Urges Earnest Action to Save Game in this District

Suggests That All Lovers of Sport Report Each and Every Infraction of the Law Coming to Notice. At Present Rate All the Moose Will Soon be Killed Off. Also the Ducks.

For years past, The Advance has been advocating the appointment of a Game Warden for the Porcupine area and other measures to assure better protection for fish and game in this area. Without some special effort and attention it seems certain that in a very few years there will be neither fish nor game left in this whole wide district. Disregard of the law in many sections makes it practically certain that fish and game are to be completely done away with. In dealing with this matter one of the chief difficulties is to rouse general public opinion. However, it would appear that public opinion is being roused. The following letter from Mr. W. F. Richardson, of Wawa, Wawa Falls shows that not only opinion and thought are being aroused, but also methods to remedy the situation are being evolved. The following is Mr. Richardson's letter, and it is commended to the most thoughtful consideration of all lovers of sport and the North:—

Wawa, Oct. 11, 1925
Editor, Timmins Advance:

Sir:—I have read in your last issue, the revived interest in the protection of Game, etc. Always in this part of Ontario it appears to be the real thing to wait until the cat has stolen the cream and then chase the cat. Like the Frenchman, I must say about this revived interest "it is to laugh." If I am not mistaken Timmins boasts of a Rod and Gun club, also a Conservation club, and yet it is a safe bet that over seventy-five Moose have been sold more or less openly in the town of Timmins during the last five months.

Those who doubt this statement will be rudely awakened when they

take to the hunt on Oct. 25th. Since it appears to be impossible to get a Game Warden for Timmins, why not each and every member of those two clubs agree to report each and every infraction which comes to their notice. Principally find out and have punished those who buy the meat. When the market for moose meat is closed there will not be so many hunters. At the present rate of killing there will not be a moose left within 25 miles of Timmins in another year.

It is all very well, to say, give the birds another chance—(close season)—how many are going to do it. There are very few birds this year but there will be less after the moose season is past. If all would get together and refrain from shooting this season I believe that in another year there would be plenty of birds. Providing, of course, that the breeding season was not too wet and cold.

Another bird which is going fast is the little duck. That, of course, is the fault of the bag limit. No hunter should be permitted to kill 200 ducks in one season. Fifty would be more like it. But then, of course, the regulation of the migratory birds is something else again.

It looks to me that unless those of us who wish to see Game and Birds in these parts for any length of time must get together and form some kind of a Club whose members will do their best to bring to the attention of the authorities any infractions which come to their notice, regardless of who the culprit may be, and this apart from what the Government may do.

Otherwise, we will have to migrate if we want any shooting.

Yours Truly,
W. F. Richardson

HAILEYBURY PLEASSED WITH BASEBALL TROPHY

Description of Handsome Cup Donated by Mr. R. A. McInnis.

Haileybury baseball enthusiasts and the people of the town in general are delighted with the handsome championship baseball trophy won this year. In the last issue of The Haileyburian there was the following reference to the trophy:—

"The baseball trophy given by Mr. R. A. McInnis, of Iroquois Falls, for the winners of the Temiskaming Baseball League has been received in Haileybury and is now on display in the window of the Notice Drug Company. The trophy will remain the property of the Haileybury Baseball Club for this year, or until it may be wrested from them in future competition. The local team won the championship of the league by defeating Timmins, the champions of the Northern Group in a series of home-and-home games. It was regretted that the trophy was not received in time to be given at a banquet which was given the team at the close of the season.

"The trophy consists of a bronze figure of a pitcher in the act of delivering a ball. This figure is mounted on a beautiful sample of ore from one of the Northern mines, which in turn, rests upon a silver base and the whole is mounted on a beautiful wooden pedestal. It bears the Latin inscription "Ludus Industriæ." There are silver shields provided for inscribing the names of the winning teams as the trophy is awarded.

"The Haileybury team of 1925, and all the sporting element in town are intensely proud of their achievement in winning the pennant for the first year. The generosity of Mr. McInnis in providing such a splendid trophy has gone a long way toward creating a renewed interest in baseball and sports generally in the North Country."

LABOURERS ANNOYED AT LACK OF WORK AT ROUYN.

A despatch last week from O'Brien, Quebec, published in the daily newspapers, says:—"the unexpected delay that has occurred in commencing actual construction work on the proposed line, connecting the Township of Rouyn with the Transcontinental Railway, at this point, has resulted in several hundred individuals, who had rushed here at the first announcement regarding the railway, being stranded, in most cases without a cent of money. Bitter murmurings are being heard against the Quebec government, as it is principally blamed, due to the fact that it was through the government that all official announcements regarding the proposed construction, have been made.

The next regular meeting of the Town Council is scheduled for Monday afternoon, Oct. 26th, commencing at 4 p.m.

BANQUET TO DR. FOSTER TO BE AFTER OCTOBER 15

Necessary to Postpone Event Owing to Directors' Meeting.

In The Advance last week reference was made to the banquet to be given by the Town of Sault Ste. Marie to Dr. Albert Foster, President of the Goudreau Mine, in honour of the mine reaching the producing stage. At the time of writing last week it was understood that the banquet would be held on Oct. 15th. Since then, however, it has been found that the date is not practical and a later time will be selected. Among the special guests from outside invited to the Sault banquet is Mr. A. F. Brigham, General Manager of the Hollinger. The Sault Ste Marie Star last Friday makes the following reference to the date of the Sault Banquet:—

"The date for the Sault dinner to President Albert Foster, of the Goudreau Gold Mines, Limited, will be later than Oct. 15. Dr. Foster called by long distance phone at the mine from the Soo to-day, said that the directors had decided to meet at the mine on Oct. 15, so it would be necessary to fix the later date. The directors had fixed the date for their meeting at Goudreau at a conference in Toronto a couple of days ago, and it might cause some confusion to change the date of their Goudreau meeting. The committee in charge of the dinner will therefore await Dr. Foster's convenience in setting a new date for the affair."

DR. MANION DEALS WITH HON. MR. VINCENT MASSEY.

In his address here last week Dr. Manion dealt very effectively with the question of Hon. Mr. Massey, in reply to a question, said that Mr. Massey had attended college in England, and this was about the most important thing he had ever done. "Why should he be set up as a competent authority to tell this country what policy should be adopted?" was the question Dr. Manion asked.

RINGS LOST RECOVERED THROUGH ADVANCE ADVT.

A month ago a lady living in Timmins lost a purse containing three valuable rings, one of them being of special monetary value as well as prized for sentimental reasons. The purse was lost through being left on the seat of a taxi cab. Efforts to trace the lost purse proved unavailing until the services of the want advertisement column of The Advance was used. That brought results, the purse and rings being returned last week greatly to the delight of the owner, the lady fearing that they were gone for good and all. Advance Want advts. are great little workers.

Mr. T. G. McDonald, of Matheson, was a Timmins visitor last week for a few days.

-Now in Packs of Five

Safety Deposit Boxes

THE purpose of a Safety Deposit Box is to keep your valuables safe from accident and from theft and to relieve you of worries:
Where are my policies?
How can I keep these records?
What will we do with the Bonds?
The Safety Deposit Box is the "cranny hole" of the grown up,—it is yours; it is secret; it is secure!
