THE PRINCE OF WALES.
 On his return from a 25,000 mile journey, in which South and West Africa and Argentina, Uruguay and Chile in South America, were visited, the heir to the British throne was accorded a welcome in London last week, which exceeded that tendered him on his return from Canada five years ago, and from Australia, two years ago. His Royal Highness was welcomed at Victoria Station, by His Majesty the King, the Queen, and members of the Royal Family, as well as numerous state officials.

GEESSE QUOTED AGAIN AS PROPHETS OF WEATHER.

Heralding the approach of an early winter, according to prophets who have been watching their flights for the past few years, three flocks of geese flew over the town yesterday. Though geese have been seen during the past week, this is the first time they have been reported in large numbers. The heavy snowfall on Sunday night, with the real wintry weather on Monday, and the fact that the snow still remains lends credence to the belief that geese know something about the weather after all.

REPORT OF DISCOVERY OF COAL NORTH OF COCHRANE.

The Northern Miner has week says:—"Chas. McCarthy, Toronto, who has been active in the exploration of the mineral possibilities of the country near James Bay, particularly china clay and lignite, states that a diamond drill hole has cut coal near Smoky Falls on the Mattagami River. He says, in an interview with The Globe, Toronto, that he has found seams of coal from 7 to 11 feet thick at a depth of 100 odd feet.
 "The significance of the drill hole discoveries of Mr. McCarthy is the subject of debate among mining men. The existence of lignite, a low grade of coal, in the James Bay basin, has been known for years. It is thought that the seams in the drill holes are lignite."

Notes of Interest

Mr. N. Pearce, of The Northern Miner, Cobalt, was a Timmins visitor this week.
 There will be supper served at the United Church Bazaar in the church basement on Wednesday, Nov. 4th.
 Big Bazaar, Afternoon Tea, and Supper,—United Church Basement,—Wednesday, Nov. 4th.
 Last night there was a typical London, Eng., fog. The smoke hung so low and the fog was so dense that for several hours it was hard to navigate during the fog.
 All will regret the illness of Constable W. Parcher and wish him sincerely a speedy and sure recovery. Officer Parcher was taken ill while on duty Tuesday evening and had to be taken to his home. It is thought that he has a touch of pleurisy, with pneumonia also a possibility.

Messrs. Alex. Dewar and J. Spence drove over from Iroquois Falls last night, making the trip in two hours and fifteen minutes. "How are the roads?" they were asked. The answer was that they might be worse and they were better than would be expected at this particular time. The time made shows the roads were not too bad.
 Despite persistent and very earnest efforts to locate Mr. T. J. McGrath, no trace of the missing man has been found. Mr. McGrath has been missing from his home in Timmins since Sept. 28th. No one can be found who says they have seen Mr. McGrath since Sept. 28th. The police department has made all efforts possible to locate Mr. McGrath, sending out scores of pictures of Mr. McGrath. So far no success has resulted, and the family are naturally anxious to discover the whereabouts of the missing man.

Outside newspapers that imagined they made a "scoop" a couple of weeks ago by publishing the story of Pashton's capture north of Cochrane, missed a chance for another interesting item last week by neglecting to publish a contradiction of their first story. Up to date the imaginative newspapermen seem to be the only ones able to "capture" this Pashton who has been wanted for eighteen months on a charge of murder in connection with the shooting of Joseph LaSalle at Island Falls.

NORTH BAY NUGGET HAS GOOD WORDS FOR TIMMINS

In its column of note on sports this week, The North Bay Nugget has the following:—"Evidently the sportsmanship of the Claremont team in travelling to Timmins in search of the Ontario Cup, without making any kick at all the money the club might be out on the trip, appealed to the fans in the Northern town. The porcupine Advance gives a long article to the quality of the visitors and ends it by saying, "the Claremont football team proved to be good football players, as well as good fellows. The record of the Timmins team this year is a splendid one. It played a total of sixteen games and in this number had thirteen straight wins. None of the other games were lost for all ended in a tie. So far the team has won four cups and is in the final competition for two more—the Foster Cup and the Ontario Cup. In the games played the team scored 65 goals and had only five scored against it. That is a record that will take some beating."

"DUKE" MCCURRY SIGNS ON WITH PROFESSIONAL TEAM.

