Several local radio fans report hearing General Electric Station W.G.Y., Schenectady, N.Y., broadcasting the whole Sparks Circus programme last Monday evening. Others report the reception as none too good. All, however, were interested in the broadcasting, particularly in view of the fact that the Circus is to be in Timmins this coming Saturday.

(About 2.30 Friday afternoon there was a fire call to 158 Elm street, Gauthier Townsite, the residence of Mr. McDevitt. The fire was a chimney blaze and no particular damage was done. The smoke was the worst feature of this fire, apart from the burden to the fire team in hauling the heavy equipment such a distance in so short a time, and through such bad roads.)

This week The Advance is in receipt of a couple of communications, both of which had to be consigned to the waste paper basket, as they gave no indication of the source of their origin. It is not necessary always to use the name of the writer, but the name must always be submitted as an evidence of good faith.

Every Lens is its Own Prescription.

Many people are under the impression that when they break a lens they must produce a written prescription to have it duplicated, or else send to a far-away city where their original prescription is kept on file. The importance of having broken lenses accurately duplicated cannot be over-estimated, but it is only necessary to bring us the broken pieces; we can replace your lens in a few hours.
