A LESSON FROM EUROPE ON FOREST CONSERVATION

If We Guard Our Forests, We Will Have Plenty of Forest Products to Sell, Says Correspondent.

Writing with the thought of the proposed pulpwood embargo in view, a correspondent submits the following to The Advance:—

"The Scandinavian countries have much to teach us in the way of forest conservation. With resources for less generous than ours, they have now an inexhaustible supply of timber for all time.

"They have accomplished this achievement by a wise and sane management of their resources. They have not hampered their forest industries by injudicious legislation. They have not restricted export, which is the lifeblood of a nation. They are, and have been for years, among the greatest exporters of forest products in the world. Yet they are in no danger of losing their forest inheritance.

"The reason for this is comparatively simple. They have curtailed the waste and made their forests work for them. They have learned how to make their forests productive, as the farmer has learned how to make the land. They proceed by wise cultivation, and rotation of cutting, just as the farmer rotates his crops.

"We in Canada, on the other hand, have been content to touch the fringes of the problem, by applying little cure-alls, thought of at haphazard, to meet a great emergency.

"Even now the country is being faced by the argument that the only way of safety is to curtail the export of pulpwood. Yet this export is a negligible factor; one half of one per cent. of our annual forest consumption.

"Isn't it about time we ceased playing with a great issue, and instead of worrying about the little cash, turn our attention to the item of prodigal fire and disease waste that represents ninety per cent. of our annual forest consumption. If we guard our forests, we will have plenty of forest products to sell."

VERY CREDITABLE SPECIAL MINING EDITION ISSUED

The special 48 page mining investors' edition issued by The Northern Miner, of Cobalt, is not only a credit to the publishers but also to the north. As a sample of good printing it is enough proof that no one needs to send out of the North for good work. As pointed out recently Timmings, Cobalt and some other towns of this North Land have printing equipment and facilities equal to any city, for the lines of work handled.

The matter in the special edition of The Northern Miner is equally good. There is a comprehensive and careful review of the mining camps of the North Land, many outstanding articles that will be of the greatest interest, and an array of facts and figures most helpful to an understanding of the mining industry in this North. The edition will be of much value to the North Land. Special articles on the Ore Deposits of the Porcupine (by Louis D. Hutton), hints to purchasers and vendors of mining claims (by Judge Godson of the Mining Court) a message from Hon. Chas. McCrea, Minister of Mines for Ontario, and articles by Charles Campsall, Deputy Minister of Mines Ottawa; W. H. Collins, of the Ottawa Geological Survey; T. F. Sutherland, Inspector of Mines; G. Bateman, secretary of Ontario Mining Association; A. G. Burrows, G. R. Mickle and many other prominent mining men, all add to the interest of the edition.

Drafts and Money Orders

Drafts, domestic and foreign money orders, in any amounts, require only a few moments to prepare and are a safe and convenient form of remitting money.

With many branches throughout Canada and correspondents in all parts of the world, The Bank of Nova Scotia has the best of facilities for handling your remittances.

COBALT KIWANIS CLUB FORMALLY ORGANIZED.

Some weeks ago reference was made to the visit of members of the Timmings Kiwanis to Cobalt, where plans were under way to organize a Kiwanis Club. The visit of the Timmings men proved very successful and pleasant, and the Cobalt people and the visitors alike enjoyed the event. Since then the organization of the Cobalt Kiwanis has been completed. In the last issue of The Northern News, of Cobalt, appears the following:—

Formal organization of the newly-formed Cobalt Kiwanis Club was held in the Y.M.C.A. on Wednesday afternoon, when Eltinge Elmore, field representative International Kiwanis, Chicago, was on hand to lend his aid. Mrs. E. B. Whorley graciously presented the table flowers in evidence and also gave a boutonniere to each member. For the present the weekly luncheons will be held at 12.15 p.m. each Tuesday, the place of meeting being the Y.M.C.A.

The officers of the club are:— President, R. S. Taylor; Vice-president, F. H. Todd; Secretary, G. A. Cavin; Treasurer, H. E. Tomoney; District Trustee, Rev. Norman Rawson. Directors: A. D. Campbell, L. Stadelman, Father O'Gorman (three years), Hedley Tripp, Richard Pearce (two years), A. K. Roberts, P. F. McEwen (one year).

The chairmen of the different committees are: Attendance, L. Stadelman. Business Standards, R. Pearce. Membership and Classification, A. D. Campbell. Education, Father O'Gorman. Finance, H. G. Fitzgerald. Goodwill and Grievances, A. K. Roberts. House, P. F. McEwen. Inter-club relations, Rev. Norman Rawson. Laws and Regulations, H. E. McKee. Programme, F. H. Todd. Public Affairs, Mayor Armstrong. Publicity, Norman Pearce. Reception, W. R. Lowery. Music and songleader, S. W. Carriere.

Owing to the lack of the usual spring rains the Wabi river is reported as remarkably low and clear. A correspondent of the New Liskeard Speaker says that until the last couple of years no one thought of trying the old Wabi with hook and line, but now some of the boys are making quite good catches of ling, pickereh, etc., of large size.

NASH
Nash Leads the World in Motor Car Value
 Advanced Six
 Victoria
 Four Passengers
\$3534.00
 f.o.b. Timmins

YOU ARE BEHIND THE TIMES WITHOUT 4-WHEEL BRAKES

An Enclosed Car of Striking Distinction

G-R-A-C-E! The classic symmetry of the Victoria's long, low-swung body is deftly emphasized by the high sides, low-curving roof, and sweeping rear deck. *S-T-A-B-I-L-I-T-Y!* It has the delightful steadiness of weight properly poised, of spring construction special to Nash that absorbs all shocks, and of a massively rigid chassis.

F-I-T-T-I-N-G-S! There's a silver-finished vanity case of flush type; upholstery of mohair velvet; reading lights; a package compartment behind driver's seat; and a large luggage chamber concealed in the sloping rear deck. Included in the price as standard equipment are Nash-design 4-wheel brakes, full balloon tires, and five disc wheels.
