GOLF SWINGS
 By the Brothers, Frank Thompson, present Canadian Amateur
 champion, and W. J. Thompson, Ontario Amateur champion and
 last year's champion of Canada. They are native-born and resident
 Canadians, members of a family of five famous golfing brothers.

There is an old saw that in order
 to play golf well one must commence
 when very young, when the muscles
 are pliable. One would be flying
 in the face of experience to contend
 that it is not an advantage to learn
 the game when young, but this is an
 advantage that obtains in every-
 thing in life. But ordinarily the
 distinction is drawn much sharper.
 The child is supposed to learn by
 imitation whereas the adult learns
 by reflection. All learning in the
 last analysis is by imitation,
 and to say that there are factors
 present in the child which would
 justify one concluding that the
 methods are different is a statement
 that seems to be contrary to facts.
 The difference is only one of de-
 gree and not of kind. Man's
 muscles may not be as pliable and
 flexible. His mental life may be
 more complex. He may have a
 larger world and more interests and
 for this reason more distraction,
 but the child's world is made up of
 the same factors as man's. I think
 this statement is in agreement with
 that of the experts on this subject.

Most golfers proceed on the sup-
 position that the opposite theory is
 correct. In learning the game they
 forget that it is purely and simply
 a muscular effort and in this sense
 it is true that one does not need
 "brains" to play golf. "Brains"
 need not be a hindrance and should
 be a distinct advantage in the study
 of the game. But the brainy fel-
 low is apt to have more interests
 and for this reason it may be harder
 to attend to the ball while playing
 the game. To play golf well one
 must play almost instinctively, or,
 perhaps a better word, automatic-
 ally. For this reason it would be
 better for a golfer to carry an extra
 club in the form of a small mallet,
 and if possible before the game
 commences, tap himself gently on

different from Duncan's or Chick
 Evans or Sarazens or Mitchell's.
 In trying to follow the method of
 any star one should be careful to
 see that there is the utmost agree-
 ment in physique and no two humans
 are identical. Supposing the ut-
 most physical agreement then it

"BILL" THOMPSON
 Ontario Amateur golf champion and
 a recent champion of Canada.

would be a dangerous method to fol-
 low anyone's style exactly or to
 have a theory, except the one that
 works, of swinging a golf club.

Was there ever a golfer who played
 the game well except by following
 his own bent? Let it be well un-
 derstood that there is nothing in these
 remarks derogatory of the profession-
 al work. His is a legitimate field
 and fortunate indeed is the player
 whose club possesses a first class pro.
 The instructor who knows his game
 can be of great assistance to begin-
 ners and advanced players, and what
 is more learning golf under such an
 instructor becomes an absorbing and
 entertaining practice. I have always

maintained that the proper instructor
 will turn out his pupils so that no
 stranger may detect who their teach-
 er was. The instructor who makes
 all players swing their clubs in the
 same manner fails to appreciate the
 manifold variations as displayed in
 nature's works.

NO. 46 LEAVES AT 11.30
INSTEAD OF 11, AFTER MAY 3.

Last week The Advance referred to
 the Toronto Train changing time of
 leaving here for Toronto from 11
 o'clock to 11.30 a.m. In making the
 announcement The Advance referred
 to the train as No. 47. It should
 have been No. 46. No. 47 is the train
 from Toronto, and is the one usually
 referred to by number. Train 47 is
 more or less famous and so comes,
 perhaps, readily to the tongue or pen.
 Everybody could tell from the rest of
 the article that the change in time
 referred to No. 46. Indeed, many did
 not notice the error, even after The
 Advance had noted it. All they
 noted was that the Toronto train was
 going to leave Timmins at 11.30 a.m.,
 after May 3rd. This was a case where
 numbers did not count.

New Construction
 Remodeling
 Repairing
 Baring
 Attic Rooms
 Store Windows
 Ceilings
 Walls
 Poultry Houses
 Farm Offices
 Dairies
 Warehouses
 Fireproofing
 Under Shingles
 Partitions
 Garage.

NO one would build with old-fashioned
 lathes and plaster if he knew the ad-
 vantages of Gyproc. Gyproc is fire-
 proof wallboard made of solid rock. It is
 cheaper than lumber, twice as durable and
 much more satisfactory. Gyproc Walls
 and Ceilings are permanent, strong, light,
 easy to handle—pure rock, yet it saws like
 wood.

Read the listed advantages of Gyproc
 Fireproof Wallboard in this advertisement.
 Then ask your dealer about it.

THE ONTARIO GYPSUM CO. LIMITED, PARIS, ONTARIO

GYPROC
 Fireproof Wallboard

Why build to burn? Gyproc does away with inflammable wood-lined walls,
 roofs, ceilings and partitions.
