The Canadian Institute of Mining and Metallurgy is understood to be planning to erect a memorial in Cobalt to the late Dr. W. G. Miller, Provincial Geologist, who selected the name by which the town of Cobalt has been known. It has been suggested that a block of diabase, simple and dignified, and mounted appropriately, should be the memorial to the man who named the town.

**Football for 1924 Reviewed
By the Secretary, W.A. Field**

"They Are a Fine Bunch of Boys and Good Sports"—That is the Reputation Won by the Timmins Team in the Struggles of the Season Dealt With in Report.

Last week The Advance made reference to the annual report of Mr. W. A. Field, Secretary of the Timmins Football Club, and it was suggested that further reference would be made to this interesting document. Below will be found the full report of the Secretary as given. It makes very interesting reading for all lovers of football and good sport. To the Officers and Members of Timmins Football Club and the Citizens in General.

It is with the greatest of pleasure that I am able to bring before you a credit balance sheet for last season, although I must say it was the most strenuous season you or I have witnessed since the organization of this club in 1919.

By the efforts made by some of the Executive, together with outside assistance, your team was able to go right through to the final of the Ontario Cup, and though they did not bring that valued trophy home with them they left something behind them in Toronto and Brantford which has since, (as I found out while attending the annual meeting of the O.F.A.), spread to a good many other cities and towns in Ontario. "They are a fine bunch of boys, and good sports,"—that is the reputation and advertising that your football team left behind them.

You are all familiar with the preliminaries of the Ontario Cup with Kirkland Lake. The first game resulted in a no-score tie, which necessitated a re-play at Kirkland Lake. That also resulted in a no-score tie. The N.O.F.A. ordered a sudden death game at Dome Mines, but in order to provide our supporters with another game here, we offered Kirkland Lake a guarantee of \$125.00 to play the game at Timmins, which they agreed to do. The result of this match you all know. A 270-minute struggle, and Timmins earned the right to represent Northern Ontario in the Cup proper, by getting the only goal scored in the three games. Up to this time football had paid its own way, thanks to the P.D.F.L. matches, the receipts of same far exceeding the expenditures.

From this time on your team had to rely on public subscriptions and private donations, as the following brief statement will show.

First round of the Ontario Cup.—Timmins at North Bay.—Timmins won 5 to 1. The proceeds from the match totalled \$25.00, and it cost us approximately \$275.00.

We were again drawn away in the second round, to play Mimico, the winners of Toronto and District. In the last minute of a hard fought struggle your team was again victorious by scoring the odd goal out of 3. The receipts from the game only came to \$41.00, and it cost us \$350.00. This win gave us the semi-final at home with Oshawa, the game itself being more or less easier than the preceding one. Oshawa was more fortunate than we were as regards receipts, receiving their train fare in full all but two dollars, \$355.00 being turned over to them. But they were a good bunch of lads and it was a pleasure to us to be able to do it.

By again winning the match the Timmins F. C. entered the finals for the Ontario Championship, with Brantford. Let me say here, in passing, that this in itself was a signal honor for the Timmins Football team, as no other sports organization in this town had ever gone even so far as this before, and every man was an unstained and unblemished out-and-out amateur.

The O.F.A. ordered home and home games, with Brantford playing the first game here. The O.F.A. also took charge of the gate receipts of both games and the sum of \$318.00 was turned over to their representative. The result of this game, as you all know, was a tie. Again, by the generosity of the Hollinger Mine, the McIntyre, Dome Mines and Athletic Association, sufficient funds were got together again to take your team to Brantford for the final game. Our team made a gallant bid for the championship, but it seemed as though fate was against them, as overtime was ordered to decide, and Brantford was the team fortunate enough to score in overtime play. They deserved their win, as there was not much difference between the two teams.

