WRIGLEYS

AFTER EVERY MEAL

THE FLAVOR LASTS

Probably one reason for the popularity of WRIGLEYS is that it lasts so long and returns such great dividends for so small an outlay. It keeps teeth clean, breath sweet, appetite keen, digestion good. Fresh and full-flavored always in its wax-wrapped package.

Ulsters Were Pandered to, But Still Would Not Play Fair

Letter from Secretary of Ontario Football Club and Article Published in Toronto Telegram Throw Further Light on Situation. O.F.A. Eventually Took Decisive Stand.

In past issues of The Advance the situation as regards the default of the Ulsters in the Ontario Cup series has been outlined. For those who are specially interested the following review of the matter in Thursday's issue of The Toronto Telegram will be of particular importance. The Telegram devotes a column to an article by Billy Fenton this article including Secretary Muir's letter to the Ulsters Club. This column from The Telegram read as follows:—

"Unless the Ulster United team pulls out for the north at 8.45 tonight to play Timmins in the Ontario Cup on Saturday, the club, officials and players will stand suspended until further notice, and the ground known as the Ulster Stadium closed to all clubs affiliated with the Ontario Football Association. This ultimatum was delivered to Secretary Surgeoner of the Ulster Club at 6.45 last night by Bobby Muir, secretary of the Ontario Football Association, after deliberations late in the day with President Billy Dean, Vice-President Dorling, and other members of the provincial body. The communication which reached the Ulster Club is as follows:—

Jas. A. Surgeoner, secretary Ulster F. C.—
 Dear Sir,—I have waited all day the arrival of the official notice of the failure of your club to carry out the terms of the agreement made between your club in special session and myself as representing the Ontario Football Association, held in the Queen's Hotel on Monday evening, Sept. 21st last.

At that meeting your club voluntarily agreed to leave this city on Thursday evening, October 1st., so as to arrive in Timmins in time to play

in the Ontario Cup game on Saturday, Oct. 3rd, while on my part I agreed to provide transportation for fifteen members of your club without any liability attaching to your club under any circumstances.

You will remember that in addition to this your club arbitrarily set October 3rd as the date for this game, and also lodged objection to the referee appointed, a point which was also settled to the satisfaction of your club.

In view of these circumstances and the fact that the club at Timmins has made all preparations for the Ontario Cup game, and in the absence of any confirmation of your phone conversation of yesterday I beg to inform you and your officers and players that unless your club carries out the agreement as set forth in this letter the Ulster F. C., officials and players stand suspended until further notice.

Further, the ground known as Ulster Stadium be closed to all clubs affiliated with this association under the same terms.

I regret exceedingly the unfortunate necessity for sending this letter to you, but the financial loss entailed by such action cannot be allowed to pass without notice, but as this is dependent upon the action of your club I cannot say anything further at the moment.

Faithfully yours,
 R. B. Muir,
 Secretary Ontario Football Ass'n.

THE O.F.A. ATTITUDE

"Beyond the suggestion contained in the letter the O.F.A. officials have not disclosed their reasons for last night's action and may not do so until a special meeting of their body. That they are displeased with the withdrawal of the Ulster Club from the competition goes without saying. They did more than they had any right to do to assist the club to make the trip. At the meeting on Sept. 21, according to Secretary Muir, their first plea against travelling to Timmins was lack of funds, although but a short time before they had received over \$1,000 from Connaught Cup games and \$648 out of the final of the Ontario qualifying series, not counting the \$250 rental paid for the use of the Ulster Stadium that day to the owners of the ground.

BROKE RULE TO OBLIGE
 "The rule calls for payment out of the receipts of each game of thirteen railroad fares after ground fee and referee's fee have been deducted. Any deficit the competing clubs have presumably to meet. Bobby Muir broke this rule by offering to provide fifteen fares and berths and promised that should the "gate" at Timmins fall short of the required amount the Ulster Club would be freed from all liability.

"The Ulster Club also objected to Referee Craig, formerly of Toronto and now located in Timmins, handling the game and suggested several Toronto referees for the job. This meant the addition of at least a further charge of \$50 on the "gate." Muir got over this difficulty by agreeing to pay half the fare for a referee from Toronto, and again promised that should receipts fall short the club would not be charged up with the deficit.

