Ontario Teachers Pay Their Fifth Visit to the North Land

Welcomed to Timmins Last Thursday by Mayor and Others. Visit to Hollinger Mine and Other Points of Interest. Ladies' Aid Provide Excellent Breakfast and Dinner....Teachers and Town Alike Enjoy the Visit.

The Ontario School Teachers, on their fifth annual tour of the North Land, reached Timmins on Thursday morning at an early hour. These Teachers' Tours of the North originated through the efforts of Mr. A. E. Bryson, now of Toronto, but formerly of Cobalt Public School, who desired that the people of the South should have a correct and complete impression of this North Land and its wonderful resources. Mr. Bryson interested other teachers and also public men and others in the plan, and now the Tour is looked upon as a permanent feature and one that will confer very great benefit upon this North Land and be of striking advantage also to the teachers.

Apart from the members of the executive, the same teacher does not take in the tour a second year. In this way it is hoped to give all the teachers of all Ontario an insight into the possibilities of the North Land. It is worthy of note that the teachers thoroughly enjoy the tours, and also that the towns visited now look forward with much pleasure to these visits from the teachers. It is now established as a fact that the tours have done much good in spreading the truth about the North Land. Mr. Bryson said last week that he believed the effect of the tours to be very beneficial indeed in making generally known the circumstances and advantages of the North Land. Mr. Chas. G. Fraser, the genial secretary, now considered an old friend by hundreds of people in dozens of different towns of the North, adds to Mr. Bryson's idea the suggestion that the tours have been of greatest interest and pleasure to the teachers. It is certain that the first-hand knowledge thus gained by the Ontario teachers will mean that the story of Northern Ontario will receive special attention and interest in the schools of Ontario. The effect will be ad-

vantageous and cumulative, and will be even more valuable five years or ten years from now than to-day.

The teachers travelled by special train of eight cars, six of them being Pullmans. A nurse and physician accompanied the party. Elsewhere in this issue will be found a full list of those in the party, together with the names of the committee and the directors of each car.

His Worship Mayor McInnis welcomed the teachers here on Thursday morning, other citizens assisting in this agreeable task. There were a number of automobiles to take them around town and to the Hollinger Mine, after they had been shown the motion picture of the story of gold from its stage in the ore in the earth to its beauty in ornament and its value in coin. At the Hollinger Mine the party of teachers were shown around the surface and through the mill and other parts of the plant.

The Ladies' Aid of the Byrnes Church had provided a very attractive breakfast for the visitors, and at noon the ladies again fairly excelled themselves in the splendid dinner so well served to the party, numbering close to two hundred, in the basement of the Central Public School.

Mr. Chas. E. Kelly, of Hamilton, was the presiding officer for the occasion, and proved an expert at the work. After dinner Mr. Kelly called upon Mr. G. Roy Fenwick, musical director, to lead some community singing. Mr. Fenwick has proved a decided expert in his line, the choral singing being one of the features of the gathering. Pupils at the schools should have watched this feature to learn how to put heart and vim and enthusiasm into singing. "Little Liza Jane" was rendered in specially enthusiastic way.

His Worship the Mayor, Dr. J. A. McInnis, in a characteristic speech,

expressed the welcome of Timmins to the teachers. He complimented the party on the very large proportion of very fine looking young ladies, and then turned to more serious questions, urging the idea of the taking-up of forestry and mining studies in the schools. "Agriculture is now a school study," said the Mayor, "why not have the pupils study mining and forestry?" The Mayor emphasized the importance not only to the North but to all Ontario and Canada of the mining and forestry industries. G. A. Macdonald, Editor of The Advance; C. R. Murdoch, President of the Kiwanis Club and Town Engineer; Mr. Treleven, Principal of the Timmins High School; and Messrs. W. G. Smith, Deputy Fire Chief, and W. H. Severt were also guests of the teachers at dinner. All the addresses were brief but left no doubt as to the pleasure of Timmins at the visit of the teachers. Mr. Treleven in speaking of the progressive spirit shown in Timmins in regard to schools suggested that part of the reason for this might be the number of University graduates in the district. In the Hollinger townsite alone, he understood, no less than forty University graduates were living.

In a very effective address, Mr. John Munro, B.A., of Hamilton, expressed the thanks of the visitors for the kindness shown the party by the Mayor, the Ladies' Aid, the Hollinger Mine, the citizens who kindly loaned their motor cars, and the public generally. His vote of thanks along this line was very eloquently seconded by Mr. D. L. Somerville, of Port Hope, and the teachers carried the motion very enthusiastically.

