MAIL ALL PARCELS AT ROOM 2, GOLDFIELDS ANNEX.

As noted in The Advance last week the Timmins Post Office has made special arrangements for the better handling of the incoming and outgoing Christmas mails. One of the plans adopted is to secure Room 2, Goldfields Annex (entrance on Fourth Avenue, just around the corner from the hotel). At Room 2, Goldfields Hotel Annex, during the Christmas season all parcels to be mailed from Timmins will be received for mailing. At Room 2, Goldfields Annex, there will be all facilities for mailing parcels,—weighing machines, stamps, etc.

All parcels coming in here for delivery will be given out as usual at the regular wickets at the post office. The new quarters in the Annex are for outgoing parcels.

I was just crazy to get married, but I did not know it till after I was married.

The best thing to do is to pay no attention to what you have heard about your neighbor. He may have been hearing the same thing about you.

The emptier the head the less it takes to fill it.

CHANGES MADE BY ONTARIO HOCKEY ASSOCIATION

Players Hereafter May Play With Nearest O. H. A. Club on Securing Permission.

At the recent annual meeting of the Ontario Hockey Association, held at Toronto, there were many matters that will be of special interest to hockey fans in this district. Sheriff J. F. Paxton, treasurer of the association, in his report showed the organization has a cash balance of \$10,907 in addition to \$1,000 victory bonds. Last year the balance was \$7,024.

One of the features of the meeting was the presence of eight past-presidents of the association. They were: L. B. Duff of Welland, 1909 to 1911; H. E. Wettlaufer, Kitchener, 1911 to 1913; Chas. Farquharson, Stratford, 1913 to 1915; Jas. T. Sutherland, Kingston, 1915 to 1917; Sheriff J. W. Paxton, Whitby, 1917 to 1918; R. M. Glover, Peterboro, 1918 to 1920; A. Copeland, Midland, 1920 to 1922, and W. A. Fry, Dunnville, 1922 to 1924. The number of newspapermen or ex-newspapermen in this "array of talent," is worthy of note. The motion of amendment was taken up after the reading of reports. The first one that the date of the annual meeting be changed from the first Saturday in December to the third Saturday in November, was carried without a dissenting voice.

It was moved that any player living in a town which has no O. H. A. club or organized O. H. A. rink used for hockey, may be permitted to play with his nearest O. H. A. club on special permission of the O. H. A. executive committee. This motion also carried without discussion.

The amendment that the consolation games in both the intermediate and junior be discontinued, was unanimously carried, despite the fact that a battle was expected.

The following amendments to the regulations were adopted:

That all the changes to the regular Canadian Amateur Hockey Association and playing rules made by the organization at its last meeting be adopted and incorporated in the O. H. A. rule book as follows:

Every player must hold an amateur card issued by the branch of the A. A. U. of Canada in which he plays. All registration card duplicates are to be forwarded to the National Registrar within 15 days of receipt by branch registrar. February 10th is the final date for registration with the national registrar. No playing certificate will be issued after that date.

All games are prohibited with teams of the United States A. H. A. but Canadian teams may be permitted to play college or university teams in the United States upon securing sanction from their branch.

All branches of the C. A. H. A. must declare winners by March 5, senior and junior to allow winners to engage in Allan Cup and O. H. A. Memorial Cup eliminations.

No player shall be eligible to play unless he has been a bona fide and continuous resident of the city, town or district that the club represents since the 15th day of May preceding the date of the first game. Students alone excepted.

The amendments to the playing rule adopted were:

Goalkeepers' pads—Maximum with 12 inches lying flat, instead of 14.

Goalkeeper may clear by throwing puck back of net.

No body-checking on the forward line. Body-checking only permissible by defence men on the position back of the 40 foot line and they must not charge an opponent.

New defence area—40 feet from the end of the rink instead of 20 feet from the goal line. In this area the old rule applies, viz., no offside for the defending teams. All rinks must be marked with defence lines at each 40 feet from end of rink.

MAN TO BE BROUGHT BACK FROM FORT WILLIAM NOW

Charge of Theft Against Dedovico Serantola Grows Out of Case Against Mrs. Rossi.

An officer left this week for Fort William to bring back to Timmins a man named Dedovico Serantola, who will be tried here on a charge of theft. The case arises from the charge of theft pending against Mrs. Rossi. On this theft charge, preferred by her husband, Mrs. Rossi was brought back from Fort William several days ago. The husband charged that Mrs. Rossi took a quantity of goods from his house here, as well as \$300.00 in cash. Mrs. Rossi was given a hearing last week, but on account of her condition, the case was not finally disposed of. Evidence, however, seemed to implicate Dedovico Serantola in the illegal transferring of the goods from Timmins to Fort William. Mrs. Rossi is said to have stayed with Serantola in the West. Serantola will be brought back to Timmins to stand trial for the theft of some of the goods taken or for complicity in the matter.

