**NO CROP FAILURE EVER
IN TEMISKAMING DISTRICT**

Crops Still Promising Well in South-
ern Section of District.

Mr. Alec Dewar, President of the
Northern Ontario Associated Boards
of Trade, has won fame by his point-
ed questions and answers on the Agri-
cultural situation in the Province.

"What section in Ontario gives
the best yield per acre, in grains and
roots?" he asks. And he answers
himself, "Northern Ontario."

"Where is the best seed grown in
grain and roots?" And the answer
again is "Northern Ontario."

Now there is another question and
answer that Mr. Dewar may add to
his list.

"Where is the section of Canada
that has never known a crop failure?"
he may ask. And the answer will be
"The District of Temiskaming."

In his questions and answers, the
President of the Associated Boards
of Trade always backs up his state-
ments by accepted facts that prove
his contentions. He may do the same
in regard to the fact that this dis-
trict has never had a regular crop
failure. This fact was mentioned last
week by The New Liskeard Speaker,
and old-timers up here know it is the
truth all right. Of course, in this
immediate district farming has not
been carried on very many years on
any extensive scale, but around Lis-
keard, Englehart, Charlton and other
sections there has been successful
farming for twenty years. In that
time there have been repeated crop
failures in the West and in other
parts of Ontario, but Nature has al-
ways being reasonably kind to this
section of the North.

In the last issue, The New Liskeard
Speaker says:—

"Perhaps we of Temiskaming
never experienced so wet and cold a
spring and summer as during the pre-
sent year, and it has frequently been
asked, 'are our seasons changing?'"
We used to have such fine snony days
during June and July. This year,
the sunny day was the exception.
We now learn that reversed conditions
existed in Western Canada, where
there was a drought, and grave fears
for the crops were entertained. How-
ever, recently the weather became
cooler, with light rainfalls. In Tem-
iskaming, however, crops still give
fair promise, and we are hopeful of
a good crop. If there be good ripen-
ing weather, the crop here is assured.
Never was there such length of straw,
while, in any event, the root crop
will be an excellent one. There never
has been a failure of crops in Temis-
kaming, nor is it likely there will be
a failure this year."

**FORMER PROVINCIAL
OFFICER IN THE PAPERS**

Last week The Toronto Star carried
a very clear and interesting picture
of Provincial Officer Fred Simpson,
formerly of Timmins, but now sta-
tioned at Collingwood. Officer Simp-
son was pictured by The Star in the
act of putting up the printed notice
forbidding the public to interfere with
the Steamer Nancy. Recently there
have been so many souvenir hunters
taking mementoes from the Nancy
that it looked for a time as if every-
thing would be carried away. Accord-
ingly the authorities acted, so that
something might be left, and The Star
photographer snapped Officer Simp-
son while he was putting up the for-
mal notice in the matter.

**SPECIAL INVITATION
FROM HARRIS ABATTOIR CO.**

The Harris Abattoir Co. has issued
a general special invitation to the
butchers, grocers, bakers and con-
fectioners, and particularly the general
public of Timmins and district, to
visit their establishment on Wednes-
day (to-day), Aug. 5th. There will
be on display a full line of the Har-
ris Abattoir products, including fresh
meats, domestic shortening, flexo soap
meats, domestic shortening, flexo soap
chips, canned fruit and vegetables,
butter, eggs, cheese, etc., etc. The
invitation is extended to include all
interested. Everybody welcome, es-
pecially house-wives. Refreshments
will be served.

**CALEDONIANS HOLDING
DANCE ON AUGUST 10TH**

The Ladies' Committee of the Caledo-
nian Society announce a Dance to
be held in the Hollinger Recreation
Hall on Monday evening, Aug. 10th.
Dancing will commence at 9 p.m.
Refreshments will be served during
the evening. There will be the best
of music. Tickets are now on sale
at the nominal figure of \$1.00 per
couple. A good time is certain for
all attending, the many happy times
in the past, under the same auspices,
assuring the best kind of a good time.
This is the second annual dance held
by the Timmins Caledonians, as well
as special dance evenings enjoyed by
the Society.

Cobalt Kiwanis Club are fathering
a plan to erect and finance a building
that will serve as a theatre and a
hotel. The theatre part will occupy
part of the ground floor with the hotel
part taking the rest of the building.
It is expected the structure will cost
from \$75,000.00 to \$80,000.00 or \$90-
000.00. It is thought the plan can be
financed.

**THIS SOUNDS LIKE GOOD
NEWS FOR SUMMER TIME**

Dominion Dept. of Agriculture Meth-
od of Protection Against Black
Flies and Mosquitoes.

This year, with prospectors and
others driven from the bush by the
black flies and mosquitoes, the fol-
lowing bulletin from the Dominion
Department of Agriculture should be
of double interest:—

Certain protective mixtures applied
to the skin are of great value in
warding off mosquitoes, black flies and
similar pests, especially when the in-
sects are very numerous. A number
of formulas for such mixtures are
given in a pamphlet on the methods
of protection against mosquitoes and
black flies, just issued by the Entom-
ological Branch of the Dominion
Department of Agriculture. A mix-
ture recommended by the author is
composed of 3 ounces of oil of citron-
ella, 1 of spirits of camphor, 1 of
oil of tar, ¼ an ounce of oil of penny-
royal and from 4 to 6 ounces of cas-
tor oil. Another mixture consists of
2 ounces of oil of citronella, ¼ an
ounce of pennyroyal and 2 ounces of
castor oil. The castor oil is included
to prevent injury to the skin. Tallow
may be used instead if it is desired
to have the mixture in the form of a
paste.

When the insects are abundant it
is necessary to apply the mixture at
least once every half hour, using lib-
eral quantities and rubbing it thor-
oughly over the hands and face. Care
should be taken to have a sufficient
quantity of a mixture when on an ex-
tended trip in the woods. At least an
ounce per person per day is neces-
sary if the flies are anyway abundant.
The mixture should be carried in a
small aluminum flask or screw top
tin, but not in a glass bottle as it is
apt to break.

Quite a number of local devotees of
the sport made famous by Isaac Wal-
ton have been angling in the creeks
and streams round Timmins, famous
for their fish. Some of the anglers
have been successful, but others be-
lieve that it is a long time since some
of the streams boasted of any fish, and
consequently are more inclined to
stick to sports where the blackfly and
mosquito menace are not so great.
