Earl Haig of Bemersyde, who is to visit Canada in July with members of the British Empire Service League.

## "BACHELORS' NIGHT" PROVES VERY PLEASING SUCCESS

There was a large attendance at the regular meeting of the Caledonian Society in the Hollinger Recreation Hall on Friday evening last. It was another "Bachelors' Night," and the evening proved a very pleasing one. The programme was in charge of a committee of the young men of the Society, including Messrs. A. Dunsmuir and T. Young, and the event throughout was creditable to all concerned. In the absence of the President, Mr. D. Mackie, the chair was taken by Past President G. A. Macdonald, and the business of the Society promptly dealt with. After the business of the meeting, Mr. R. H. Gray was the presiding officer and the rest of the evening was in full charge of the Bachelors, who furnished a

very pleasing programme of dancing, musical and literary numbers, refreshments, etc. The Caledonian Orchestra, including Messrs. Hale, Bridges and Gordon provided fine music for the evening. The dances included the Circassian Circle, Quadrille, Highland Schottische, Eightsome Reel, Waltzes, Fox Trots, etc. There were very pleasing solos by Mr. D. Twaddle, Miss Wilson, Miss Jean Roberts, Mr. J. Liddell and Mr. G. Hamilton. The gathering was again delighted with the fine voice of Mr. D. Twaddle and his effective rendition of a stirring song won very hearty encore. Miss Wilson's expressive interpretation of a pleasing solo was greeted with a very decided recall. Miss Jean Roberts made a big hit with a popular song and was enthusiastically encored. Miss Barcher played the accompaniment for Miss Roberts. Mr. J. Liddell's fine voice and effective singing never fails to please the Caledonians, and this popular singer was insistently encored. The other soloist of the evening Mr. G. Hamilton, rendered a comic song in comic style and won a very hearty encore. Miss Betty Paterson, a gifted young elocutionist, gave "The Little Green Idol," in very effective manner, and the number in response to the persistent demand for "more" was equally well given and much appreciated. Refreshments were served as usual, and the Bachelors had provided lavishly in this line, under the direction of Mr. A. Roberts and his experienced staff this was, as usual, one of the big features of the very enjoyable evening. The meeting closed with "Auld Lang Syne" and "God Save the King," the gathering being fully agreed that the evening had been a very pleasant success.

The next regular meeting of the Caledonian Society will be held in the Hollinger Recreation Hall on

## STATUTORY MEETING OF TIMMINS CURLING CLUB

The Statutory meeting of the Timmins Curling Club was held in the Club Rooms at the Curling Rink on Monday evening, the proceedings being brief and formal, consisting only of the reading of the financial statement and other routine required by law. The meeting for the election of officers for the ensuing year will likely be held in April.

