Kirkland Lake Again Plays Timmins to No Score Draw

Lively Match at Kirkland Lake on Saturday Last in the Series for the Foster Football Cup. Next Match in Series to be at Timmins.

Kirkland Lake seems to be the one team in this North Land that can always be depended upon to give Timmins Football Team a real close run for the money. Last year Timmins and Kirkland played three tie games before it was finally settled that Timmins had the better team. This year, with one exception, all the matches between Kirkland and Timmins have been close, and final victory for Timmins in each of the cups had to be won by battle.

returning on the late evening train. As usual, Kirkland put up a battle royal, and full time was played without a score on either side. The last half of the match is said to have been a little rough, with the referee, Mr. Meath, of Kirkland Lake, not holding the Kirkland lads down as closely as might have been done, according to some who saw the match. However, it was a lively and interesting match.

Last week it was decided to proceed with the Foster Cup competition while waiting on the Ontario Cup games. In the draws, Dome was to play Kirkland, and then Timmins to play the winner on the winner's grounds. Dome defaulted the match to Kirkland Lake, so it was up to Timmins to play at Kirkland. The game was arranged last week on short order for Saturday. The Timmins boys left here on the early train,

The Timmins team going to Kirkland Lake was as follows:—Goal, Elrick; backs, Liddle and Street; halves, Cooper, F. Cadman, Short; forwards, Dunn, Sathrang, Peterson, A. Cadman, A. Roberts.

It was a nice work-out for the Timmins boys and put them on their toes for the game on Saturday here with Claremonts in the Ontario Cup semifinals.

FIRST NATIVE-BORN TO OBSERVE SILVER WEDDING.

On Nov. 6th, Mr. and Mrs. Fred Harrison, Wilson Avenue, will observe the 25th anniversary of their wedding and will have the honor of being the first native-born Canadian to celebrate the 25th wedding anniversary in Timmins. The other silver weddings observed here were of Scottish folk. Mr. and Mrs. Harrison were born in Canada, married in Canada, and will observe their Silver Wedding in the Gold Camp of Canada.

ONE OF PIONEERS OF THE PORCUPINE PASSES AWAY

Mr. John George Campbell Dies Last Week Near Sudbury.

The Sudbury Star on Saturday last, Oct. 3rd, says:—

"A pioneer of the North, one who played an active part in the constructive and industrial life of the country, was claimed by death yesterday afternoon in the person of John George Campbell, at his residence in Walford. An eventful career was that of the late Mr. Campbell. He came to the North with a C. P. R. construction force while a young man, later he engaged in business, then he became interested in the mining game in which fortune greeted his efforts, his varied pursuits carrying him throughout the North so that his acquaintances include many of the old timers in Sudbury and district and in the Porcupine camps.

"The deceased, who was in his 86th year, followed the construction of the C. P. R. to what was in those days the end of steel at Algoma Mills. After marriage, he located at Webb-wood, from where he moved to Massey, where he acted as foreman for the firm of McDonald and Hall. Shortly after 1896, he started in business for himself, conducting a livery in Massey.

"When news of the gold strike in the Porcupine went broadcast, Mr. Campbell followed the trail further North and was appointed as Crown Lands Agent at the camp. Discovery of the Dome Mine brought him considerable wealth as he held an interest in the property.

"The funeral is being held tomorrow afternoon from his late residence at Walford. Interment will be made in Massey cemetery.

"Surviving are, his wife, four daughters, Mrs. John Wilson, of Walford, Mrs. St. Paul, South Porcupine, Mrs. Patterson, of Massey, and Miss Cynthia at home; four sons, John, of Massey, Frank, of Port Arthur, George, of South Porcupine, Edward, of Sudbury. One son, Russell paid the supreme sacrifice in the Great War."

FINE SAMPLES OF COAL FROM NORTH OF COCHRANE

Frequently in the past there have been encouraging reports of big coal finds north of Cochrane, but nothing has yet come of these northern coal fields. On one occasion some years ago The Advance saw beautiful samples of the finest looking coal coming from north of Cochrane. About the only trouble with the coal was that it was easier to look at than to burn. However, other prospectors are said to have had better luck in locating beds of high-grade coal in the North. A great many prospectors and others who know the country north of Cochrane are confident that big coal fields will be developed there eventually. At the present time northern coal fields would be very acceptable in view of the way the southern coal supply has been kicking up. In this connection the following paragraph from the last issue of The Northland Post, of Cochrane, will be of interest:—

"Col. McCarthy passed through town yesterday from Fauquier, coming from the North. He carried with him some fine samples of coal taken about 100 miles north. He has a diamond drill working on the property and has met with remarkable results at a depth of about 71 feet, striking a 12-foot vein of as good quality coal as ever came out of Alberta. So far he has drilled at three places and the result he met with makes him enthusiastic of the future prospects of development of the mine."

The opening Social Evening of the recently organized Social Club is to be held on Tuesday evening, Oct. 13th.

MATTAGAMI CO. NOT TO MERGE IN SPRUCE FALLS CO.

According to an article recently in The Pulp and Paper Magazine, in an interview, Mr. J. H. Black, head of the Spruce Falls Co., Limited, stated that there was nothing in the reported merger of his company with the Mattagami Pulp and Paper Co., of Smooth Rock Falls. Mr. Black said that he was at a loss to know how the rumour started, unless it was that he happened to be seen having a smoke and a chat with S. R. Armstrong, general manager of the Mattagami Co. When asked for a statement concerning the plans of the Spruce Falls Co., under his direction, Mr. Black said that he would be in a position to give out an authoritative statement within the next few weeks.

