Practice classes in spotting minerals and rocks will be carried on.
Classes Free. Conducted by Dr. Deputy Minister of Mining, L. Goodwin, late Director of School of Mining, Kingston.
THOS. W. GIBSON,
Toronto, 23rd October, 1925.

SNOWMOBILES TO BE USED FROM CHEMINIS TO ROUYN

T. & N. O. Now Running a Daily Train Service to Cheminis Station.
Commencing last week the T. & N. O. Railway is running a daily passenger service on the new branch line from Swastika to the Quebec boundary. At the boundary a stage gives services to the Rouyn Camp. Some traffic is also reported on the Quebec Government highway from Makimik on the C. N. R. to Rouyn City. But the T. & N. O. route is by far odds the popular one. A despatch from Swastika to The Sudbury Star last week makes reference to the use of snowmobiles from Cheminis to Rouyn. This despatch says:—
"A new species of snowmobile consisting of torpedo shaped drums which are propelled by a powerful motor has been purchased by the Noranda Mines Limited, and turned over to Walter Little for trial on the road between Cheminis and Rouyn City. The new snow motor truck is said to be capable of handling up to twelve tons on the level and if found successful will reduce considerably the expense of getting freight from the end of steel into the mine. Sufficient contracts have been signed up by Mr. Little for hauling freight to keep about 25 teams going all winter, he says. The more optimistic hope that by this time next year the Nipissing Central will be granted its legal right and a direct train service with Rouyn will be realized."

STUDYING FOR JOB AS WORLD'S MEANEST MAN

At Sudbury police court last week a young man from Renfrew County was charged with the theft of a pair of socks, some clothing and a \$2.00 bill. The young fellow had been taken in by a Sudbury lady and fed and cared for. The socks had been knitted by the lady as a gift to her son, and the \$2.00 bill was the only money in the house. "That was a pretty mean theft," said Magistrate Brodie. "Yes, I know it was," admitted the accused. He was remanded for a week, so that enquiries may be made as to his record.

STAGE SERVICE TO ROUYN PROVES VERY SATISFACTORY

According to reports the stage service from Cheminis, the end of the T. & N. O. line at the Quebec border, to Rouyn Camp is proving very satisfactory. Those using the route say it is excellent considering all the circumstances. This now is the popular route to Rouyn. Passengers and freight alike now go by T. & N. O. to Cheminis, and from Cheminis to Rouyn by stage. The stage service for passengers is conducted by Mr. Walter Little, of Swastika, and those who know Mr. Little will understand that this fact is assurance of the very best service and accommodation. A lot of freight is going in over the road route. The trip is being made in five or six hours.
There is an eating place at Cheminis and four or five other stops at different places along the route where something to eat may be obtained.

FOUR MILLION SMELTER TO BE READY NEXT FALL

"There will no delay in the construction of the smelting plant at Rouyn," stated J. Y. Murdock, K. C. president of the Noranda Mines, at the close of an interview at Quebec last week with Premier Taschereau, which ended the conferences between the mining interests and the Government. "It is planned to have the construction material forwarded without delay to the site, and the plant will be ready to start operating next fall," said Mr. Murdock. He estimated the cost at somewhat around \$4,000,000.

TRAIN STOPPED FOR THE CELEBRATION OF MASS.

The Northern News, of Cobalt, last week says:—
"A special train of 15 cars carrying prominent French Canadians from Western Canada to their old homes for Christmas and New Year, passed through early Monday morning en route to Ottawa. No stop was made at the local station, but the train was placed on the passing track at South Gillies and remained there forty minutes while mass was celebrated. Incidentally, the despatcher became quite alarmed over the absence of a report announcing the train's arrival at Latchford but learned later of the reason. Included in the company of 270 persons was the Bishop of Prince Albert."

EVEN DEAD BELIEVE ADVERTISING PAYS.

Dijon, France, Dec. 18—(Canadian Press)—The tombstone marking the grave of his father in one of the local cemeteries is the novel advertising bill board imagined by a restaurant keeper to celebrate the excellence of the dish which is the specialty of his eating house.
It reads:
Here lies
Pierre Mercier, Innkeeper
1848—1903
Inventor of the celebrated
Mercier omelet
His son,
in the same business on Dole
Street, possesses the unique
recipe of the famous Mercier
omelet.

