#### UNEMPLOYED FROM OUTSIDE HAVE BURDENED TIMMINS.

At the Town Council meeting on Monday the Mayor, Dr. McInnis, suggested that the sort of publicity that own chances and injure the town's supplied by Emery's Orchestra. and wealth would be created and those Craik.

The business firms with which they were dealing found collections difficult. Some firms were forced to go out of business. More people were thrown out of employment"

This is the usual way in which towns reach the situation facing Timmins. But it was not the case here. The fact is that here after the town had prepared itself for the necessery adjustments, literally thousands of people from all over the country crowded into town. It was not a case of people in the town being thrown out of work. It was a case of people out of work being thrown into the town. Thanks to the various works in progress and to expansion at some of the mines, some of the influx of labour was taken care of, but so many came in that no town this size could absorb so great a surplus. Timmins this size. Timmins has been paying at even more noteworthy than usual. ren will also be a feature this year, has too many unemployed for a town charity and relief. It is a burden specially attractive one, with each of the rate of \$1200.00 per month for that no town could bear and prosper.

The unemployed and penniless from all over the coun-Perhaps, Timmins has not suffered much more than many other towns on the continent in the matter of unemployed, but this town's trouble has been with the unemployed pouring in here from other towns.

The remedy is for the rest of the country to remember that the labour supply in Timmins exceeds the demand, and that what this country needs is capital to develop its resources With that capital this country will not only look after its unemployed but will soon give employment and prosperity to others.

#### FAIR CROPS OF BERRIES IN DISTRICT THIS YEAR

Both blueberries and raspberries promise a fair crop in this district this year. The blueberries on the high sandy land are ripe now, but on the lower land are not yet ready for the pickers. The raspberries are not yet ready but with dry weather will be a good crop. With continued rain they will, of course, be poor in quality, being too" squashy," as one settler phrased it. There have been many from Timmins out picking blue berries this year, but though some good "catches" have been made, the erop is not ready yet. The weather to date has held back the proper ripening of the raspberries. Raspberries and blueberries are the main fruits of this section so far and it is hoped accordingly that the weather will behave so that the district may harvest its fruit crop to advantage.
