**HAILEYBURY'S WONDERFUL
PROGRESS SINCE 1922**

Sunday, October 4th, was the third anniversary of the disastrous fire that devastated Central Temiskaming in 1922 and practically destroyed the attractive town of Haileybury. In the month of October, 1922, The Advance has many references to the fire, usually termed "the Haileybury Fire," and some of these references may be of special interest at the present time.

In The Advance of October, 11th, 1922, there was an article urging the Ontario Government to assist Haileybury by re-building the County Buildings there, and also by giving aid, so that the town would not need to default in regard to any of its debenture indebtedness. "If Haileybury is not assisted to prosperity again," said The Advance, "the debenture debt must be enforced by default. Such default would be a serious blow to the credit of the pioneer municipalities of the North. It would be a disgrace to the Province. It would be a slur on the settlers who made this new rich land of value to the South. Haileybury must be re-built. Haileybury must be assisted. Haileybury must have a fair chance. Every town in the North Land and every good citizen of the Province should insist that Haileybury be given a fair opportunity to live again and grow and pay its way and prosper."

Looking back over the three years, it is pleasing to see how generously Haileybury was assisted and how nobly Haileybury helped itself. With the exception of the armouries, all the Government buildings have been re-built. In practically every case they are better than before the fire. Arrangements were made to assist Haileybury in the matter of its debenture indebtedness. The Housing Act was made to apply to Haileybury in its after-the fire conditions. For these aids no one should withhold credit from the Drury Government. Haileybury was helped all right, but the true secret of the return of Haileybury to its place among the thriving towns of the North Land rests with the courage and faith of the people of Haileybury.

In another article in The Advance of October, 1922, there appeared this paragraph:—"Haileybury will be re-built and will arise a bigger and better town. Haileybury people are showing the greatest courage and resourcefulness in making plans and getting preparations under way for the re-establishment of the town. There were 741 houses burned at Haileybury and only 71 house left. Such a blow might well discourage any town, and would assuredly discourage most towns. But the people of Haileybury have shown that faith and courage are their outstanding characteristics, and already they are busy planning the building of a new and better town on the site of the devastated one."

In this October of 1925, Haileybury is fully re-established. There have been over 500 new buildings erected since the fire, and in general the new buildings are superior to the ones destroyed in 1922. The town is better planned. It is healthier; as free as it is possible to make a town from fire menace; it is broader and better designed. There are homes, and flowers and gardens once again in Haileybury. Only the generous-rows of trees of the former town are missing.

The re-building of Haileybury is one of the great epics of this North Land. Every town in the North should be proud to know that it is neighbour to Haileybury—the town that by unrivalled courage, determination, energy, initiative, and faith rebuilt on the ashes of effort lost and ambition destroyed, a bigger and a better town.

In The Toronto Star Weekly last Saturday there was a full-page illustrated article on Haileybury, "Risen in Beauty From Its Own Graveyard." The illustration showed the new \$250,000 court house, the Masonic Temple, opened within a year of the fire, the fire hall and municipal buildings, one of the fine new houses, and the fire-proof business section on Ferguson Avenue. The article itself effectively describes the re-building of Haileybury. "Three years ago," says the writer, Haileybury was a smear of smoking ashes. Worthless, absolutely worthless. To-day it is a town worth a million and a half. You cannot keep back the people who can reproduce wealth like that."

The Star Weekly article is sympathetic and thoughtful. In one particular, however, the writer is in error. He describes the Haileybury

of October, 1922, as appearing as a town "dead, and gone, almost a trace of it wiped out." Laughter was absent as from a land of dead hopes, the writer suggests. As a matter of fact, it was because the people of Haileybury held fast to their great courage of cheerfulness, that the town has made the unrivalled recovery that has been accomplished in three short years. They mourned for their dead but not all the other burdens of fate could not take the smile from their faces. Homeless! and cheerful! Ruined and cheerful! Haileybury could be built, and a better Haileybury could be built, and the work was undertaken with disregard for hardship and a smile for all misfortune. It was the spirit of the people of Haileybury that triumphed.

Congratulations will be extended to Haileybury on what has been accomplished and admiration can not be withheld for the fine spirit that made the miracle possible.

**TWO THOUSAND DOLLAR
FINE PAID UP THIS WEEK**

Other Cases at This Week's Police Court.

The \$2,000.00 fine imposed last week on the Whiston Drug Store for illegally keeping liquor was paid up in full to-day, a total of \$2,012.50 being handed over. Last week the fine was not paid forthwith and the store was taken into possession by the bailiff for the Town. The paying of the fine settles the matter and releases the store.

