. It is holding up the sale of pulp wood right now. Buyers are holding back and do not buy freely, hoping for the embargo to come, so they can tell whether to buy or not. They do not want it on their hands. I know a neighbor who has some dry peeled spruce 4 feet long and cannot get an offer on it since last fall. I met others who had 200 cords of poplar or whitewood and the buyer told them not to take it out of the bush but gave them no reason. So there must be something in the wind. The embargo spells ruin to the settler is the general opinion around here."

**NEW LISKEARD HOCKEY TEAM HONOURED AT HOME**

The following from The New Liskeard Speaker will be read with general interest by readers of The Advance, all of whom are interested in hockey in general, and many interested in New Liskeard in particular. The Speaker last week says.

On Wednesday, February 11th, at 6.30 p.m., the senior and junior hockey team together with the N. L. A. A. executive were tendered a gorgeous banquet by Mayor and Mrs. McKnight at their residence. On the arrival of the last guest, the whole party of 29 proceeded to a beautifully decorated room bearing streamers of the hockey colors, to partake of what might most deservingly be called a most sumptuous repast. The boys went fully prepared to store away a good supply as they all know how well accomplished Mrs. McKnight was as a delicatessen satisfy their appetites to the utmost. After justice had been done to this part of the programme the boys were all presented with very appropriate valentines. Then followed Community singing. Mr. Fred Thompson, the President of the N.O.H.A. in a very able address defined what the N.O.H.A. has done to promote sport in the North Country. Pres. H. O'Grady, in a very neat manner proposed the toast of the host and hostess. Mr. Flood, Vice-Pres., told the boys how to play clean hockey. Messrs. M. Cook and J. W. Kearns dealt with the troubles of financing Athletic Clubs. Mr. Clarence Thompson spoke of the harmony that existed amongst the hockey players, making the game a real pleasure. The evening's entertainment ended with a hearty applause from the boys for the hospitality of our Mayor and Mayoress.

"I find the great thing in this world is not so much where we stand as in what direction we are moving." —Holmes

**But When Does Timmins Get Its Dock and Post Office?**

**Timmins Pays Well in Income Taxes, Sale Taxes and All the Other Taxes. Yet Timmins is Disregarded When It Comes to Very Necessary Expenditures. Very Properly Haileybury Has Been Noted in the Estimates. When Will Timmins Get a Fair Deal?**

Dominion estimates published last week indicate that the Government proposes to build a community hall for Haileybury. All in Timmins will be honestly pleased at this. Something was certainly coming to Haileybury from the Dominion Government, as the paragraph below will indicate. At the same time, however, the question forces itself forward, "Why does not the Dominion Government also play fair with Timmins?" This town needs, among other things, a wharf and a Government Post Office building. The Board of Trade has impressed these needs upon the Government, but while the Government can undertake other expenditures that appear rash and reckless it has no money for the needs of Timmins, though this town contributes a heavy proportion of taxation in comparison to other towns and cities of its size. Timmins pays heavily in the way of income taxation, sale taxes, and other ways, yet the Dominion Government never thinks of spending a cent here, though naturally this town has needs like other towns. The two needs recently emphasized are the post office building and the wharf at the Mattagami River. The Government has disregarded these needs apparently. The voters should let it be known that at the next election they will give as much regard to the Government as the Government has given to them. The people of the North protested vigorously enough against the former attitude of Ontario Governments to take everything possible from the North and give as little as possible in return. Why should not the people equally protest against the Dominion collecting all the taxes possible in this area, and then returning NOTHING to assist in filling the serious needs of the communities? Timmins is pleased to see Haileybury getting something, but Timmins also believes that the Dominion Government should do some-

thing in regard to the needed post office building here and also in regard to a dock at the Mattagami River at Timmins. The Dominion Government has neglected the whole North, but it has particularly neglected Timmins—a fine revenue-producer for the Ottawa spenders. Timmins has a special case, just the same as Haileybury has a special case in regard to the community hall building. The special case for Timmins is that the Town needs a post office building and a wharf; the Town contributes its full share in the way of revenue; the Town should get something like a fair deal when expenditures are necessary.

The following is the case as presented for Haileybury by the Haileyburian:—

"Estimates of Canada's expenditures for the fiscal year ending March 31st, 1926, tabled in the House of Commons on Monday by Hon. James A. Robb, acting Minister of Finance, include the sum of \$35,000 for the Community hall which has been striven for by the town of Haileybury ever since the fire of 1922, when that amount was received by the government in insurance on the armories. The insurance premiums had been paid by public organizations here, and it was felt by all that the government should at least spend that amount in providing a public building of some kind. Pressure was brought to bear on various members of the cabinet, including the Prime Minister himself, and on a previous occasion the estimates contained provision for the money to be expended in the construction of a community hall. It would appear now that the government has recognized the claims of Haileybury for this building and we may look for something definite to be done this year."

Parents are judged by their children's behavior in company.