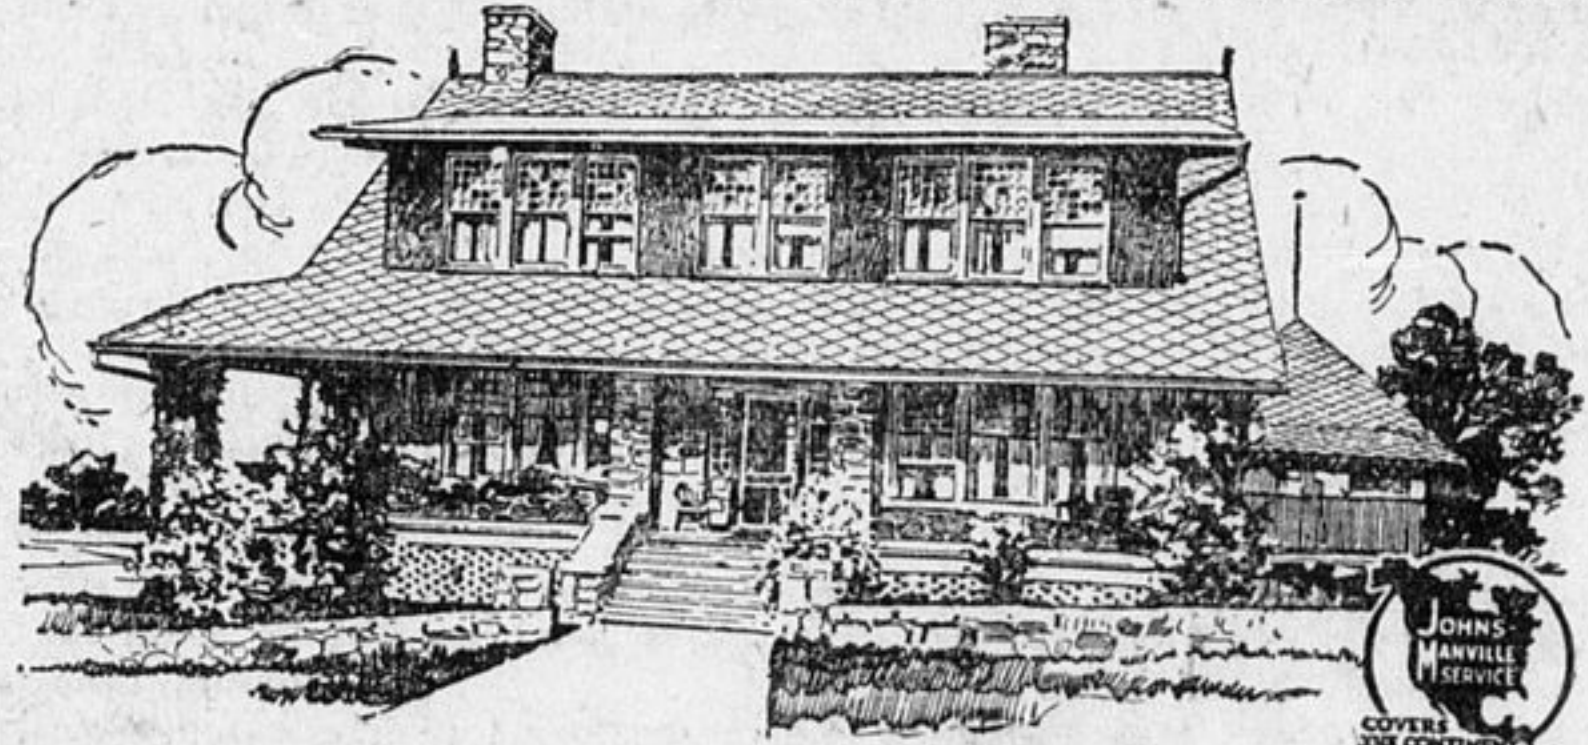

The first indoor band concert of the season will be given Sunday evening in the Goldfields Theatre after the church services. A special programme of band selections, vocal and instrumental numbers, etc., has been prepared.

Fire Prevention Week—October 4th to October 11th.

When Your Neighbor's House Burns—

When fire springs up in a neighboring building—is your home safe? Will flying sparks and brands drop on your roof and die out harmlessly—or will they kindle your roof to flames and contribute your home to another dreaded community conflagration?

If there are buildings anywhere near you, and if your home is covered with inflammable roofing, you are not safe from the menace of roof-communicated fire. Your home is recognized by town, city, state and insurance authorities as a fire risk—a danger to you and your family.

But through Asbestos, Johns-Manville offers you safety—a shingle roof which cannot burn—a positive barrier to roof-communicated fire. This shingle roof not only takes a base rate of insurance but should last as long as the building it covers. It enhances the architectural appearance of your home and gives you the cheapest per year service of any roofing obtainable.

An investment in Johns-Manville Asbestos Shingles for your home is both a contribution to civic safety and to individual economy. Your money is returned to you many times over in safety, appearance, long life and remarkably low upkeep.

Let us show you samples and give you estimate.