Mr. Chas. Fraser, secretary of the committee, and the most popular young man of his age on the Tour, presented Mrs. Dorway, President of the Ladies' Aid, with a cheque for the meals served. Mr. Fraser in his own inimitable way gave a brief speech full of wit, humour and sound good sense.

At 1.15 p.m. the party left for Iroquois Falls. New Liskeard, Haileybury, Cobalt and Temagami were also visited on the trip south. Previous to coming here the party visited Sudbury, Creighton, Coniston, Sault Ste. Marie, the Gzawa Canyon, Hearst, Kapuskasing and Cochrane.

TOP YET TO BE ADDED TO NEW ROAD TO THE RIVER.

Some holes may be noted in the new road to the River, but there is no cause for alarm over these small depressions. The fact is that another coat of dressing has yet to be added to the road to the river to complete it, and any apparent little depressions now will be all smoothed out by the new top dressing to be applied. Instead of keeping on rolling the road and letting it harden before applying the top dressing, the contractors opened the road to traffic to do the rolling down. As soon as the road to South End is completed, the final coat will be put on the River Road, and it will be as smooth and as finished a pavement as could be desired.

IMPORTANT DEVELOPMENTS IN TOWNSHIP OF DENTON

Five Feet of High-grade Ore Struck at 216 Feet on Hazelton-Porcupine.

The recent placer gold discoveries south-west of Timmins have centered special attention on that section of country. It is pleasing to note that results from work on some of the claims in the area appears to justify special consideration, apart from any promise there may be in the placer finds. The Hazelton-Porcupine Gold Mines, Limited, who have undertaken an extensive diamond drill campaign, have struck five feet of high-grade ore at a depth of 216 feet, in their No. 1 vein. This argues well, in view of the fact that this ore was cut in their first hole.

Drilling is progressing very satisfactorily at the Hazelton, the second hole now being started. Further important results are expected shortly.

The active developments on properties like the Hazelton is very important to the country southwest of Timmins, in view of the fact that it has been known for several years that geological conditions are favourable, but no serious development has hitherto been carried on south-west of the producing area of Timmins district. There is also the further fact that development is taking place tying on to the Beauland-Hurst property on which Prof. Whitman recommended serious development work only a short time ago.

GROSS RECEIPTS FROM BAZAAR WERE \$6138.45

Event by St. Anthony's R. C. Church Proved Successful.

The Bazaar conducted in the Timmins Rink last week by the R. C. Church proved a very successful event. The weather was excellent, and the attendance and interest good. The gross receipts of the Bazaar totalled \$6,138.45. The Church expresses appreciation and thanks to all who assisted in making the event successful, with special appreciation for the Timmins Band and the Orchestra.

The different articles were won by the following numbers:—Ivory Clock, by No. 916; Box of Cutlery, 1829; Rocking Chair, 3386; Diamond Ring, 1106; Wooden Chair, 2098; Floor Lamp, 1659; Silver Tea Set, 511; Mantle Clock, 838; China Tea Set, 1971; Silver Tea Set, 738; Toy Car, 293; Doll, 125; Toilet Set, 2158; Bedroom Suite, 1536; Man's Suite, 2373; Washing Machine, 1764.

Next regular meeting of Town Council Monday afternoon, Sept. 14th, commencing at 4 p.m.

Fine Programme for Kiddies' Day at the Dome on Saturday

Attractive List of Prizes and Presents for the Youngsters. It Will be a Big Day for All the Kiddies. Goldfields Band in Attendance. Other Items of "Dome Foam."

Dome Mines, Sept. 1st. Special to The Advance.

Bruce Ross, who has been on the Mine Engineering staff and who was a decided acquisition to the Softball team left for his home in Coniston, where he will stay for a short vacation before going back to McGill. Bruce will graduate in 1926.

Mr. R. Wallace, our genial butcher, has gone to the Old Country for a two months' holiday. Mrs. Wallace and young Bob are with him. We envy him his trip and wish him bon voyage.

Mr. Dave Wallace is the new butcher. He is taking Bob's place for the holidays.

Mr. Tom Gibbons who has been troubled with an infected thumb, caused by a wood splinter, and who was reported last week as recovering, has had to have the hand re-opened and he is now in the Dome Hospital. Tough luck, Tommy.

Mr. R. Matthews, who pounds the typewriter, is away on a vacation to Toronto.

Mr. and Mrs. Tom Hogg, of Iroquois Falls were visitors to relatives last week.

Mr. and Mrs. J. K. McCaffrey and family have arrived home from a holiday spent at Utterson, Ont.