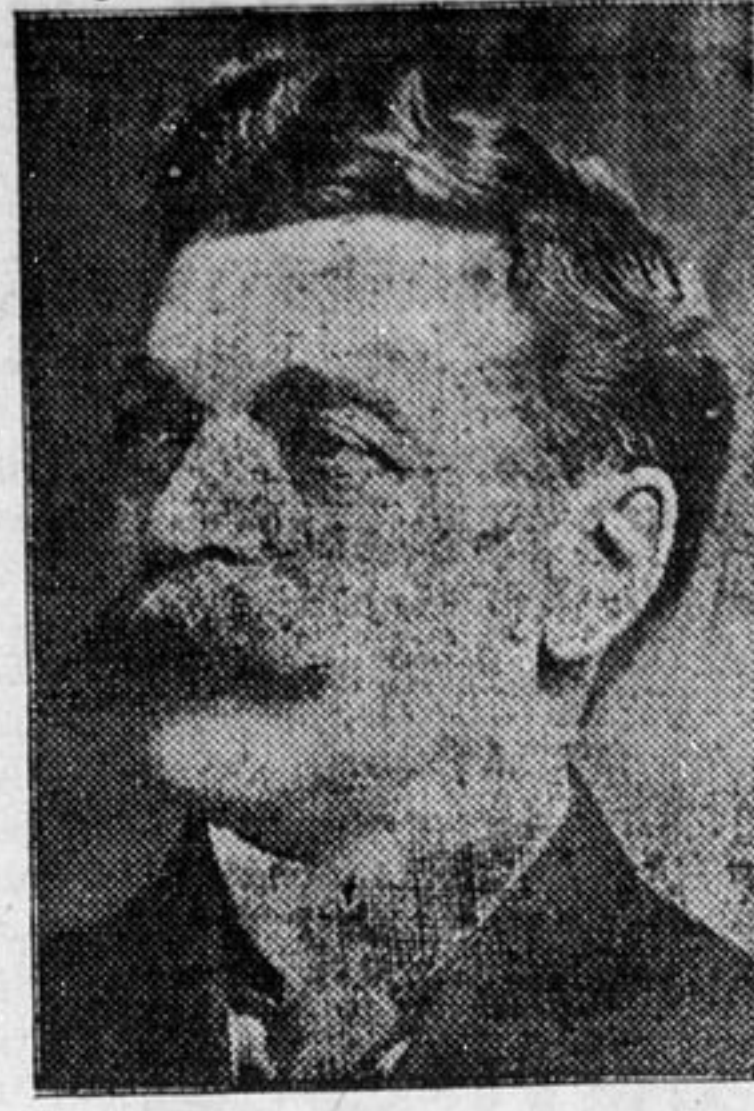

## SCHUMACHER DENTIST'S OFFICE BURGLARIZED

On Thursday evening last the glass in the door of the office of Dr. Weston, Dentist, Schumacher, was broken and the door unlocked from the inside by the insertion of an arm. After entry had been gained the office was ransacked and everything thrown around. There did not appear to be any attempt to steal instruments or furnishings, the marauders apparently searching for something other than they found. Whether they were after drugs that they may have imagined would be on the premises, or whether they did not know what sort of premises they had entered, or what may have been their idea, they did not cause much loss by any thefts. They did, however, cause serious damage by going away and leaving the door open, the steam heating system freezing up with the usual consequences. The police were promptly notified of the occurrence and are working on the case.

Friday evening of next week, March 27th.

In passing, it should be noted that the Bachelors proved beyond doubt that Friday the Thirteenth is lucky for a good time.

## MR. JUSTICE CODERRE

The judge who investigated and reported on conditions in Montreal, his report containing a scathing denunciation of vice in Montreal.

## ARRESTED HERE ON CHARGE OF FALSE PRETENCES.

The Timmins police this week placed Louis Labree under arrest in compliance with a warrant sent down from Kapuskasing. The charge preferred against Labree at Kapuskasing is that he did unlawfully obtain money by false pretences from Fred Lafleur. Labree admitted his identity and told the officers he was the man referred to in the warrant. He claimed, however, that the matter was a mistake due to a friend cashing a cheque before the time requested. Labree will be taken back to Kapuskasing for trial. He was picked up here on Monday evening on the street from the description and photo furnished by the Kapuskasing authorities.

## Canada's New Link With Alaska

It is not many years since Alaska was one of those countries whose geographical location was indicated with a grandiloquent sweep of the arm northwards. It has always been a land of mystery, romance and adventure. It has provided the theme for the thrilling tales of novelists and the stirring poems of northern bards. But even though the day of the chechako and the sourdough is done; the brief but active span of the Dangerous Dan Magreus and the Lady Lou's, matters of historical reference, the lure of Alaska has not waned, but is as appealing as ever to the hearts of men and women wherein a bit of romance lurks, and that means to everyone.

Alaska is no longer a far off country. It is a very near neighbor to Canada. It will be even nearer this summer. Mr. J. E. Dalrymple, Traffic Vice-President of the Canadian National Railways, has announced that commencing on June 22nd, the company will inaugurate a weekly steamship service between Prince Rupert and Alaska and that the oil-burning steamships, "Prince George" and "Prince Rupert," which have already established a reputation as being among the best-appointed vessels on the Pacific Coast, will be engaged in this new service.

Going northward the ships will reach Prince Rupert at 10.30 on Wednesday morning, following the Monday of sailing from Vancouver, and tourists will be given an opportunity to see something of this new Pacific port, as the steamer does not continue on its northern trip until

four o'clock that afternoon. After passing Old and New Metlakla and Port Simpson, an old Hudson's Bay Post, calls will be made at Ketchikan, a typical Alaskan town built at the foot of the mountains. Proceeding from that point the steamships will touch at Wrangell, beautifully situated near the mouth of the Stikine River and possessing many associations with the period when Alaska was a Russian possession. The next point touched will be Juneau; the capital of Alaska, and a modern city with good motor roads and many points of interest, including the Mendenhall Glacier and mines which have made this country famous. On the way from Wrangell to Juneau there will be an opportunity to see the grandeur of Taku Inlet and the famous Taku Glacier, over a mile wide and 90 miles long.

The ships will arrive at Skagway at seven o'clock Friday morning and will remain there until seven o'clock Saturday night, thus giving ample opportunity to passengers to see this famous town and to visit White Horse and the Atlin Lake District. On the south-bound journey the steamers will reach Vancouver at nine o'clock Wednesday morning, making a complete ten-day round trip.

In addition to the Alaska trip, the tri-weekly service between Vancouver and Prince Rupert will be maintained and also a semi-weekly service to Anyox and Stewart on the Portland Canal; which service has been in effect for some time past. The establishment by the Canadian

National Railways of this Alaska steam-boat service will meet the demands of many tourists, and will be a fitting climax to the famous Triangle Tour, comprising Jasper National Park, the Rockies, the Coast Range and the water voyage through the "Norway of America."

The photographs show some of the scenes along the route of this magnificent sea voyage: (1) The Taku Glacier, one mile wide and ninety miles long, one of the largest and most beautiful glaciers in the world. (2) West Taku Arm, a stretch of water from which rise great ranges of snow covered mountains that, seen in the sunshine, present a sight never to be forgotten. (3) The "Prince Rupert" which with the "Prince George" will be used in the Vancouver - Prince Rupert - Alaska service by the Canadian National Railways this summer. These boats are oil-burners and are among the best-appointed vessels on the Pacific Coast. (4) Juneau, the capital of Alaska, a thriving city, up-to-date in every respect with many sights to interest the visitor and with fine motor roads extending into the mountains to famous mines and other points of interest. (Top centre), An Aboriginal of Alaska in full ceremonial regalia and (lower centre) one of the many curious and striking totem poles to be seen in the business section of Wrangell.