ULSTER FIXED THE DATE.
 "These agreements were upon consideration that the Ulster Club travelled to Timmins for the game on Sept. 26. Secretary Muir was asked to retire from the meeting and in his absence the club declined to travel in time for a game on that date and fixed Oct. 3 as the date for the game of their own accord. To this the O.F.A. representative gave assent, the agreements relative to Sept. 26 to hold good. The Timmins club was advised to the effect that Ulster would appear on Oct. 3 and re-made all arrangements for the tie. Such is the O.F.A. side of the case so far as it has been given out."

DOMES MINES BREAK THE RECORD FOR SINKING

The Northern News, of Cobalt, last week has the following comment in regard to the record in sinking recently made at the Dome Mines:—

"In one month Dome Mines sank its winze (from the 13th level) 281 feet, thereby establishing a new Canadian sinking record. In announcing this fine achievement The Northern Miner says it heard of it by accident, so modest are the Dome people. The world's record for sinking was established in August, on the Crown Deep Mines, on the Rand, when they went down 318 feet in 31 days. It is interesting to note this last world record was made by Arthur Rees, son of the man who had previously established the world's best hardrock sinking mark, 303 feet, also on the Rand in September of last year."

THE TOWN NEWSPAPER IS A COMMUNITY PROPOSITION.

In writing on the proper relationship between the town newspaper and the community, The Renfrew Mercury in a recent issue makes the following thoughtful comment:—

"Everywhere there is a growing understanding among business men that the newspaper, while an individual business problem of some publisher, is, at the same time, a community proposition—a community asset. The newspaper serves the community more than it serves the man who publishes it. The time is coming when everywhere business men will feel a personal interest in the newspapers' welfare. The fact is, a community cannot make progress without it. It can exist, but it cannot grow."

"With this realization, there has also come an understanding that one newspaper serves better than two or three. It has become a simple problem of business, mathematics to centre the strength of a community behind the newspaper that has made itself, through work and service, the strongest journalistic factor in community development.

"So far as Canadian newspapers are concerned, there have gone out of business since 1914 fifty daily newspapers, while 224 weekly newspapers have suspended publication or been absorbed by the other paper in the town. In some counties of Ontario, from four to eight weeklies have suspended publication.

"The announcement of newspaper consolidations will continue. The result will be better and more outstanding weekly papers with improved service to advertisers, subscribers and the community in general."

SKATING RINK TO BE BUILT AT HAILEYBURY

This year a skating rink is to be built in Haileybury and with this there will be the completion of all the public buildings destroyed in the fire of 1922. The new skating rink will be of steel and brick. The plans call for clear space of 70 x 170 feet as the arena portion of the building. A start is to be made on the building, so it is said, in the very near future. Some in Haileybury, however, are inclined to resent the present announcement as no more than election propoganda. The Haileyburian, however, takes a mild view of the matter, in last week's issue saying:—

"A skating rink for Haileybury is now assured for the coming winter. The long looked for arrangement with the Dominion Government, by which the armories are to be rebuilt in the form of a community hall and arena has now been completed and the money received in insurance on the old armories has been handed over to the town for the rebuilding. The amount is \$33,500. This comes as a result of several conferences which have been held between representatives of the town and the government departments concerned and is a particularly welcome announcement."

Mr. J. Miller, of Toronto, was a visitor to the Camp last week, renewing friendships here. Mr. Miller was one of the pioneer prospectors and mining men of this North, being the owner of one of the claims that has helped to make the Hollinger Consolidated the world-famous gold mine it now is. Mr. Miller leaves shortly for a world tour during which he will visit Japan, Egypt, and other distant lands. The tour will occupy from November to February.

Safety Deposit Boxes

THE purpose of a Safety Deposit Box is to keep your valuables safe from accident and from theft and to relieve you of worries:

Where are my policies?
 How can I keep these records?
 What will we do with the Bonds?

The Safety Deposit Box is the "cranny hole" of the grown up,—it is yours; it is secret; it is secure!