"Duke" McCurry, who during the winters of 1920-1921 and 1921-1922 was one of the outstanding players on the Timmins Senior Hockey Team, and who for the past two years has been a valued member of the Pittsburgh Yellow Jackets, has deserted the ranks of amateur sport, and signed on with the new Pittsburgh professional team, playing in the National Hockey League, according to word received to-day over the wire in Arthur E. Moysey & Co., office here. While a member of the Timmins team, McCurry played both on the forward line and on defence, and was, at that time, slated as one of the coming hockey players. His joining the ranks of the professionals was to be expected, when a team from Pittsburgh was signed up with the National Hockey League, which this year has three American teams, Boston, New York and Pittsburgh.

It was the dear old lady's first ride in a taxi, and she watched with growing alarm as the driver continually put his hand outside the car as a signal to traffic following. At last she became exasperated.
 "Young man," she said, "you look after that car of yours and watch where you're driving. I'll tell you when it starts raining."

THE TRUTH ABOUT "SALADA" TEA.

The reason for certain grocers not recommending "Salada" Tea is that they claim they do not make a large enough profit on its sale. The truth of the matter is that the Salada Tea Company knows that if it gives the public fine quality tea at a moderate price it neither can take itself, or allow the grocer to take, a large profit. There are a certain number of grocers in Canada who do not hold the interests of their customers sufficiently at heart to recommend "Salada," although they know it is unequalled for quality or value by any other tea being sold to-day.

INVESTIGATING QUESTION OF EDUCATION IN NORTH.

Mr. McDougall, of the Department of Education, of Toronto and Mr. Marlin, Inspector of Public Schools, Cochrane, are in town to-day investigating the question of education for children of settlers in the sparsely settled districts of the North Land. They are making similar enquiries in other sections of the North for the Department of Education. The Associated Boards of Trade of Northern Ontario has recommended the adoption of a Correspondence Course system, similar to that used in British Columbia, Alberta and other Provinces, and this is being considered by the Department. The Department has also reviewed the Travelling Pedagogue system used in European countries for the sparsely settled areas. Messrs Marlin and McDougall are securing information as to the number of children actually affected. One of the chief difficulties in the way of all children in this North having opportunity to secure educational advantages is the road problem, or, to some extent, the lack of roads. During the greater part of the year the roads in many sections, or the lack of roads, make it impossible for children to attend the nearest school, which may be three to five miles away. As there are very few who could not visit the post office every two weeks or so, it is believed that the Correspondence System of Education would be of value. It is pleasing to see that the Department of Education is going thoroughly into the matter. It shows the interest of the Government in all matters affecting the North and the desire of Premier Ferguson and his Cabinet to do any thing that is practical and possible for the advantage of this country.

GOOD WISHES TO TIMMINS FROM IROQUOIS FALLS

The Broke Hustler this week says:—"Heartiest congratulations to Timmins for their splendid football victory in defeating Claremonts 7-1. The Timmins boys certainly showed their quality and no one is better pleased than the boys of Iroquois Falls. Several cars, well filled, went over from here to the game. Several of the men, including Jack Patterson and Tom Hogg, had been over twice before to hear there was no game. Here's hoping Timmins scores a big victory another year."

LITTLE GIRL BROKE ARM TWICE DURING SUMMER

Mrs. J. D. Parks is in Toronto with their little daughter, Margaret, for special surgical attention to the little girl's right arm. In July Margaret broke her arm and in September again just as the arm was completing recovery from the first fracture, she had the misfortune to break it a second time. Rev. Mr. Parks and Mrs. Parks and Margaret were on holidays at the time and the doctor in the South apparently did not set the arm straight the second time. When the cast was taken off recently it was found that re-setting would be necessary. Accordingly the youngster was taken to Toronto where the arm was re-set. The work in Toronto this time was well done, and all will be pleased to know that Miss Margaret is well on the way to complete recovery, with the arm perfect again.

GOVERNMENT HAS GOTTEN \$63,540 FROM 4.4 BEER.

A despatch from Toronto this week says:—"During the fiscal year which is closing the number of 3,855 have been engaged in the distribution of the Ferguson's government's 4.4 per cent. beer to the public and have paid to the Ontario treasury the sum of \$63,540 in return for their privileges. Statistics covering the issuing of permits during the initial years of the beverage's sale have been compiled by department officials. They detail the issuing of permits as follows:—shops 1230, restaurants 676, hotels 1481, brewers' warehouses 247, breweries 27, breweries extra provincial 2, clubs 182, steamships 10. All of these licenses are required to pay \$10.00 each for their permits, except in the cases of breweries, which pay \$200, the brewery warehouses, which pay \$50.00, and the extra provincial breweries, which pay \$5,000."