There were five drunks taxed \$10 and costs each this morning. One other is going down, not being able to raise the fine. A warrant for the arrest of another was issued as he did not appear to answer to the charge.

H. Richardson failed to appear to answer to the charge of having liquor in a public place, and a bench warrant was issued for his arrest.

J. Gabryczuk, charged with wounding and injuring a dog, was re-

Two theft charges against a woman who is said to have stripped a couple of clothes lines while under the influence of liquor were also remanded to next week.

A number of boys, charged with the theft of various things from bicycles to auto fires were dismissed with warnings.

Rainey Larivere, charged with theft of goods from Gray's Drug Store a few evenings ago, was given a two months' term. Mr. W. O. Langdon made a very earnest plea for the young man who is about 21 years of age. Magistrate Atkinson pointed out that Larivere had already served a term, and it did not seem to be reasonable to let him off in this case. "The sentence, however, was lenient, to give him opportunity to go straight."

A couple of cases for wages due were settled out of court.

IN MEMORIAM

IN LOVING MEMORY of my dear husband, George Muir Dewar, who died October 13th, 1918. Wife and children.

**Annual Dome Shops Dance
To Be A Masquerade Event**

District School Teachers Inspect the Dome Mines. About First Aid Lectures. See That Your Name is on Voters' List, says Correspondent. Dome School Report.

Dome Mines, Oct. 7th. Special to The Advance.

Dome Foam, this tide. Mr. Fred Richards, who is the recent proud owner of an Atwater-Kent 5-Radio, says that he has already got C.J.A.C. Edmonton and W. S. B. Atlanta, Georgia, and the other night he stayed up too late and he got H.E.L.L.

Mr. "Bill" Munro has been the recipient of many envious congratulations because of his double barrelled luck in the Soccer Draw.

Mr. Len. Trueluffe is laid up with a bad cold, the too rapid change from the Southern Cotton fields in the Minsrel Show, to our climate, is blamed. We wish him a rapid recovery.

Many former friends were pleased to welcome Mrs. Ray O'Neill back to the Camp again.

Mrs. Flewellen is home again after visiting her brother at Kirkland Lake.

There was an epidemic last week of stiff and strained necks caused by concentrated "Peeping Tom" tactics on the part of the sufferers. The cause was the too rare a sight of such a crowd of beautiful school teachers who visited the plant last Wednesday. The young ladies were interested spectators of the pouring of the gold bullion into bricks at the refinery and they were conducted to all the points of interest on this property by the various guides who sure looked as if they liked their job.

Mr. W. Parnell left for his holidays during which he will visit several of the growing towns on the Transcontinental.

Mr. Stewart Crawford has returned from his vacation, having visited his old home and other points east.

Those who on every polling day, start kicking because their names are not on the voters' list and are prevented from casting their ballot on that account, are advised that nobody can be blamed but themselves if such a thing happens on the Federal Election Day. Mrs. Nathan Henry is only too anxious that the Dome list will be 100 p.c. complete. It is up to the voter to see that his name is on the list. Call around to Mr. John Mason's house and register. Do it to-day.

Mr. W. Thompson is up from Toronto visiting his brother.

The boys of the Electrical and Machine Shops are well started on their plans for their Annual Invitation Dance. Judging from the past successes these gentlemen have had, this dance is going to be the event of the season. This year it will take the form of a Masquerade Dance and is going to be held on Friday evening, October 30th, so get out your dancing pumps, get your costume ready and don't forget the date.

We were glad to see our old friend,

Matti Lahti, out and around again after his severe accident in the mine. In his jovial way, Matti claimed that after stopping the other man in the manner he did, that a place on the Dome Football Team was what he hankered for.

Mrs. Roland, who has been visiting her daughter, Mrs. Taschereau, returned home to Montreal.

Mr. Sam Phillips has been under the weather recently. We are glad that he is holding his own.

Those First Aid men who think that it is too much trouble to attend the meetings, and who figure that they don't need practice should take a leaf out of the book of Mr. Pat Murphy, Jr., who while he was confined to the house with a bad cold sent over for some bandages, etc., so that he could be practising at home.

On Tuesday evening Dr. Kirkup gave practical demonstrations of fracture bandaging and members are requested to turn out in force for his next lecture on Tuesday the 20th. At a first aid examination, a candidate was asked what was the first thing to do when a man was struck by lightning and his answer was: "Turn off the current." This didn't happen at the Dome.

The following is the official Dome School Report for September:—
