REQUISITES FOR THE DEVELOPMENT OF NORTH

What is Required to Speed Up Progress of North Land.

In an Editorial article last week, The North Bay Nugget deals in thoughtful manner with the present situation in the North Land and the requisites for more rapid and sure development of this county. The Nugget says in part:—

"The Nugget has pointed out before and it now points out again, the opinion of a New Liskeard newspaper notwithstanding, that Northern Ontario has not prospered within the past year or so in the way that its possibilities would warrant. Concrete evidence of this fact is obtainable and may be produced in a form to convince even the "Speaker" at a later date.

"How much of this slowing up in progress has been due to internal factors, and how much of it has been a reflexion of the country-wide depression, caused by the anti-industrial policy of the Kirg administration may never be accurately estimated, but from the evidence at hand, of which the whole people of Northern Ontario are well aware, three things are clearly necessary in order that Northern Ontario may go forward with increasingly rapid strides toward the unbounded future to which the country belongs.

"First: North Country Towns must be protected against the influx of unemployed who, every winter for the past few years, have flocked into this country and in a great number of cases have become charges upon the municipalities.

"Second North Country settlements must be stimulated and guided and home marketing facilities encouraged, in such a way that, instead of importing from Southern Ontario millions of dollars of foodstuffs annually, North Country farmers will produce the greater part of the farm products consumed in North Country towns. The mining and pulp and paper industries which are the basis of these towns, will thus be able to co-operate with agriculture in the permanent settlement and development of the 60,000,000 acres of fertile land lying idle in the great Clay Belt.

"Third: Taxation on the mining industry, above what is absolutely necessary, must be regarded as a plague and a foe to the prosperity of the entire country. So stable must it be kept and so favourable must be the conditions under which capital is at present operating, that more capital will always be ready to take a fifty-fifty chance with the prospector in developing the undeveloped claims that, in vast numbers, cover Northern Ontario from boundary to boundary.

"In the light of these requirements a reference to the present political situation may be properly made. "The best cure for the influx of unemployed persons to North Country towns would be to remove the cause. If, as has been pointed out on a number of platforms in the present campaign, one Northern Ontario lumber operator lost a market for six million feet of lumber annually, as a result of the failure of a single industry, and if as the result of the loss of this one market, 1,200 men less were employed by this one operator, what must be the actual effect of over a thousand industries closing down all over the country? Would not that be sufficient cause in itself to send hundreds of men scurrying to the one great stable industry remaining, mining, in an effort to locate jobs? Yet that is the record of the low tariff policy of Mackenzie King, and that has been its effect on the towns of Northern Ontario.

"Actual figures show that farmers of the district about New Liskeard paid from 10 to 30 per cent. higher prices for all classes of farm implements in 1924 than they paid in 1922. The salvation of the settler in the early stages of his struggle in the North are the lumber operations which provide a steady income for him during the non-productive months of the year. The removal of this source of revenue for the settler can be no more effectively accomplished than by the removal of the industries which are the lumberman's market and provide the revenue from which the settler is paid. Yet this again has been the record of the low tariff and this has been its effect on the settler of Northern Ontario.

"With immigration to United States menacing the population figures of Canada annually, the problem of who is going to bear the extra burden of taxation entailed by the lessening of the number of shoulders, is an important one for Northern Ontario. Clearly those individuals who leave this country for the United States, where the president has recently pointed with pride to a reduction of the income tax, are successfully evading their share of Canada's National Debt. Clearly those industries which are forced to shut down, or the ones which do not open up for the want of protection against foreign competition, will not pay their share of the country's obligations. That is where the tariff touches particularly the pockets of Northern Ontario tax payers. The mining industry is one that cannot

ULSTER CLUB FINED BY O.F.A. FOR CUP DEFAULT

Penalty to be 50 per cent. of Receipts from Ontario Cup Series and Not Less Than \$300.00.

The Toronto Telegram on Saturday last had the following of special interest here:—

"The Council of the Ontario Football Association at a meeting today, heard the appeal by the Ulster United Football Club from the suspensions imposed on the club, and officials following upon the failure of Ulster to travel to Timmins for the Ontario Cup play-off, and imposed on the club a penalty of not less than \$300. The decision of the council was as follows:—That the Ulster Club produce the balance sheets of all games played by the Ulster Club in the Ontario Cup competition of 1925, and that the club pay a sum equal to 50 per cent. of the net proceeds of such games to the Ontario Football Association for breach of agreement, the settlement to be made within fourteen days from this date, and such sum to be not less than \$300, out of which the sum of \$50 be allowed to the Timmins Club for expenses incurred by the default of the Ulster Club."

"Ulster officials pleaded victims of circumstances, but at all times sincere in their desire to play at Timmins. It was impossible, they explained, to travel north on the date first set owing to lack of finance, but admitted having given their word of honor to play on Oct. 3. Afterwards they found it impossible through injuries to players, and the inability of others to secure release from employment to raise more than eight players, and were forced to default. The O. F. A. also decided there should be no Plenty Cup competition this season."

TWO MINERS BADLY HURT IN PREMATURE EXPLOSION.

At Kirkland Lake last week, two miners, J. Wilson and A. Hoy, were injured, the former the more seriously, when a blast, apparently following a quick fuse, caught them on the 2,000-foot level of the Kirkland Lake Gold Mine. Wilson was taken to Cobalt Hospital and operated upon there. Both are reported doing well.

be removed to another country but must extract the precious metals where they are found, and conscientiously, or unconsciously, it is to day bearing its proportion of the taxes that can never be derived from those who have left the country or from industries that have closed down.

"The spirit of the North has always been one of optimism and faith in the future. It is this optimism and faith in the future that will take cognizance of the situation as it now presents itself in unmistakable colours. It will cause North country people to cast personal and political considerations to the winds and to vote solidly, on October 29th, for a restoration of the National Policy and the regime of the Conservative party."

TREASURER'S SALE OF LANDS FOR ARREARS OF TAXES

IN THE TOWNSHIP OF WHITNEY, DISTRICT OF COCHRANE

TO WIT:

By virtue of a warrant issued by the Reeve of the Township of Whitney bearing date the 18th July, 1925, and to me directed, commanding me to levy upon the several lands, being in the Township of Whitney mentioned and described in the following list for arrears of taxes respectively due thereon and costs, I hereby give notice, pursuant to the Assessment Act and amendments, that unless the said arrears of taxes and costs be sooner paid, I shall, on Wednesday, the 28th day of October, 1925, at the Township Hall, Porcupine at 10 a.m., proceed to sell by auction so much of the said lands as may be sufficient to discharge the taxes and all lawful costs incurred in the sale and collection of same.

The following lands are all patented.

No.	Block or part of Lot	Quantity of Land	Years in arrears	Taxes	Costs	Total	Owner's Name and Address
