The Groom's Gift to the Bride

GEORGE ANDERSON had the reputation of being a practical young man without much sentiment.

Consequently, when it transpired that the groom's gift to the bride was a Mutual Life Insurance policy on his own life for \$5,000, some of her friends laughed and said, "I told you so."

But Nellie didn't laugh. She looked at the policy and a mist came into her eyes. She knew that the sentiment George felt was deeper than that which is expressed by trinkets of gold, silver and precious stones.

"He has dedicated his life to me," she whispered. "What more could I ask?"

A policy in the Mutual Life of Canada is an asset which makes for happiness and peace of mind. No young man who marries should neglect to establish such an asset. Mutuality reduces the cost. Write to-day for the Mutual Book.

THREE CAMPS STOPPED WORK WHEN ONE CAT DIED

All the mines in three camps—Cobalt, Kirkland Lake and South Lorrain,—stopped all work for five or ten minutes one day recently while a single cat was kicking the bucket to its nine lives. The cat got up on the power line and placed one paw on one wire while its tail rested on another very live wire. The result was that something like 44,000 volts passed through the cat's body. Any electrician can give you the answer without seeing the cat. As a result of the frying of the cat the power went off for all the mines and it took five minutes or more to remove the cat and get the power rightly on again. This is one cat that will not come back.

BLACK FLIES REPORTED AS VERY BAD AT PRESENT

Prospectors, campers and fishermen returning from the woods these days report the black fly crop as particularly large this summer and especially vicious. One gentleman who spent a few days on a fishing trip returned with arms and legs looking like a smallpox case from the black fly bites. The most of men are troubled by black fly bites, though occasionally there is one that appears immune. But then there is always an exception from the general rule. For instance at Washington, D.C., the U.S. Dept. of Agriculture has been carrying on experiments to test germicides and have been using dogs to father fleas in connection with the work. The experts now have discovered a bull pup on which no kind of flea will live. As fast as the insects are placed on the dog they hop right off again. The scientists are now worrying to find out the secret of the bull pup's immunity from the common curse of dogs.

Though the black flies are bothersome at present in this section, there are other districts much worse affected. Not far from Sudbury moose are actually reported as being driven out of the woods by the flies. Last week one moose deliberately pastured itself at Judge Mulligan's camp at Lake Ramsay, and another joined a herd of cattle on a farm near Sudbury. Even the chance of a bullet was preferable, these moose thought, to the absolute certainty of the black flies. And then, again, perhaps the moose knew how poor at shooting the folks around Sudbury are, except in regard to hockey.

A BAD GOLFER MAY BE A GOOD FELLOW AFTER ALL

Some of Them Even Go to Heaven, Following the Rules Being in Their Favour.

The following five verses by Edgar A. Guest, and which appeared in the Ottawa Morning Journal of Wednesday last should contain an appeal to quite a number of the members of the Timmins Golf Club. All golfers know the strain on the temper it is when a low drive lands in the bunker on No. 4 fairway, and you go down to find the ball lying snugly in somebody's footprint. Someone who perhaps had the fortune to drive over the bunker but did not wish to walk around, and took the easier course of climbing over. Again when a nice two hundred yard drive is spoiled by stopping up in a hole caused by someone taking out a slice of the soil and neglecting the admonition on the score card of "Please replace Turf." The title of the following poem is "The Bad Golfer Who Was Good," and is as follows:—

"I'm a golfer, St. Peter!" the spirit proclaimed.
 "And of much I have done I am truly ashamed,
 I have flubbed and I've dubbed to my pitiful cost,
 But I blamed not the caddie whenever I lost."

"I've sliced and I've hooked and I've been in the rough,
 Twenty years I've played golf, I've had trouble enough!
 "I've cursed when in sand traps, of that there's no doubt,
 But I covered my footprints before I went out."

"I'm a golfer, St. Peter! just one of the mutts,
 My sins they are many, I've taken three putts
 Countless times when I shouldn't, my record is black,
 But always the divot I cut, I put back!"

"I'm an old hundred shooter! I thought I was great
 Whenever I finished around ninety-eight;
 I was slow at the game, I confess it to you
 But I never refused to let others go through."

"Come in," said St. Peter, "come in and sit down!
 Come in and I'll give you a harp and a crown!
 I've a welcome for you, with the saints you may dwell
 For it takes moral courage to play bad golf well."

