SUGGESTS HORTICULTURAL ASSOCIATION FOR NORTH

Iroquois Falls Paper Believes Horticulture Would be Helped by Association for Districts.

A number of towns in this North Land, including Timmins, Iroquois Falls, Cochrane, Liskeard and Haileybury have Horticultural Societies of their own. These societies have done much to advance the interests of horticulture in the North. Haileybury and Iroquois Falls societies have been especially successful, the good work of the societies being reflected in the added beauty of these towns. The Timmins Horticultural Society was only started this year, and though it has done good work, its chief benefits are to come. The value of the several local Horticultural Societies can not be disputed. The Broke Hustler, of Iroquois Falls, believes that a district society for the North Land would broaden and consolidate the work of the various local societies. The Iroquois Falls newspaper accordingly advocates a general North Land Horticultural Society. In an editorial article last week The Broke Hustler emphasized the value of such a North Land Horticultural Society to the country at large and suggested that a move be made to form such an Association for the North. The Broke Hustler says:

In the last couple of years a greater interest has been taken in beautifying the towns of the North than ever before, also the greatest interest has been shown all through the North in raising better vegetables. The horticultural and agricultural centres in the different towns have been very active from Cochrane to Cobalt. That is as it should be and anything which would still further increase the interest in these matters would be a movement in the right direction.

"Would it be possible to form an association of horticultural and agricultural societies throughout the whole North in order to encourage the local societies? Such an association would have to be a work of love, that is to say, it could not be an association which required to raise money to carry on its plans. It is difficult enough now to raise the money to carry on a local society successfully and any additional financial burden could not be thought of.

Is there not, however, use for an association without fees except for nominal fees to cover postage of the secretary. Meetings could be held once or twice a year at some central

WM. LYON MACKENZIE KING, Premier of Canada. Failed to Win Appeal to the People Last Week. Defeated Personally in his own riding.

point when a delegate or two from each local association could discuss matters appertaining to the whole district and take steps to encourage better gardens, better parks and generally a more beautiful North country.

"It is possible that such an association could arrange that the different horticultural shows and agricultural fairs could be held on the dates which permitted exhibitors to move from one fair to another without loss of time, which is not always the case now. Such an association might also induce the mines and other industries to put in exhibits so that the people of the North might become acquainted in the great natural resources which lie at their own doors. At any rate it seems a question which is well worth discussion at the next

meeting of the different societies."

ROYAL ORDER OF MOOSE GROWING IN THE NORTH

The Loyal Order of Moose, recently organized in Timmins, is also organizing in other towns of this part of the North—and apparently will have a big membership in this Moose Country. In Timmins the membership exceeds 500 and effort is being made to reach the 1,000 mark before Christmas. In Iroquois Falls organization is well under way with a large membership assured. At present Cochrane is being organized and many there are responding to the "call of the Moose."

Mr. W. N. Sawyer, of Detroit, was a Timmins visitor last week.

SECOND ANNUAL BANQUET OF DISTRICT FOOTBALL

Pleasant Event to be Held in Empire Hotel on Saturday Evening, November 14th.

The second annual banquet of the Porcupine District Football League will be held in the Empire Hotel, Timmins, on Saturday evening, November 14th. Dinner will be at 8 p.m. There will be a musical programme, as well as the usual toast list. A feature of the evening will be the presentation of the Championship Shield to the winners of the P.D.F.L. series. This year the Hollinger team won the Shield. They will also receive the medals presented to the winning team by Mr. E. H. Bridger, Toronto. Mr. Bridger is expected to be present personally to make the presentation. Mr. Bridger's bright, concise but comprehensive address of presentation was one of the features of last year's banquet. Medals will also be presented to the runners-up in the P.D.F.L.—the Town A. team.

The P.D.F.L. has had a very successful season, under the able presidency of Mr. Duxfield, and interest in the League is very keen. It is expected that there will be a large attendance at the second annual banquet on November 14th.

ROMANTIC WEDDING IN MANITOBA'S GOLD CAMP

The Pas Herald, Pas, Manitoba, says:—Romance culminated in matrimony last Saturday evening, when Mrs. Harietta Fernquist, of El Paso, Texas, widow and former professor of psychology in Columbia University, travelled all the way to The Pas to enter into wedlock with "Sammy" Johnson Hagberg, old-time prospector and one of the first employees on the Hudson Bay Railway. The "lure of the north," especially that of developing gold mines, was solely responsible for the typical northern wedding, solemnized by the Rev. E. Dixon. Declaring she had known her fiancée from boyhood, Mrs. Fernquist had come all the way from El Paso to marry Hagberg, in order to give him all financial, intellectual and moral assistance possible in his efforts to develop gold mines in Northern Manitoba. Mrs. Tom Harvey acted as brides-maid, and the groom was supported by Mr. Harvey.

Some people would be dumb if they couldn't talk about themselves.

Here is the Summer Home of Mister Jack Frost Himself

THIS is the Ice Cave in Mount Sir Donald, near Glacier, B.C. The light of the sun streams in through the opening at the far end causing the frozen walls to glisten as though built of a thousand times ten thousand diamonds. It is rumored that this is the official summer residence of Jack Frost himself, to which the Chilly Monarch retires for his annual nap from spring time to autumn.

And this is a scene from Mr. Frost's private grounds, on the roof of the world in the Canadian Pacific Rockies. It is here, so we understand, that Mr. Frost spends most of his time when not asleep in his Cave. For a pastime he enjoys most of all riding around on chunks of floating ice and his favourite food is a good, deep crackly glacier which he prefers coated with a generous frosting of newly fallen snow. When the winter comes and the nights are long and dreary he lets out a wild whoop of joy (so we are told), jumps on a passing snow cloud and sails away over the continent, pushing down mercuries and heaping up snow drifts wherever he goes.

But after all, nobody takes him very seriously these days, for it would be a tiresome old world to live in if Friend Frost didn't come along once in a while and give us something to contrast with the sum-
