## PRINCE OF WALES

His Royal Highness leaves this week for an extended trip through the British South African possessions, and will visit Argentine prior to his return to Great Britain.

## CALEDONIAN CHOIR TO GIVE ANOTHER EVENT

Music lovers in the town and district will be pleased to learn that another musical event is being promised in the near future by the Caledonian Choir, under the auspices of the Caledonian Society of Timmins. Under the leadership of Mr. Jas. Geils, the Caledonian Choir has given several high-class musical events that have proved unusually popular and pleasing. Mr. Geils is always able to gather together musical talent and arrange events of special interest and excellence. Previous Caledonian Choir events are remembered with pleasure, and the coming one will be looked forward to with interest.

The regular meeting of the Caledonian Society in the Hollinger Recreation Hall on Friday evening of this week will take the form of a Masquerade Dance. All attending are expected to come in costume. A big time is expected. The event is in charge of a capable committee.

**ASK BETTER LIVE STOCK CAR TO VISIT TIMMINS**

Porcupine Poultry and Pet Stock Association Send in Request to Director

There was a fair attendance at the meeting of the Porcupine Poultry and Pet Stock Association on Friday evening last in the Council Chamber. A number of topics of interest were discussed, among them being the visit of the Better Live Stock Car to the North Land. This Better Live Stock Car carries samples of thoroughbred stock, poultry, grains, etc., etc. and lectures are given on various agricultural and stock-breeding topics. The Car is scheduled, according to an announcement last week, to be at Porcupine Junction on Saturday, April 18th, and at Cochrane on Monday, April 20th. The Poultry Association thought that this Car should not pass by Timmins, and accordingly a resolution was passed asking Mr. R. W. Wade, the director, to see if a place on the itinerary could not be made for Timmins. It was pointed out that Timmins is the home of the Porcupine Poultry and Pet Stock Show, the best poultry show in the North Land; the centre of a fine agricultural section, with many settlers; and one of the best poultry-raising towns in Ontario. It was very strongly felt that it would be a good thing indeed, from every viewpoint, if the Better Live Stock Car would visit Timmins, even though only for a few hours. The Poultry Association offered to see that the event was advertised if the Car arranged to come here and they were notified of this beforehand. The request of the Poultry Association to have the Car come here is being supported by other bodies in town.

Mrs. R. P. Teare returned home to Thornhill, Ont., on Thursday morning last after spending several weeks the guest of friends in Timmins.

**JUVENILE PARTY AT THE A.S.D. CLUB THIS EVENING**

Attractive Programme Prepared. Pleasant Weekly Dance Last Wednesday

Due to counter attractions there was not as large an attendance at the A.S.D. Club weekly dance held in the Oddfellow's Hall last Wednesday evening as there may have been, but those attending spent a very enjoyable evening. The evening opened with a Paul Jones, Mr. Wm. Mackie acting as director for this dance. Two gentlemen's tags followed which were much enjoyed. A square dance, directed by Mr. J. K. Kennedy was another feature of the evening's entertainment. The luncheon as usual was an attractive part of the programme, Miss Rhoda Macleod looking after this part of the evening's entertainment.

The meeting this evening will take the form of a Juvenile Party. In past years the A.S.D. Club have held very enjoyable juvenile parties, and it is expected that the one this evening will prove the success previous events of this nature have. A committee consisting of President Mr. A. E. Riddell, Past President Robt. Hoggarth, and Misses Mary Gray, Mary Boyd and Mr. E. L. Urquhart have charge of arrangements for the evening. All members are requested to attend in juvenile costume; fines will be levied on all failing to appear in appropriate dress. A programme of special numbers is being arranged, and everything points to the fourth annual juvenile party as being an outstanding success.

The meeting this evening concludes the March schedule, and next week there will be the usual dance. A programme will be drawn up by the Executive this week for the month of April.

All members are requested to be on hand as promptly as can be this

## PRINCE HENRY OF WINDSOR.

Upon whom will fall the social duties which our Royal Family must perform, during the absence of Their Majesties, the Prince of Wales and the Duke and Duchess of York from Great Britain.

The dances are supposed to start at nine o'clock, but it is very seldom that the members of the club are on hand at that hour. Some evenings the lateness at starting makes it necessary to cut the programme short, and in view of the lengthy list of games and dances for this evening it will be necessary to start sharp at nine o'clock.

Three steers from the Government Farm at New Liskeard raised a lot of excitement last week when an effort was made to drive them to Haileybury where they had been sold to a dealer. On the Liskeard Bridge they commenced to run amok and attacked the men driving them. The men had to take refuge on top of a lumber pile where they were kept for two hours. Two of the three steers became so wild that they had to be shot. The third animal was eventually stabled all right.

At the launching of the "Princess Kathleen." Left to right—Lord Abernethy, chairman of John Brown and Co., Clyde Shipbuilders; Lady McLaren Brown; Mrs. Troup; Lady Mount Stephen, sponsor; Captain Troup, C. P. Coastal Service, and Sir George McLaren Brown, European general manager of the Canadian Pacific.

It is a long way from Alaska to the Clyde, but the recent launching of the Canadian Pacific Coastal S.S. "Princess Kathleen" from the Clydebank yards of John Brown and Company illustrates how the increasing business, traffic and industry of the one has affected the industry of the other. The launching of another vessel, the Princess Marguerite, will further illustrate this, shortly. During the past few years the thousand mile trip to the "land of the Midnight Sun" and return to Vancouver has attracted thousands of tourists from all parts of the world. Many of these, appreciating the industrial and commercial possibilities of this country of vast natural resources, as much as the scenic splendours, have established themselves there and have drawn others round them, each of whom plays a part in the further development of the land. The same thing applies to the Yukon, so that, especially in the Summer, and in the Fall when the big game and fish are fair sport, there is a constant coming and going on the Princess steamers that ply the "Inland Passage".

Next Year there will, it is expected, be a demand for a still more frequent service. In response the Canadian Pacific will recruit from its "Triangular" service, and the new steamers will take up the service thus relieved be-

tween Vancouver, Victoria and Seattle. This route is also becoming increasingly popular, the present call being for vessels which are able to transport the automobiles of those hundreds of tourists who are finding the glories of Vancouver Island well worth while.

The new vessels, twin screw and oil-burning, will be, when completed, the largest and fastest ships operating between the three ports, being capable of sustaining a speed of 22 1/2 knots. Altogether there are five decks, four of which are given over to the use of the passengers, while a large space on the main deck has been provided for the transport of motor cars and other freight. Accommodation is arranged for 325 first-class night passengers in two and three berth cabins, and for over one thousand day passengers. A special feature of the accommodation is the provision of 17 large rooms on the promenade and upper decks, having private bathrooms attached and 22 two-berth cabins, on the boat deck, having private shower baths. The accommodation throughout has been arranged with the greatest care for the safety and comfort of the passengers and is of a uniform standard throughout, while the accommodation for the officers and crew is substantially better than is required by regulations.

Both vessels will be placed in service early in 1925.