Lumbermen!
insist on the famous
COLUMBUS
Gum Rubbers

In the woods or on the river—you need the extra strength and comfort which are built into COLUMBUS Lumbermen's Gum Rubbers. They are heavily reinforced with additional layers of fabric and rubber at all points of wear.

There are many styles to choose from—two of the most popular are illustrated below.

"MATTON"
A sturdy, all rubber shoe of superior quality, made of pure gum rubber; suited for general purposes.

"DARVO"
Ask for "Darvo," a heavy rubber shoe with oil tanned leather top and reinforced ribbed, snag-proofed bottom.

18 Advantages of a GYPROC Farm

GYPROC is fireproof wallboard made of solid rock—the finest material for farm buildings ever discovered. Its 18 separate and exclusive advantages increase the comfort, appearance and earning power of your farm.

Hen houses and stables lined with Gyproc are practically vermin and moisture proof. This prevents disease, makes hens lay and increases the milk output of your cows.

Gyproc can't burn, warp or shrink. It protects stock from fire. It is durable and permanent. There are no cracks or crevices in Gyproc. Gyproc Joint Filler on the joints makes the wall air-tight.

GYPROC Advantages
Fire Protection
Low cost
Cannot Burn
Easy to Use
Saws like Lumber
Non-warping
Tight Jointed
Can be Painted or Panelled
Can be Alabastined
Can be Papered
Vermin Proof
Resists Heat and Cold
Easily Handled
Eliminates Repairs
Clean
Sanitary
Requires no planing
Will not Crack
Keeps out Moisture
Keeps out Dust and Dirt
Easily, quickly Applied
Protects your Stock

BELIEVES BIG COAL FIELDS LIE NORTH OF COCHRANE.

The recent investigations, followed by the organization of a company capitalized at \$7,500,000.00, to develop the china clay deposits north of Cochrane has greatly gratified The Cochrane Northland Post. The Post has every right to be pleased at the prospects now for the development of the china clay deposits, for The Post believed in the china clay possibilities when a company could not have been capitalized for 7,500 cents. But, though The Post now sees a further extension of the T. & N. O. towards the Bay, and in its mind's eye visions wonderful things from the development of the china clay industry, still The Post is not satisfied with even this, but continues to foresee the wonders that are to come from the development of the great resources of the far North. The Post last week says: "The gigantic prospect of development which is held out on the clay deposits will be repeated in many other things further along. Then there are the Belcher Islands alone, which hold out wonderful potentialities. Even now, with the difficult access, it is intended to spend nearly a quarter of a million of dollars on the development of these important iron deposits, and they are made a forceful argument to our western friends why the Hudson Bay Railway should be completed. Surely the same argument holds good for our provincial line. Unquestionably the next surprise will come when the coal fields north will foreshadow another great source of railway traffic for the T. & N. O.; and when we look back a few years hence we will wonder why any government should have hesitated to branch out into the rich fields of industrial development of our northern empire."

It is easier to sit in the lap of luxury than to stand up and be a man.

Among the books with unhappy endings are cheque books.

FINE RECORD OF HORSE POWER FROM ISLAND FALLS

(From The Broke Hustler).....
The power from Island Falls has been eased on gradually since December 5th, when it was first turned on, until on Friday it was getting close to capacity. Both twenty-five cycle units at Island Falls have been running steadily, except Sunday, since the day the current was turned on. The gate has been opened a little more each day and there are still several feet of head to go. F. W. Wiskin, Power Superintendent, and his crew, have been watching mighty carefully for any trouble to develop but so far they have got through in fine shape and proven themselves right on the job.

The table of horse power at Island Falls and how it has gone up as the gate was opened:

Dec. 5th—826 H.P. Island Falls.
Dec. 6th—10173 H. P.
Dec. 8th—13866 H.P.
Dec. 9th—17413 H.P.
Dec. 10th—21773 H.P.
Dec. 11th—22333 H.P.

Finding a seat in a corner, he adjusted his glasses and glanced over the menu. Turning to the waitress, who was standing at his elbow, he asked:
"How's the chicken to-day?"
"Fine, old top! How's the kid?"
was the unexpected reply.
