

For Baby's Bath

More than that of any other member of the family, baby's tender, delicate skin needs the greatest care and attention. The soft soothing oils in Baby's Own Soap make it specially suitable for babies, and its clinging fragrance reminds one of the roses of France which help to inspire it.

Timmins Wins Again From the Improved Papermakers

McConnell Goes the Full Route for the Miners and is Given Brilliant Support by His Team Mates. Smith Hit for the Circuit in the Seventh.

(By J. N. Levine).

On Wednesday last the Miners hooked up with the Papermakers on the Miners sand lot for the 2nd encounter of the season, and as a result the league standing now reads: 2 wins and no losses for the fast-going Miners.

The weather was very threatening which kept the attendance down to a handful and rain fell at different stages of the game.

The Miners trotted out their kid battery in McConnell and Kennedy, and the latter came through like a veteran. In the 2nd, with two on and as many out, his triple past 1st scored two and put the Miners in the lead, and they remained there to the end.

Gordie Smith made his initial debut with the Miners in centre and he lost no time in showing his sterling quality as a ball player and he made a great hit with the fans and he no doubt will be a great favourite from now on, besides being a tower of strength to the Miners. In addition to being an outfielder of a very high calibre, he can take his turn on the mound and dish them up from the port side and can also do a good job at 1st base.

Smith's contributions offensively a base on balls, a single and a home run, and he handled his chances in the outer garden flawlessly.

Murphy at 2nd had a very busy day, accepting 9 out of 10 chances in perfect style, and his only error was a difficult chance. He was also the pivot on two fast double plays.

Kennedy behind the plate is probably the youngster in the league. His performance was very good and he is a valuable acquisition to the Miners' line-up.

Scully and Abrams in left and right handled everything that came their way. Although Scully went hitless he converted his two walks into runs.

For the Papermakers, Cunningham was back at his old position at 3rd. Defensively he made a big improvement on their infield, but proved a false alarm at bat.

Evans on the mound was quite consistent with his free passes to 1st. He walked 3 and hit as many, and 5 of his 6 free transportations to 1st, developed into runs.

McConnell on the mound for the Miners came through with a very creditable performance. He struck out 6 and issued 3 passes. He worked smoothly until the 8th, when a double followed by a walk and two singles resulted in two runs. He then tightened and finished in great style.

CHANGES MADE IN DRAFT BY METHODIST CONFERENCE

The Toronto Methodist Conference made sixty changes in the draft of stations as first announced. The changes affecting this part of the North Land are given below. It will be noted that by this final draft Rev. Mr. McVitty is moved from South Porcupine. There will be very general regret at this, as Rev. Mr. McVitty has made innumerable friends all through the district and is held in the very highest regard by all.

New Liskeard district—New Liskeard to be supplied instead of having W. L. Lawrence, who goes to Sault Ste. Marie; Uno Park, John S. Veals, instead of I. G. Perkins.

Cochrane district—Iroquois Falls, Fred J. Wowles, instead of H. Pawson; Connaught, to be supplied instead of having John Moulton; South Porcupine, Frederick G. Bain, instead of G. C. McVitty; Kapuskasing, John L. Moulton instead of J. H. Moore.

This (Wednesday) evening the young people of the Union Church at Porcupine Junction are presenting the laughable comedy, "Safety First."

AN IMPORTANT CHANGE IN POLICY

STUDEBAKER herewith announces the discontinuance of the custom of presenting a new line of automobiles each year. Instead of bringing Studebaker Cars dramatically up-to-date once in twelve months, we shall keep them up-to-date all of the time—with every improvement and refinement made available by our great engineering and manufacturing resources. This policy not only directly benefits present Studebaker owners, but it also enables purchasers of new cars to obtain models that are always modern—without the necessity of waiting for annual changes, and without the danger of their new cars becoming obsolete.

BACK of this new policy is an amazing story—of interest to everyone who owns or expects to own an automobile.

The dramatic success of the present line of Studebaker Cars is one reason for this important change. Month after month we keep breaking records—sales keep piling up. This year we will sell almost four times as many automobiles as we produced in the big boom year which followed the war.

Owners report endurance records, even beyond our greatest expectations. Out in the rugged mountain regions where Studebaker sells four times its normal proportion of cars, owners talk about these models in the most extravagant terms. In 1924 the Corporation's sale of repair parts dropped to \$10 per car per year. Mechanical stamina under severe usage—remarkable performance under the most difficult travel conditions—these are the qualities for which Studebaker Cars have long been noted.

Surely, these significant facts prove beyond any shadow of doubt that Studebaker Cars are so soundly engineered and manufactured and so eminently satisfactory in the hands of owners, that drastic annual changes are not required.

Improvements and refinements will be made from time to time. New features will be added. When our engineering department (maintained at a cost of more than half a million dollars a year) devises an improvement in any model, it will be made without regard to the calendar.

As in the past, we shall continue to pioneer vital betterments that have proved their merit through practical use. Alert, aggressive, receptive to new ideas, resourceful in executing them, guided by scientific research and spurred by imagination, the Studebaker organization proposes to build better motor cars than ever before.

Now you may buy a Studebaker on any day of the year with the confident assurance that the sturdy, thrifty, one-profit car you drive away will not be stigmatized by any act of ours as a "last year's model." Today, in even more generous measure than in the past, Studebaker Cars offer the utmost value for the money.
