VOTE FOR CHAS. V. GALLAGHER

The Liberal Candidate

The battle cry of the opposition in this present contest appears to be that the country is bound for ruin unless the Meighen Regime returns. It is only four years since there was a Meighen Government at Ottawa. At that time the Canadian Dollar went as low as 84 cents, there was much unemployment and bread lines were necessary in many cities. They were days of stagnation. Mr. Proulx, a Liberal, Mr. McQuarrie, a Conservative, and Mr. Angus McDonald, M.P. for Temiskaming, were among those bringing these facts before the House of Commons. The people of Canada turned out the Meighen Government because of its incompetence, its helplessness to cope with the situation and its ill-considered policies. Why seek a return of the dark days of 1921?

Under the Mackenzie King Government the

Canadian Dollar is now at a premium. The National Railways have been unified; the business is growing; an operating deficit of \$11,543,577.00 has been changed to surplus of \$17,244,215. The export trade of Canada has advanced \$753,000,000. The balance of trade in Canada's favour has increased \$278,000,000.

What Canada needs is stability—fiscal stability and political stability. The Conservative Party proposes to throw the whole tariff into the melting pot again, plunging industry into another period of disturbance. The King Government will proceed with the utmost caution, with the help of the Advisory Board of experts to be created. Political as well as business stability can be ensured by a majority for the Liberal Party, which will certainly be the largest group in the new House.
