

## Says Deposits of China Clay Near Cochrane Are Very Rich

Report of Engineer Says That Deposits in Kipling Township on the Mattagami River are Marketable at Remunerative Prices. Description of Formation Given.

Mr. H. Sydney Hancock, an engineer with much experience and knowledge in such matters, has made a very flattering report in regard to the china clay deposits on the Mattagami River, in Kipling Township. He says that the deposits are marketable at remunerative prices, and he gives the

high grade kaolin (china clay) intermingled with a quartz sand that is pure silica with a few infrequent pebbles that are either unchanged feldspar or quartz and absolutely nothing else. This unique condition indicates that every ton of this deposit, below the limited top over-burden, is marketable at remunerative prices.

"We have here a vast deposit of commercial material of a unique character. In the Cornish deposits it takes from five to seven tons of clay ground to produce one ton of merchantable china clay. In this case I am conservative in assuming that the deposit contains 30 per cent. of clay, the balance of 70 per cent. being pure silica sand of at least equal value per ton," states Mr. Hancock.

### WOULD HAVE LIKED TO HAVE SHOWN THE ULSTERS

A very common expression heard on the grounds last Saturday after the Ontario Cup Football match was:—"Wish it had been Ulsters that were here!" Everybody was pleased enough that Timmins won the game on Saturday, but all would have been still better pleased to have trimmed up Ulsters by even a bigger score. Ulsters, however, did not take any chance on that. No one seems to doubt that Ulsters would have lost out here. Ulsters apparently preferred a default to taking a chance.

"You're bound to make mistakes, but let them be new ones, not the same old ones."

### THIRTY DAYS FOR DRIVING AUTO WHILE INTOXICATED.

At South Porcupine last week John Graboski was sentenced to thirty days in jail for driving an auto while intoxicated. The evidence showed that John was reported to the police as having figured in an accident, but when the police attempted to stop him on the road he neglected to stop. Later, he was taken in charge at South Porcupine. As it was a second offence, the thirty day term was imposed.

No one can realize what Eternity really is, but the man who pays a dollar down and a dollar a week has a pretty good conception.

## WAR MEMORIALS NUMBER OF MUNICIPAL REVIEW

To be on Sale on the 11th Hour of the 11th Day of the 11th Month. Profits for the Soldiers.

Last year The Advance made special reference to a special edition of The Municipal Review of Canada, published at Montreal, the issue giving excellent review of the municipalities of Canada, with photos of the Mayors and other officers, as well as brief but bright biographical sketches. In that edition last year The Municipal Review paid special attention to Timmins and its Mayor, as well as other North Land municipal heads.

This year The Municipal Review is publishing an edition that promises to be one of the most interesting yet offered to the general public. It is a volume that expresses the splendid spirit that was manifest at the close of the Great War, when the erection of monuments to the fallen was carried through by so many Canadian municipalities. The issue will be known as the War Memorials Souvenir Number, and it will show by over five hundred illustrations the permanent memorials erected by an appreciative public to the 60,000 Canadians who paid the supreme sacrifice. The co-operation of Lieut.-General Sir Arthur Currie was readily secured and he has given a foreword which will have particular significance. A ready response was received from municipal and other public men and bodies, as well as from the Chief Executives of Railways, Banks, and Industrial concerns who have erected monuments or commemorative tablets.

The volume will make reference to the tablet in the Canadian Bank of Commerce at Timmins, but unfortunately the war memorial in the park at Timmins will not be ready in time to be included in the illustrations in the volume.

The volume will be placed on sale at the 11th hour of the morning of the 11th November throughout Canada by returned men and representatives of Veterans Organizations, and all profits accruing from the sale of these copies will be turned over to war widows and orphans.

No attempt is being made to deal with the war in any way, all the effort being concentrated on showing by profuse illustrations, the appreciation of the Canadian public in erecting monuments to perpetuate the memory of the dead.

The volume is one which should appeal to all, and it will be remembered that each copy bought now or on the 11th November will mean that a large part of the two dollars it is sold for, will go to assist war widows and orphans.

In connection with the sale of copies a statement will be issued subsequent to the 11th of November giving the names and amounts received from municipalities, firms, individuals, and showing the total sum turned over to Veterans organizations.

### PLEASANT BOX SOCIAL AT PORCUPINE ON MONDAY

The box social and dance under the auspices of the Porcupine Agricultural Society at Porcupine, Monday evening was fairly well attended, and a small profit was made from the event. The boxes sold for fair figures, and there were many special designs in boxes, with the contents of the best in all cases. All present thoroughly enjoyed the evening. Music for the occasion was furnished by Bridges' orchestra.

### HALLOWE'EN DANCE ON FRIDAY EVENING, OCT. 23rd.

On Friday evening, October 23rd, the Girl's Auxiliary of St. Matthew's Anglican Church are holding a Halloween Dance in the Masonic Hall, dancing starting at nine o'clock. This is probably the first big dance of the Fall and Winter season, and the successes of previous dances held by the Girl's Auxiliary will be sufficient indication that the event on October 23rd, will be one in which an all-round good time will be had by all attending.

### MAIL CHRISTMAS PARCELS EARLY TO OLD COUNTRY.

Last year there was much inconvenience and disappointment through parcels from Canada not being delivered to their destinations in England, Scotland and Ireland until after Christmas. The cause of the delay in the delivery of Christmas parcels in the Old Country last year was the congestion of mail matter that occurred in the Old Land. The staffs were notable to handle the rush of parcels from overseas. To avoid a repetition the British Post Office has issued a warning that all persons who desire to send Christmas presents to the Old Country should mail them long before the holidays. As a matter of fact, it might be a good idea to start soon now to get the parcels ready and ship them away by the middle of next month. In any event parcels for the Old Land should not be left until the last minute.

The more dish water a wedding-ring is soaked in, the longer it seems to last.