The receipts turned over to the O. F.A. from the Brantford match was something like \$86.00. The receipts of both games being pooled, we received \$170.00 as our share. This trip cost us over \$700.00. It could have been done on less money, but the team was given an extra day in To-

ronto, as they had done their best right through. Personally, I think that something should have been done for these men who had carried the name of Timmins (not Hollinger) into many parts of Ontario. The boys arrived back from Brantford, and the Timmins Citizens' Band welcomed them home, as they had done right through the Ontario Cup series, thanks to the President, Mr. G. A. Macdonald, Bandmaster Wolno and all the Bandmen. This was the only appreciation shown to the boys, outside of one other instance which the boys know about themselves and is a private matter.

There was also last year, as in past years, considerable underhand, two-faced criticisms. Personally, I wish to thank those who have done most of the criticizing on my behalf, as that same idle talk has only spurred me on in my efforts for the advance of football. In the majority of cases the results speak for themselves, being further proof that "Actions speak louder than words." My ambition has been realized so far as football is concerned in this town, and I am now ready to step out and let some other body have a chance, trusting that they will help to at least keep football in this town where it is to-day.

W. A. Field,
Secretary, T.F.C.

**CONNAUGHT SETTLER HAS
ASKED FOR SPEEDY TRIAL**

The Northern News last week says: "Peter French, the Connaught settler charged with criminal negligence in connection with the death of John Shinuk; a Finn who strayed into French's home some weeks ago, will not wait for a jury. W. A. Gordon, his lawyer, has made application for a speedy trial for his client, and the case will come before Judge Caron, at Cochrane, at an early date. At the same time the charge against Pete Dobroski, who, it is alleged, went after another man at Ansonville with an axe, will be tried."

**THE ANSWER IS THAT THE
SETTLERS ARE STILL UNPAID**

Recently there has been paragraphs in the newspapers as to how well the Mattagami Pulp & Paper Co. is doing under the receivership. It may be that there is another plan on foot to re-organize the Mattagami Pulp & Paper Co., and hence the "come-along" literature. The answer, however, to any propaganda for the Mattagami Pulp & Paper Co. is simply this.—That the settlers are still unpaid for wood used by the company up to the time of going into the receivership in 1921. No business needs to boast about anything while it should be shamed at the thoughts of debts unpaid the struggling settlers. Until the settlers are paid, the Mattagami Pulp & Paper Co. should keep out of the limelight. If the settlers were paid, everyone would be pleased to hear of any success achieved by the pulp and paper company in question. With the settlers unpaid, with some of them actually ruined and all of them seriously handicapped by the failure of the Mattagami Co. to pay for pulpwood secured, even the mention of the Mattagami Pulp & Paper Co. is an annoyance. After stalling the settlers with notes that were dishonoured when due, the Mattagami Co. went into a receivership, the settlers being even prevented by the procedure from putting on liens on the pulpwood. Naturally the name "Mattagami Pulp & Paper Co." has no soothing sound in this section.

Having thus given the answer first—"But the Settlers are Not Yet Paid,"—the article in question may be read. It is taken from The Toronto Star. The Star on Saturday last says:—

"The plant of the Mattagami Pulp & Paper Co. at Smooth Rock Falls, Ont., is operating at capacity 24 hours in the day, under the direction of the receiver. The average daily production during February was 190 tons of sulphite pulp from a mill of a capacity originally estimated at 150 tons per day. The entire output is finding an immediate market in the United States, and there is no accumulation of sulphite pulp stocks at the plant beyond two or three hundred tons which were stored when adverse weather conditions prevented free movement during the winter. The company has sufficient business in sight to guarantee capacity operation throughout the balance of this

KEEP YOUR CANS COVERED.
Do not throw peeling of any kind or course paper into your Toilets as it blocks the Sewers and does damages at the Disposal Plant.

By Order,

TIMMINS BOARD OF HEALTH.

month and the greater part of April. S. R. Armstrong, acting for the receivers, and general supervisor of the company's activities and affairs, stated yesterday that no effort had been made to close business for May or later, as it was hoped that in the intervals the markets would improve. The company had still to contend with adverse markets and low prices. The prevailing price for unbleached sulphite pulp at approximately \$60 per ton represented a decline of about \$10 per ton from the price which prevailed two years ago. Present prices ruled fairly steadily throughout 1924. But even with the low prices for sulphite pulp, the company is able to show a moderate profit after operating charges."
