## Falls and Timmins Baseball Group to Play Off With South

**Timmins and Falls Will Contest for Honours of North. Cobalt, Haileybury, Liskeard and Kirkland Lake Form Southern Group. Winners of the Groups to Play Off at End of Season.**

As noted in The Advance last week there was a plan under way to form a baseball league to include Timmins, Iroquois Falls, Cobalt, Haileybury, New Liskeard, and Kirkland Lake in one big Northern Baseball League for this summer. On account of the distances to be travelled and the consequent expense of a schedule to include the six towns, the plan was found impractical. Instead, it was decided last week to have Kirkland, Cobalt, Haileybury and Liskeard form one group, and Iroquois Falls and Timmins another. At the end of the baseball season the winners of the two groups will play off for the honours of the championship of this North Land in baseball.

In consequence of this decision the district baseball in this section this year will be between the old rivals—Timmins and the Falls—as in past seasons. In addition to the district championship there will be the incentive of the play-off for the honours of the two groups.

Mr. G. F. Summers, of Haileybury, is the President of the Temiskaming Baseball League this season, and at a meeting held in his office it was de-

cid to admit Kirkland Lake to the southern group. The meeting further suggested that Timmins and Iroquois Falls play the season as a northern group, the winners of the two groups to play off. In reporting the meeting The Haileyburian last week says:—

"The two northern towns had made application to join the league, but wished to be included in the Southern group. The representatives of Haileybury, Cobalt and New Liskeard, while wishing to have the northern towns included, were unable to see how the long trips could be financed, and made the recommendation that a play-off series be held at the end of playing season. The trips to and from Kirkland Lake during the season will be made by auto. It was decided that all players participating in games in the league must be the possessors of amateur cards, and they must be bona fide residents of the towns for whom they are playing before the date of the opening game. It was felt that the public liked to have ball games start on time, and teams responsible for any game being delayed in starting are to be fined."

## Something Should be Done to Guard Road at McDonald Lake

**Dome Correspondent Points Out Danger and Suggests Remedy. Dome Gets Two-goal Lead on Kirkland Lake in Dickson Cup Game. Soft Ball Away to Good Start. Other Items of "Dome Foam" This Week.**

Miss Mary Sneddon, of Toronto, is visiting her uncle and aunt, Mr. and Mrs. J. Fell.

What might have been a serious accident was narrowly averted by good luck on Saturday. Mr. A. Tomkinson was driving on the hill near McDonald Lake and through the condition of the road caused by the unseasonable snow and a too sudden application of the brakes the car turned over. Next to come was Mr. J. Robertson, who just managed to stop in time to avert a collision with the overturned car. Then Mr. H. J. MacDonell came along and after safely passing the first car had to take to the four foot deep ditch to miss the other. While chains would undoubtedly have helped and possibly prevented the mishap, the main point is this: That the McDonald Hill is DANGEROUS, and with a combination of weather hazards and bad luck, another such fatality as took place on another hill near the McIntyre, will be next on the list. As a preventative we would suggest that the Powers-that-Be in the Township take a look over the dangerous possibilities existing at that place, and then, no doubt, steps will be taken to erect some such cable fence as is now on the McIntyre Hill. When this is done, or some other expedient adopted, motorists will have more confidence that their car will not land in the lake some time.

Mr. Percy Andrew is away to Montreal to see a young friend safely take the boat to Motherwell, Scotland.

A notice to this effect, "Don't disturb until 5 p.m.," was discovered on Mac's bed-room door; this might give the impression to the uninitiated that he was working graveyard shift, and judging by the signs of life that were conspicuous by their absence the next room to his also shelters night workers.

Mr. Robt. Stark of the Office Staff is taking his vacation.

The Soft Ball (Mine League) got away to a good start last week and judging by the scores the boys sure can hit. The Mill beat Engineers, 24 to 12, on Thursday and the Mechs Office beat the Mine, 12 to 10, in a 7-innings game. The weather has been against every form of sport (excepting indoors) and against Soft Ball in particular. Here's hoping for good weather! We know the class of ball that the boys will put up will be worth watching, when Old Sol finally remembers that this is one of the summer months, according to the early closing, half holiday cards in the stores.

Mr. Nathan Henry, who is well and favorably known here, has had a long hard siege of illness in the Toronto General Hospital. He is now recuperating at the home of Mr. John Mason, who has erected an open-air balacony where Mr. Henry will be able to get the benefit of the fresh air and sunlight. If well-wishes for his total recovery are any value he will be out

and around soon, because everybody is pulling for him.

The soccer enthusiasts who braved the inclement weather on Saturday last, had their reward in seeing a well fought game. The ground was white with a continually falling blanket of snow. Actually the game should have been called off, but as Kirkland Lake had travelled so far to play, the only thing to do, was to carry on. As the game will probably be described in another column, we won't say a great deal except that it was a good clean contest. The Lake sure had the boys guessing when they had the first two goals, and the Dome failed to register, but before half-time the score was equalled, and in the second half the home team had sufficiently the edge to pile on another two goals, the final whistle showing the result four to two. The Dome has a nicely balanced team and so has Kirkland and if the weather had been more suitable it sure would have been a hum-dinger. As it is, Kirkland will have to go some to overcome the Dome's two goal lead. The Dome goes to the Lake on Saturday next and the Dickson Cup will at last have a home until won again in the 1925 season.

Dr. N. Kirkup, who is one of the Vice-Presidents of the Dome Football Team, showed his sportsmanship in a tangible way on Saturday and both the Kirkland Lake team and our own have expressed their gratefulness for the gift, which sure was, "Just what the Doctor ordered."

Some of our local golfers have been out to Timmins recently and mysterious sounds of such words as "sliced," "niblick," "cleek," have been heard from the boys who go out to shoot golfs. As we are not well posted on golfing terms, possibly the word "shoot" is a mis-nomer.

The rugby teams all say that the Timmins team have been improved over last year's fifteen, and we know that any team that can hold our Dome stalwarts to a scoreless draw, must be a good team. With good weather, next Saturday, on the Dome grounds, the return game will merit a large attendance, and the rugby lads promise you your money's worth.

Look out for an essay on the Dome Mines and how the gold is extracted from the rock, in next week's issue. This essay is not for the eyes of the expert millman but will be an effort to put into non-technical words a subject that the majority are not sure just how it is done.

"Mose, can you explain wireless telegraphy to me?"

"Yessuh, It's like dis: Ef you--all had a long, long hou' dawg, an' he stretched from Cincinnati to Cleveland, and you stepped on his tail in Cincinnati, he would howl in Cleveland. Dat am telegraphy. Only in wishless you does de same thing without the dawg."

—Columbus Dispatch.

# Buy Your Counter Check Books in Timmins

It will prove more convenient and satisfactory for you all round. The price will not be any more, and it often will be something less, than charged by outside firms for a less convenient service. A full line of samples may be seen at The Advance Office. Just call up Phone 26 and have these facts proved to your entire satisfaction.