MAIL TRAFFIC VERY HEAVY INTO ROUYN.

According to information from Rouyn Camp the mail traffic into Rouyn is unusually heavy and much of this traffic is of matter other than "dry goods." Indeed, it is what many would call real "male stuff." It is said that the contractor for the mail from Amos, Quebec, into the camp has been much dissatisfied by the rush of mail. As one despatch Amos, Quebec, last week says:—
"When the contract was taken in the first place it was expected that the mail to a new camp like Rouyn would not be more than ordinarily heavy. It has since developed however, that the volume of mail going into Rouyn has broken all records. The weight of the parcel post packages regularly have given cause for inconvenience to the local postal authorities. The fact is that the Rouyn of wet goods pouring into His Majesty's mail is said to be many times over than the volume of ordinary mail. On one occasion, this was especially noticeable when after a delay of three days in reaching Rouyn, an accumulation of office. The mail reached the post in the past are eighty-three bags reported that that day, and it is bore the stamps these almost eighty Commission." the Quebec Liquor

NEW ROUYN TOWN TO BE CITY OF 25,000 IN 5 YEARS

The Northland Post of Cochrane, last week says:—
"To incorporate a town under the provisions of the Cities and Towns Act, a private bill, notice of which was received by the clerk of the Ontario Legislature, will be presented by the Noranda Mines, Limited, the company which is to build a smelter in the gold fields of Quebec. In the notice received a description is given of the exact location of the new town, which will cover twenty-four lots and which will become, according to the promoters, a city of over twenty-five thousand people within the next five years."

CHRISTMAS GREETINGS FROM DISTANT MEXICO

Among the pleasing Christmas greetings received by The Advance was an interesting little card folder from Mr. A. J. Cullen, Puebla, Mexico. Mr. Cullen will be remembered here by many friends as a popular member of the staff of the Bank of Montreal, with which institution he is still connected. During his stay in Timmins Mr. Cullen was prominent in the K. of C. and other community circles, and his good wishes are very sincerely reciprocated. The folder sent by Mr. Cullen is an artistic one, a specially interesting feature being a representation of the famous "Sacrificial Stone" at Puebla.

BAPTIST SUNDAY SCHOOL CHRISTMAS ENTERTAINMENT

The children up to nine years old of the Baptist church Sunday School were given a Christmas Tree and entertainment on Thursday last and all present had a very happy time. There were presents for all the youngsters and the children found the event a delightful one. Mr. and Mrs. Drady had prepared the tree for the occasion, and it was very attractive. The programme was largely given by the youngsters themselves, but there were also very pleasing solos by Mrs. Hall and Miss Swadling. Mrs. J. Skelly and Mrs. Mansfield trained the children for the occasion and much credit is due these ladies and also to the youngsters themselves for the very pleasing programme given. The sweet voices of the children made the singing numbers especially attractive. Mrs. G. A. Macdonald occupied the chair for the evening. A treat for the older-Sunday School pupils is planned for this week and will include a sleighride party.

ACTIVITY IN GOUDREAU GOLD MINING DISTRICT.

A despatch last week from Sault Ste. Marie says:—
"The Goudreau Gold Mines, Ltd., whose new mill is now in operation, expects to turn out its first brick of gold before the first of the year. Present indications point to considerable activity in the section during the winter.
"The Hollinger people are building substantial camps on the Edwards property on which they hold an option and are apparently preparing for a busy winter. Mr. D. E. Craigie is in charge of the work.
"In addition the Huronian Belt Co. will commence work on permanent camps in the Goudreau field immediately after the opening of the new year. These camps will be on the Walker, McCormick and Dominion Goudreau properties, which are all in one group.
"Drilling will commence on the McCarthy Webb property on January 4.
"L. B. Smith, mine manager of Barry Hollinger Gold Mines, has completed the purchase of new equipment for the mine, including electric transformers, for installation in the enlarged-milling plant. An extra tube mill was also purchased recently and will be set up as quickly as possible, thus increasing the crushing capacity to double what it now is, to wit 100 tons every 24 hours."