Mr. and Mrs. Percy Richards are back from an extensive and pleasant motor trip out to the Pacific Coast along the Lincoln Highway.

Mr. L. P. Marcell and Doctor Kirk-up went out early on the morning of the 1st for ducks. We haven't heard what the slaughter was, but we will wager that they both had a good time.

Mrs. Tom Parsons is away to her former home in Rossendale, Sask. In a letter received by Mr. Parsons the information was given that Reg. Humphreys and Lloyd had secured harvesting jobs at Rossendale.

The plans for the Field Day on Saturday next are fairly well matured. The various committees have spent

considerable time in their efforts to make the occasion a success. The presents and prizes are here and every child under 16 will receive a gift valued at one dollar whether or not he or she wins a race. The Porcupine Goldfields Band will be in attendance, not all of them, because of the number who work in stores, but enough to ensure that the music will be worth listening to. The first event will start promptly at one o'clock and will continue until all 25 events have been completed. It will be a day that the kiddies will talk about for months to come.

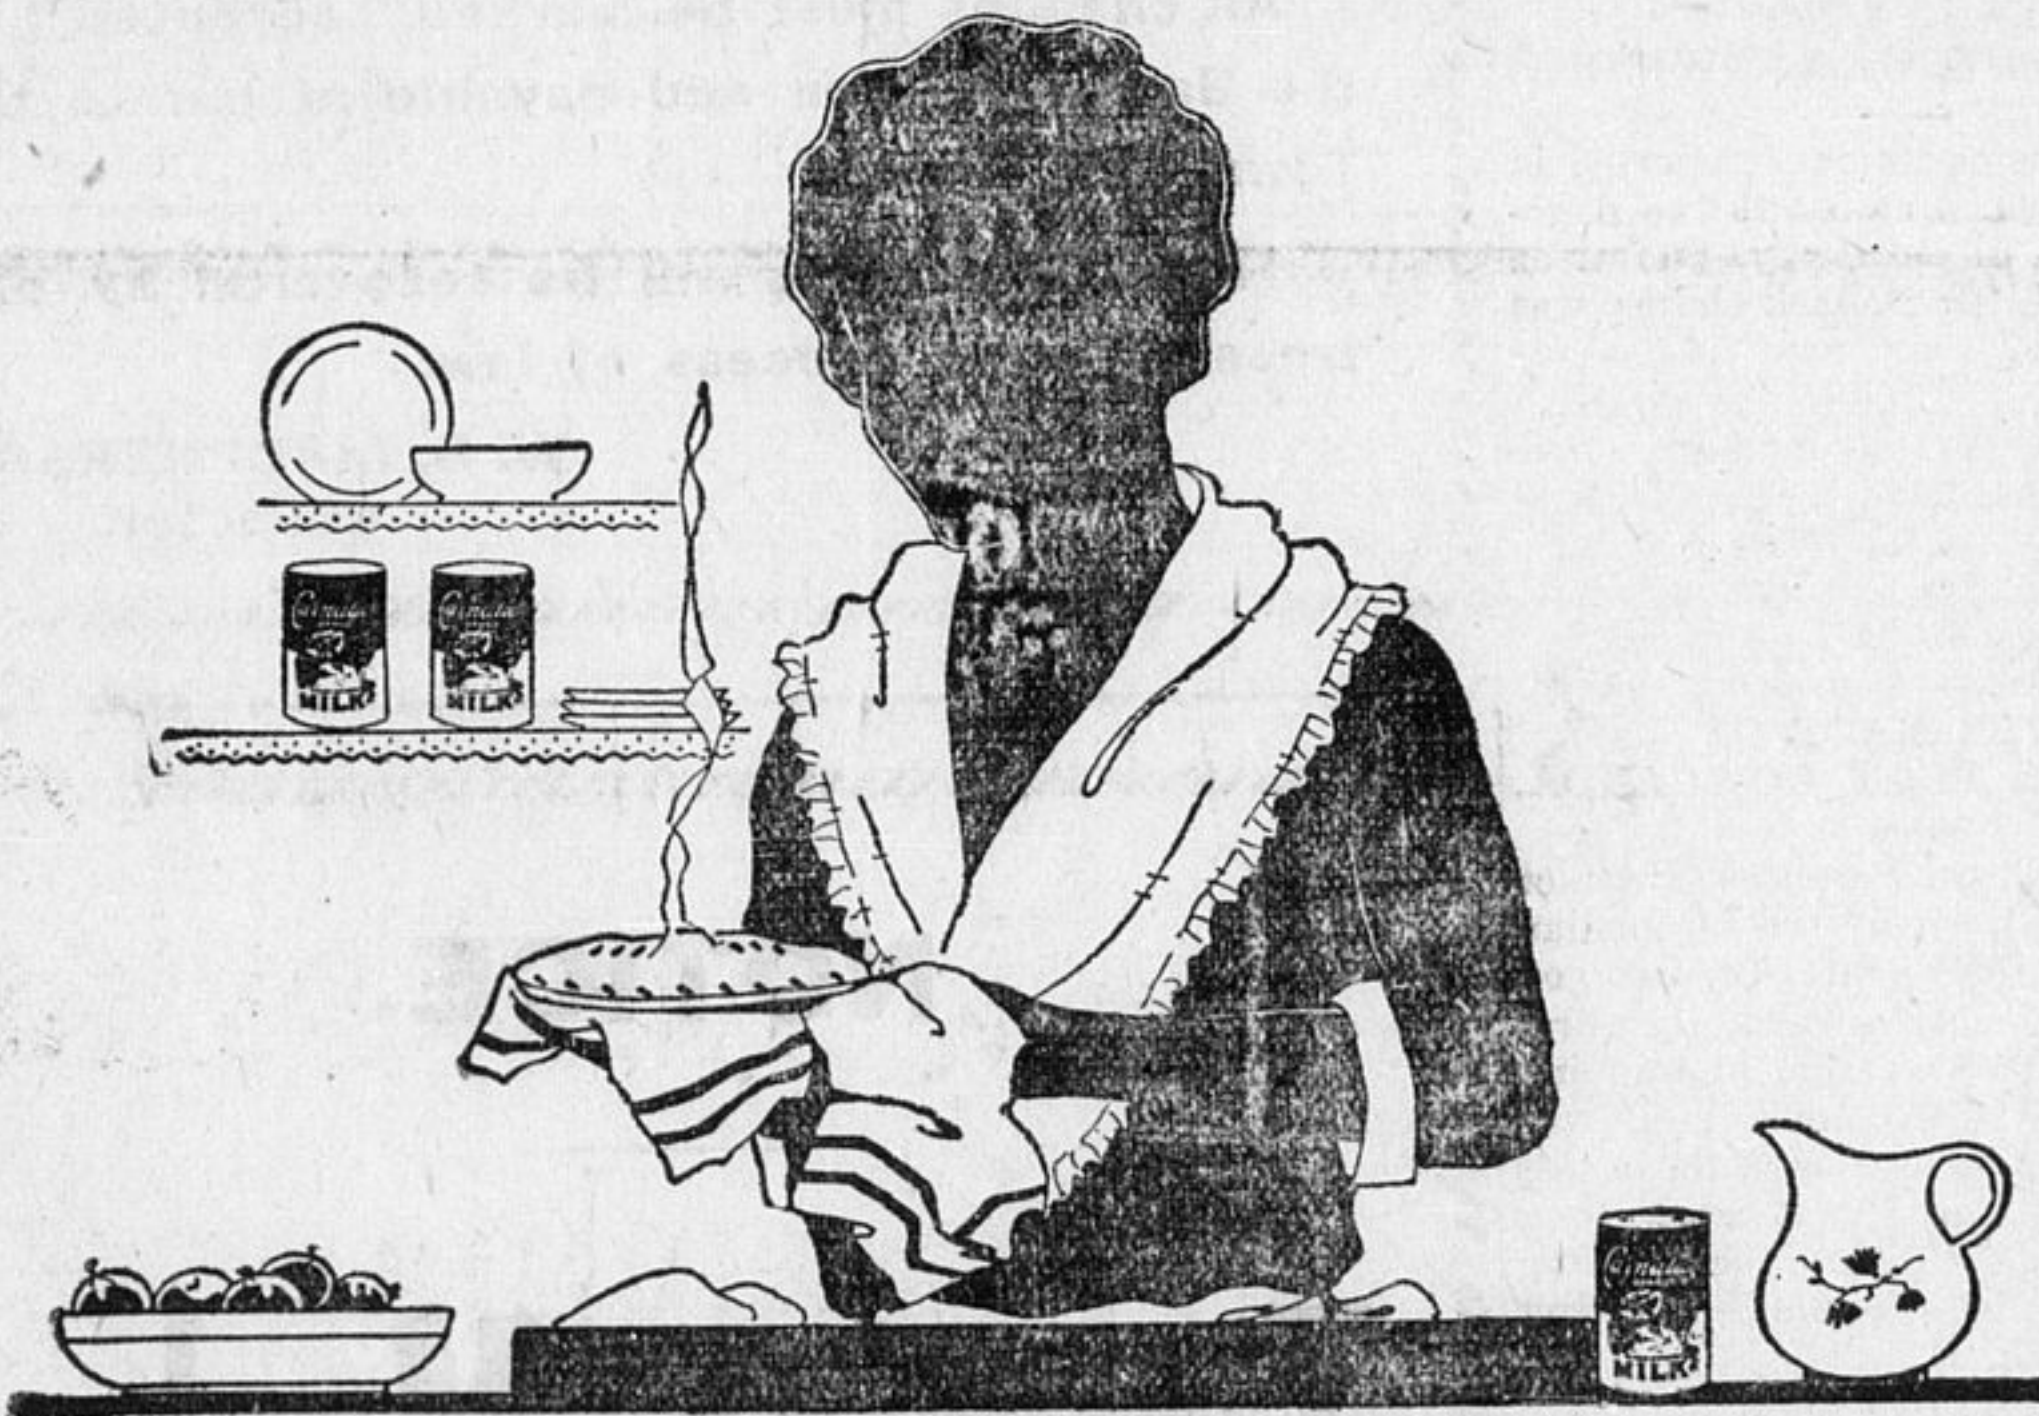

Mrs. Jim Murray and family are back from their lengthy vacation.

Mr. R. Gegg, more popularly and affectionately known to everybody as "Sunshine," has gone to take up a position with the Goudreau Gold Mine where Mr. H. Leslie is Superintendent. We are sorry to lose Dick as his cheery smile was always in evidence, and we trust that he will win rapid recognition of his capabilities in his new venture.