FIRST SHOT AT HIMSELF THEN CUT HIS OWN THROAT

A farm laborer named Hueston, living at Campbell's boarding house at Charlton, showed special determination to kill himself some days ago. He first attempted his life by shooting, but succeeded only in clipping a piece out of his ear. One of the hotel employees heard the shot and investigated, finding Hueston lying on the bed apparently dead with blood streaming from the side of his ear. He rushed to call a doctor and in his absence Hueston sat up, reached for a hand mirror and slashed his throat with his knife. He gashed his throat from ear to ear, severing veins and arteries, and when medical help arrived Hueston was dead. Hueston had been working on farms near Charlton during the spring, and had been noticed on account of acting rather queerly at times.

Cochrane tax rate this year will be 50½ mills for Public School supporters and 49½ for Separate School supporters. Last year the rates were 58¾ and 57¼ respectively. The reduction of over seven mills in each case is a pleasing one.

North Bay proposes to pave nine more blocks of the principal streets of the town this year. North Bay apparently intends to eventually become an all-paved town. Paved streets are by far the cheapest and the best in the long run. North Bay would have been money and comfort ahead if the paving programme had been started years before it was.

ACROSS CANADA AND BACK

The wonder trip of the coming Summer will be conducted by Dean Laird, of MacDonald College, to Victoria B.C., and back.

Inspired by the success of the trip to Victoria last year on the occasion of the Teachers' Federation meeting at that point, and filled with patriotic motives for everyone to see their own country, the Dean has arranged for a special train of standard sleeping cars to leave Toronto on July 20, visiting Port Arthur, Fort William, Winnipeg, Regina, Moose Jaw, Calgary, Banff, Lake Louise, Vancouver, thence Steamer to Victoria.

Returning, the trip will be via the Okanagan Valley, Nelson, the Kootenay Lakes, Windermere Bungalow Camp, from which place the party will be motored to Banff, 104 miles over the newly completed Banff-Windermere Highway, the most charming and awe-inspiring trip it is possible to conceive, with stops at Radium Hot Springs, Vermilion River, and Storm Mountain Bungalow Camps—another day at Banff, then Edmonton, Saskatoon, Devil's Cap Bungalow Camp, near Kenora on the Lake of the Woods, steamer from Fort William to Port McNicoll, thence rail to Toronto, where the trip will terminate on August 10.

Everything is included at the price of \$325.00 from Toronto; transportation, sleeping cars, accommodation in hotels and bungalow camps, meals in diners, hotels and on steamers, sightseeing tours at points visited and all gratuities.

While appealing primarily to teachers, the tour is open to everyone desiring to go.

All welcome.
 Fares from other points than Toronto will be named and descriptive illustrated booklet sent on application to Dean Laird, MacDonald College P.O., Que. -14 t-f

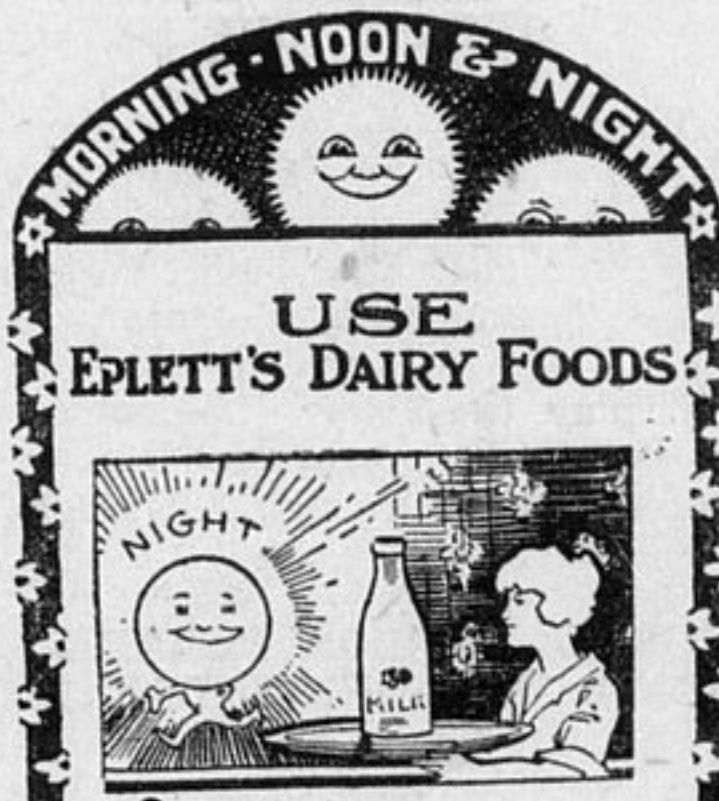

Always Buy "SALADA" GREEN TEA

The little leaves and tips from high mountain tea gardens, that are used in SALADA are much finer in flavor than any Gunpowder or Japan. Try it.
