**SHOULD THINK OF ROADS
IN TERMS OF MILLIONS.**

At a recent meeting of the Associated Boards of Trade at Englehart some of the delegates present expressed the fear that half a million dollars a year for three years was too large an expenditure to expect for roads west of Cochrane. The amount of money involved appeared to stagger the delegates referred to. The fact of the matter is that if the big problem of the North Land—Roads—is to be dealt with properly and effectively thought in connection with it must be in millions of dollars. For ten years now the problem has been simply irritated by paltry appropriations. West of Cochrane there is a stretch of well-settled country with about 8,000 people on the land, and all practically road-less. Over this stretch of some 130 miles in length, practically nothing has been spent. The few little appropriations made have been in the nature of flea-bites to an elephant. Are the 8,000 settlers in this area to be doomed indefinitely to packing on their backs, in and out, during the greater part of the year, the supplies they need, and the produce they raise? Are they to be given no chance at all in their earnest efforts to develop the country?

Practically every problem of the North Land goes back to "Roads." "Roads! Roads! Roads! And more Roads!" said Rev. Father Lajoie to the Ontario Associated Boards of Trade at Toronto last year. It is a big problem, and a big country, and it will have to be tackled in a big way. If any success is to be achieved in dealing with the problem, the Government must start to think of the question in terms of millions of dollars. For power, for education, for good roads down south, for health, for the general welfare in any way, the big men of the Government at Queen's Park never hesitate to think in terms of millions. Indeed, they realize that only in terms of big money can many big problems be properly attacked. In the case of the North Land's need for roads, the truth of the fact that so big a problem can only be handled in a big way should be apparent. Millions are coolly spent to enforce the Ontario Temperance Act. Why not a few millions for the development of a great and promising country? Nothing will ever be accomplished by a policy of dabs and dribbles. Let the Government think in terms of millions of dollars on this problem of roads for the settlers of the North! Let the people think in the right terms of big money well spent. And for every dollar so expended there will come back two in greater prosperity and advancement and true progress.

No one denies the idea that this country should be settled. No one disputes the fact that agriculture is the basic industry. There can be no progress without roads. The settler must have roads to get his supplies in and his produce out. He must have roads to be able to get his children to school. Without roads he can not truly live. But roads mean millions of dollars! Then are we afraid to court our destiny? Let the Governments and people alike face the facts fairly and bravely and think in terms of the millions of dollars that are necessary.

**HAS THE STAR NO PLACE
FOR THIS COUNTRY'S FLAG.**

Some weeks ago there was one of those "flag incidents" in Toronto, and the Toronto Star had stern rebuke for a policeman who took a foreign flag from a motor car where it was being flaunted without a British flag to protect it. The Star had not a word of censure for the thoughtless foreigners who thus unduly flaunted their flag in glaring discourtesy to the country that was giving them hospitality.

In regard to another flag incident, The Star last week says: "Two young Nova Scotians motored into Maine with their flag on their car, but hadn't gone far until a village crowd gathered, ordered the flag removed or trouble would result. These two young men were wrong. They should not have carried their flag across the border without displaying alongside it an American flag of equal size. As it was they were guilty of an affront."

In other words Canadians are to be severely censured for displaying the British flag, and at the same time Canadians are to be scorned if they resist in any measure the senseless flaunting of foreign flags in this British country. Apparently The Star thinks that only foreign flags should be respected, and that compared to foreigners, Canadians are always in the wrong anyway. It passes the love of the Star why The Star continues to

reside in this country, believing as it evidently does that Canada is the only land on earth that deserves no respect, and that Canadians are the biggest boobs and the rawest toughs on earth. Perhaps, The Star remains here just to punish what it believes to be a rotten country and a scurvy people. If so, the punishment is almost more than we can bear.

**BOYS BROKE WINDOWS AND
PARENTS TO BE IN COURT.**

As an aftermath of the breaking of a number of windows in the Moneta School some days ago the parents of several boys will be in court to-morrow (Thursday) to see if they are not entitled to pay for the damage done. One local firm will face a charge of fast driving of a motor car on one of the main streets of the town. There are several drunk charges for to-morrow's court, but otherwise the docket is not a very lengthy one.

**PRESENTATION MADE TO
MR. M. TONKIN ON SATURDAY**

The Cornish One-and-All Football Club held a very pleasant social evening at the Hollinger Recreation Hall on Saturday evening. The event was made the occasion for the presentation to Mr. Martin Tonkin of a handsome gold tie pin as a mark of the esteem and regard in which he is held. Mr. Tonkin has been the outside right on the Cornish One-and-All Football team and has been a valuable man in the line of football. In other circles he has also enjoyed much popularity, and the appreciation and good wishes expressed on Saturday evening were very sincere and general. Mr. Tonkin leaves on Thursday for the Old Country and he carries with him the best wishes of all. At the event on Saturday evening which took the form of an Ice Cream Social and Dance, there were about 150 present. Mr. G. Jenkins supplied the best of music for the dances. The gathering was delighted with the solos by Mrs. Richards, the selections on the piano and cornet by Master Carl Johns and the guitar music by Mr. Poad. All present agreed that the programme was an unusually pleasing one and the evening throughout a very enjoyable one.

Notes of Interest

James Gordon won the annual Y.M.C.A. race around Cobalt Lake on Dominion Day, making the three and one-tenth miles in 18 minutes and 21½ seconds.

The Sudbury Star last week says: "Mrs. J. J. Kehoe will be at home to her friends Thursday afternoon, July 9th, from 3 to 6 o'clock, in honour of her daughter, Mrs. F. J. Kehoe."

This looks like Picnic Week. On Tuesday the I.O.D.E. had a very enjoyable picnic at Golden City, those taking part in the recent presentation of "The Hottentot," enjoying the hospitality of the I.O.D.E. To-morrow (Thursday) the annual, Baptist Church picnic will be held, and on Friday of this week the Presbyterian Church picnic will be held, both at Golden City.

Work is in progress on the beautifying of the Hollinger Hospital grounds. Preparations are under way for a large lawn, flower beds, driveway etc., and the layout promises to be very attractive. An iron railing gives a finishing touch to the grounds. The grounds around the Hospital promise now to be one of the beauty spots of the town.

A Haileybury young man admitted some days ago in Cobalt police court that he had been drunk as charged by a Provincial Constable. "I got drunk on 4.4 beer," he told the court. The fine was \$20.00 and costs. The Magistrate very properly considers such a story as equivalent to saying, "I drank a barrel and a half."

There was a report around North Bay last week to the effect that the Widdifield farmer, Genereaux, had been killed by an explosion and not by a bear as first reported. Investigation by the coroner and the police, however, showed the report as utterly unfounded, the death of the farmer being undoubtedly due to wounds caused by a bear, claw marks being many on his body, as well as other certain evidences of attack by an animal, as well as there not being a sign of any explosive.

"Will you have something to drink?"
"With pleasure," replied the photographer's customer.

When the photo was taken the sitter said: "But what about that little invitation?"
"Oh, sir, this is just a trade ruse of mine to give a natural and interested expression to the face," replied the knight of the camera.
—Illustrated Leicester Chronicle.

She—"Do you know where all the empty bottles in the cellar come from?"

He—"I can't say. I have never in my life bought an empty bottle."
—Kasper, Stockholm.

Gladys—"Mother, here's a note left by Joan to say she has run away."
Modern Mother (to parlour-maid)—"Oh, Collins—tell cook only three eggs this morning, please."

Some men are bent with toil and some others get crooked trying to dodge it.