Quite an innovation in the line of sport was held here recently, a novelty for this year at least. The McIntyre hard-ball team played the South Porcupine-Dome team, and the following players, though they have been playing more softball than hardball proved themselves the winners of a dandy game:—Reid, pitcher; Longworth, catcher; 1st base, Parnell; 2nd base, J. Fell; 3rd base, Mason; short-stop, Sheaff; centre-field, Fidoe; right-field, Michaelson; left-field, Burke. We hope to see more of these hardball games.

Mrs. D. Hughes and family have arrived home from a vacation spent in Minnesota State.

Miss Audrey Bray, who has had a very severe bout of illness, and who has been in the Dome Hospital for the past two weeks, has gotten past the crisis and is now convalescent.

When Bakeday Comes Depend on Carnation

Uncertainties ruin many a milk dish through absolutely no fault of your own.

You want whole milk—you have only the skimmed milk left after you took the cream from the top; you should have two cups—you just have a cup and a half. Milk you thought fresh is just on the turn.

Why take those risks. Insure with Carnation Milk.

Carnation is just pure, fresh milk, evaporated to double richness, kept safe by sterilization. Nothing is added. Some of the natural water is taken away—all the food value left in.

Get it from your grocer. Tall (16 oz.) cans or by the case of 48 cans.

Carnation Milk

"From Contented Cows"

Carnation Milk Products Co., Limited, Aylmer, Ont.

Mary Blake's Carnation Recipe Book

is a splendid help to better baking and a great help to all housewives. Beautifully illustrated, its pages are packed with useful suggestions and information. Send the coupon today. It's free. Meanwhile, try these recipes:

ONE EGG CARNATION CAKE

3 tablespoons butter, ¼ cup sugar, 1 egg, 1 teaspoon vanilla, ¼ cup water, ¼ cup Carnation Milk, 1 cup flour, 2 teaspoons baking powder. Cream butter and sugar, add yolk of egg, vanilla. Add water and Carnation Milk alternately with the sifted flour and baking powder. Beat well, fold in the beaten white of egg. Bake in quick oven.

CARNATION GINGERBREAD

¼ cup shortening, ½ cup sugar, ¼ cup molasses, 1 egg, ¼ cup water, ¼ cup Carnation Milk, 2 cups flour, ½ teaspoon soda, 2 teaspoons baking powder, 1 teaspoon cinnamon, ½ teaspoon cloves, ½ teaspoon ginger, ½ teaspoon salt. Cream shortening and sugar, add molasses and well beaten egg. Add Carnation Milk and water and flour, soda and baking powder sifted together. Add spices and beat well. Bake in greased pan in moderate oven about twenty minutes. This serves eight people.

This coupon entitles you to one copy of Mary Blake's Cook Book which contains over 100 carefully tested recipes. Cut out this coupon and mail to Carnation Milk Products Company, Ltd., Aylmer, Ont.
