**THE MATTAGAMI SHOULD  
BE FREE FOR NAVIGATION.**

During the past week or two complaints have been frequent regarding the impeding of navigation on the Mattagami River. One day, booms blocked the passage of boats and another day it was loose logs in the river that interfered with proper traffic.

Some weeks ago a representative of the Department of Public Works visited here and if a letter from the Department is to be trusted a most remarkable situation seems to have developed. Probably, "ridiculous" would be a better word than "remarkable." Or maybe "remarkably ridiculous" would still better fill the need. According to the letter in question there should be no complaint made about blocking the river, "because no complaints have been received." Further it is suggested that there can be no blocking of the river, because "the lumber companies were surprised to learn that there had been complaints in the matter." To ask the lumber concerns if they had been blocking the river is like asking the ordinary speeder if he broke the highway laws, or the average blind-pigger if he would like to pay a fine for blind-pigging. All who use the river know that navigation is interfered with as a common occurrence. To deny this is to be ignorant of the facts or indifferent to the truth.

The letter from the Department suggests that the inspector who visited here went both up and down the river and at no place was less than half the river free for traffic. The date of this visit should be made known, so that all might know that there was at least ONE day this season when traffic was not interfered with.

The Advance is not specifically naming one company as the offender in any one case. That may wait for

a later occasion. The Advance admits that there are some of the companies that offend little, if at all in this matter. But the fact remains that the traffic on the river is being repeatedly and unnecessarily impeded by lumbering operations that could be carried on without blocking the river. The Government should deal with the matter in a proper place. If the Government can be convinced that the river here is not blocked repeatedly, then some kind person will next sell them the bridge built over the river by the Provincial Government. A Government so trusting is not safe in this wicked country.

The river is blocked, and this condition should be remedied. In the summer, the Mattagami River is the only route for travel for many settlers, prospectors and others in this country of few roads. The River is a navigable stream and should be kept open for traffic.

**ONE DRUG STORE FINED  
\$2000, ANOTHER \$1000**

Charge re Broad Dismissed in Case of Mackie's Bakery.

At the police court to-day the Whiston Drug Store was fined \$200.00 and costs on the charge of keeping liquor for sale. The fine not being paid a distress warrant was issued and the store this afternoon is in charge of the bailiff.

The Timmins Drug Co. was fined \$1,000.00 and costs for illegal transportation of liquor. The fine was paid.

Seven drunks were fined the usual. A Clusian, transfer employee, was fined \$200.00 for illegal transportation of liquor in connection with the Timmins Drug Co. case.

The charge against Mackie's Bakery regarding alleged light-weight bread was dismissed.

A charge of reckless driving was dismissed.

Some wage cases were remanded for a week as was also a theft charge.

**HON. DR. MANION TO SPEAK  
IN DISTRICT NEXT WEEK.**

Hon. Dr. Manion, a member of the Meighan Cabinet, and a speaker of marked ability, will visit this district next week. He will speak at Iroquois Falls next Wednesday afternoon and at Timmins in the New Empire Theatre, Wednesday, Oct. 7th in the evening.

**Here and There**

The total handlings at the new internal government elevator in Edmonton, Alta., since its opening last fall, amount to 2,350,000 bushels. Of this quantity of grain handled, more than 2,000,000 bushels was wheat.

With the completion of the 1925 assessment for Toronto, the Chief Assessor announced that the city's population is now 549,429, or 7,012 greater than last year. The total assessment for 1925 is \$891,673,797, which is \$16,259,443 higher than for 1924.

A new high-water mark for the 1925 season of navigation in regard to number of passengers landed at Quebec over a week-end, was established during the week-end of September 6th when six boats docked with nearly 5,000 passengers. The three Canadian Pacific steamers, the Montroyal, Marloch and Melita, brought 2,524 of the total passengers landed.

Between four and five hundred travelling passenger agents, representing railway throughout the United States and Mexico, united with representatives of the Canadian railways and steamship companies in Montreal during the week ending September 19th, for the fiftieth annual convention of the American Association of Travelling Passenger Agents.

In succession to Captain James Gillies, who was recently appointed general manager Canadian Pacific steamships in London, Captain R. G. Latta has been appointed to the command of the Empress of Scotland, flagship of the Canadian Pacific fleet. Captain Latta was previously on the bridge of the "Montroyal" and other vessels of the same line.

