A fight in a house in town last week resulted in a call for the police. As a result of the visit of the police a woman who has served a previous term for vagrancy was placed under arrest together with a couple of men who will face disorderly charges tomorrow.

### CALEDONIANS HOLD SECOND SUCCESSFUL MASQUERADE

The second Masquerade Dance this season by the Caledonian Society of Timmins in the Hollinger Recreation Hall on Friday evening last proved a very happy and successful event. The attendance was very large totaling between 175 and 200, and the majority of those present were in costume. The costumes were noteworthy for interest and originality, and the judges had a very difficult time in deciding upon the prize winners. The young people in charge of the programme for the evening looked after the judging. The following were the prize winners as announced: Mr. Larry Murphy, Mr. McTaggart, Mrs. R. B. Simms and Miss McNaughton. The Dutch costume of Mrs. Simms was a particularly good one and complete in every detail. There were chocolates for the youngsters in costume, all of the boys and girls in costume being cleverly garbed for the occasion. The President of the Society, Mr. D. Mackie, occupied the chair during the early part of the evening, and Mr. P. Larmer, the secretary, presiding during the latter half of the programme, the President being called away. Dancing was the chief feature of the programme, the Circassian Circle, Quadrille, Eightsome Reel, Highland Schottische, Cinderella Waltz, Pickles and Veleta Waltz being enjoyed. Solos by Mr. H. Unsworth were much appreciated, as was also the cleverly-given readings by Miss Betty Patterson. Mr. A. Roberts and staff looked after the refreshments in the usual pleasing way. Music was furnished by Messrs. Hale and Bridges. The committee in charge were highly complimented on the success of the evening.

The next regular meeting of the Caledonian Society, on Friday evening of next week, May 22nd, is expected to take the form of a Box Social.

### WEARERS OF BI-FOCAL LENSES

will be interested to know that we have a new Tri-focal lens, made by the Bausch and Lomb Optical Co., which gives an additional focal length, half way between that of the distance lens and that of the reading segment.

In this new lens, the "jump," or displacement of the image, which is an annoying feature of all bifocal lenses, has been entirely eliminated.
