JUDGEMENT RESERVED IN CASE OF T. & N.O. HOUSES

Argument Heard by Judge Caron Regarding Taxation of Houses for Employees.

On Friday of last week at Cochrane, His Honour Judge Caron heard the appeal of A. T. King from the decision of the Cochrane Court of Revision, which held that the occupant of a residence owned by the T. & N. O. Railway is liable for municipal taxation. Judgment was reserved in the matter and will be given at a later date.

Several towns along the T. & N.O. are interested in the decision that will be given, as the case is being used as a test case to determine whether or not railway employees living in a town and occupying houses owned by the railway should pay municipal taxes. The solicitor appearing for Iroquois Falls is understood to take the stand that he would not consider the facts in the King case as proving or disproving cases that occur in the municipality he represents, but that he would attack the agreement existing in this matter between the Railway and its employees.

In his evidence Mr. King said the house was used partly for railway purposes. Three or four times a week he had to interview people at his house in regard to railway business. The Commission would have the right to use part of the house for office purposes if it so desired. He received \$212.00 a month, with house, fuel and lights. He had an agreement with the T. & N.O.

Mr. R. H. Parmenter, Toronto, representing the appellant, argued that under the law where occupancy of a house owned by the Crown was obligatory, the occupant was exempt from municipal rates. He said that had the facts submitted in the King case been presented to the Supreme Court in the case where the court had decided that the railway tenants were not exempt, he was sure the decision would have been other than it had been.

Mr. Duranceau, solicitor for Cochrane, quoted cases where English precedents showed that there should be no such exemptions. The agent's house was not an office and railway business transacted there was merely incidental.

Evidence was also given by Senator Gideon Robertson, but the Judge did not consider the Senator's evidence as being important to the case before the court, and he was not cross-examined.

After hearing the evidence and argument judgment was reserved.

BAND CONCERT FRIDAY EVENING OF THIS WEEK.

The regular open-air band concert by the Timmins Citizen's Band will be given at the new band stand on Spruce Street on Friday evening of this week. Thursday would be the regular evening for the band concert, but as the Band is turning out for the Lancashire-Cornish Benefit Football Match on Thursday night, the regular band concert has been postponed to Friday night. There will be a specially good programme for the band concert on Friday evening this week.

The annual meeting of the Northern Ontario Associated Boards of Trade will be held on Thursday, Sept. 17th at Cochrane.

SMALL FIRE LAST NIGHT AT MAPLE LEAF HOTEL.

A little after nine o'clock last night the firemen had a telephone call to the Maple Leaf Hotel, No. 2 Balsam Street, South. Some papers near a partition had taken fire. The damage done was inconsiderable. The brigade answered the still alarm in the usual prompt way, the motor truck getting to the scene in very short order.

During the week-end there were a large number in to Timmins from Iroquois Falls by motor car, and an equal number visiting the Falls from Timmins by auto. All report the road in fine condition, except the "back road from Timmins to South Porcupine."

**TIMMINS FOOTBALL TEAM
ENTERTAINED AT WINDSOR.**

Saturday evening after their victory over North Bay, the Timmins Football Team and officers were the guests of Mr. P. Lacroix of the Windsor Hotel. They had a very pleasant time and speak in the highest terms of the kind and generous hospitality of the Windsor Hotel and the host, Mr. P. Lacroix. There was a generous supply of 4.4 beer, ice-cream, smokes, and other attractive refreshments. Mr. Jock Liddle, at the piano, favoured the gathering with songs and instrumental music. Mr. E. R. Street also rendered a couple of solos in his usual effective way. The evening was a very enjoyable one and the football boys were delighted with it.

OVER A THOUSAND WATCH CLEVER CLIMBING STUNT.

Saturday afternoon over a thousand people gathered in front of the Empire Hotel to watch Jerry Hudson, "the Human Fly," as he terms himself, climb the smooth face of the front of the hotel. There was a large proportion of youngsters in the crowd, and also quite a number of women. There was considerable curiosity as to how the smooth brick wall was to be scaled. Some thought the square corner would be used, but when the climber appeared he said he would climb about the centre of the front of the hotel. He made an amusing speech to the crowd, giving a number of interesting facts as well. He said that the dangerous stunts in Harold Lloyd's latest picture had been performed not by Lloyd but by Hudson. "It was my body and Lloyd's face," said Hudson, who explained that the substitution of faces was made after the pictures had been photographed and before the films were made. Hudson also explained that he could not afford to do his climbing feat for nothing, and so he was taking up a collection to defray expenses. He and some boys went through the crowd, and it is said that the money gathered ran over \$40.00. At any rate he said it was enough to do the stunt. The climb up the four stories of the brick wall was a feat of great cleverness and skill. Hudson added to the interest by his line of humorous patter as he went up. He made the climb by going from window to window. He drew himself from one window to the ledge of the next by reaching with his long arms. Though he made the climb in easy fashion apparently it required much skill, considerable strength, much training and a good head to do the trick. Of course, he had studied the building beforehand and knew how he could make it. He had a rope and ring attached at the cornice of the roof and hung there for a second or two by his teeth. Then he climbed the flagpole and did a few acrobatic stunts, on that high eminence. Later, he stood on his head on the edge of the roof. In the evening he repeated the performance before an equally large crowd.