Arrangements are being made for the holding of the western annual meeting in Winnipeg from November 3rd to 5th of the Canadian Institute of Mining and Metallurgy. The meetings will be held in the Royal Alexander Hotel. Delegates from all points in the West, as well as from Eastern Canada, are expected to attend.

POSITION WANTED—A married couple would like to get a position in a mining or logging camp to cook for about 25 men. Apply to Box P. M., Advance Office. 38 p.

**CALF KILLED ON RIVER  
ROAD SATURDAY NIGHT.**

Two young men in a borrowed automobile came close to being in a serious accident on Saturday night. As it was they killed a year-old calf, damaged the auto and knocked the top off a few culverts. They were running along all right in the car when the calf stepped out from in front of a motor truck parked on the roadside. The truck had hidden the animal from view. The driver turned to the left to avoid hitting the calf, but the calf, with the perversity of a calf, speeded up and got in front of the travelling motor car. The calf was instantly killed by the impact and the car swerved over into the ditch. The car travelled fifty or sixty feet with the wheels in the ditch on one side and the other wheels on the sidewalk. The culverts crossing the ditch were struck with force and three of them damaged by the impact. The car when it stopped eventually looked like a wreck, but later it was found not to be so badly damaged, the chief injury being to the bumpers. The damage, it is understood will not run more than fifty dollars. The calf was a total loss, however. The ownership of the calf is not known.

Boy: Mother sent me back to show you what a big bone there was in that roast she bought Wednesday."

Joe: "All right, son the next time we kill a steer without any bones I'll send your mother a leg for nothing."

**Canada's Wool, Woollen and Knit Goods Industry at the C. N. E.**

1. Mrs. Cockshutt, wife of the Lt.-Gov. of Ontario, looking exceedingly smart in an "all-Canadian" costume, in which she attended the opening of the Canadian Woollen Goods exhibit at the C. N. E. The two-piece sports costume is of pancy purple trimmed with grey at the collar, cuffs and pockets, the wool being grown, spun, dyed and knitted in Canada. The ensemble coat is of grey marvella, a magnificent specimen of pile cloth with a silken finish from a Canadian loom. The coat has a straight back with kodet front, with a shawl collar and cuffs of grey Canadian baby lamb, lined with grey flat crepe silk produced by the silk industry of Canada. Grey shoes and stockings, and a purple cloche hat, completed the "all-Canadian" costume.

2. Exhibit of Canadian Woollen Knit Goods machinery at the C.N.E.  
3. His Honor the Lieutenant-Governor of Ontario opening the exhibit of Canada's Wool, Woollen and Knit Goods Industry at the C. N. E. He is seen wearing a suit of milled worsted made from wool grown on the Alberta ranch of H. R. H. the Prince of Wales. Mrs. Cockshutt is looking at the prize bred Canadian lamb presented to her by the officers of the Canadian Co-operative Wool Growers' Association.

Tens of thousands of people obtained an entirely new idea of the wool growing and wool manufacturing possibilities in Canada at the exhibit of the Wool, Woollen and Knit Goods Industry at the Canadian National Exhibition. The pillars of wool from the nine provinces of Canada supplied by the Canadian Co-operative Wool Growers Association excited considerable comment, and emphasised the fact that although we maintain only 2,500,000 sheep and lambs in Canada, the size, feed conditions and climate would permit the keeping of 25,000,000, and that sheep keeping is the most profitable branch of agriculture. Also that of the 70,000,000 lbs. of wool used annually to clothe the population of our country, some 50,000,000 could be grown here instead of only 15,000,000 lbs. as at present. The small factory installed with twenty operatives showed the actual manufacture in Canada of fine

woollen and worsted yarns, the weaving of fine blankets, woollen cloth and worsted cloth, and the knitting machines making underwear and hosiery. It was a miniature representation of the work that is being done in over two hundred and seventy woollen and knitting mills in over one hundred and forty municipalities. The finished goods display, which showed what the completed goods looked like after being made on the machines, showed that in quality and style the \$75,000,000 worth of goods produced by the industry annually were equal, and in many cases better, than goods made abroad. It conclusively showed that so far as climatic, physical and technical conditions in Canada are concerned there is no reason why 90% of the woollen and knit goods used in Canada should not be produced in Canada.
