THE LONDON LIFE SETS NEW RECORD IN YEAR

Over \$64,000,000 Insurance Written in Canada by The London Life in Past Year

For some years The London Life has been developing at a rate which meant a doubling of its size every four years. In 1924 it celebrated its Jubilee by writing more than "a million dollars of new insurance" a week. Its 1925 record has established the high water mark of \$64,052,000. The amount of insurance in force has reached the grand total of \$211,000,000, represented by four hundred thousand policies.

The progress in all other departments of the business is equally as splendid. On invested assets, which are all of an unspeculative nature, being chiefly Real Estate First Mortgages and Government and Municipal Bonds, an interest yield of 6.91% was obtained. This enables the Company to maintain its remarkably high dividend scale to policyholders, which over the past decade has not been exceeded.

The Surplus earnings, due to careful administration, sound investments, and a favorable mortality experience are the largest in the history of the Company. The Company's Free Surplus on December 31, 1925 was \$3,660,000 in excess of the requirements of the Dominion Insurance Act, after making full provision for profits to policyholders.

One of the features of the year was the introduction of a new series of policies in its Industrial Department, which certain the advantages of "ordinary" insurance on a weekly premium basis. At the Annual Meeting an announcement was made of the introduction of another new series of policies called The Duplex which will bind the advantages of both great systems of life insurance—participating and non-participating. This announcement is in line with The London Life's programme of offering "guaranteed low cost" insurance, and this in no small sense is responsible for its outstandingly splendid records.

PERHAPS THE GLOBE DOES NOT LIKE THE PARLIAMENT

In a recent issue The Toronto Globe has the following reference which would suggest that the dear old Globe is not at all pleased with the present parliament. There is reason to believe that The Globe speaks what a vast majority believe in this case. The Globe, in parts says:—"The fifteenth Parliament of Canada has been in session for six days. If we do not mistake public temper, the vast majority of Canadians, irrespective of party or group allegiance, have had enough of it. As soon as the necessary routine—voting of supplies and the transaction of imperative business—is concluded, the people are prepared to face the inconvenience and cost of another general election in the hope of securing a stable government and a House of Commons, which is prepared to devote its energy to the service of the country. Six days of political jockeying, wire pulling, buttonholing, gumshoeing, pussyfooting, sidestepping, manipulating and intriguing are more than sufficient."

Mr. W. Nicholson leaves this week for Minneapolis, Minn., for the annual convention of the Gamble-Robinson Co. staffs.

NEW GENERAL MANAGER OF BANK WELL KNOWN HERE

Mr. Sydney H. Logan, recently appointed general manager of the Canadian Bank of Commerce, is well-known throughout the North Land. For several years previous to 1913 he was manager of the branch of the Bank of Commerce at Cobalt, and so is well-known to many here who were formerly in the Cobalt Camp. Mr. Logan also opened branches of the Bank of Commerce in the Porcupine and Gowganda Camps as well as at other North Land centres. In an interview in Toronto after his appointment as general manager he spoke in high terms of the North Land and its people. That also is the way the North Land people speak of him, as he was highly regarded in the North. Since leaving the North Land Mr. Logan has been in charge of the foreign department of the bank, visiting many different countries in his work. Through unusual talent, loyalty to the Bank of Commerce and strict attention to business, Mr. Logan has won steady promotion until to-day he occupies the highest position on the regular staff of the institution.

GOLDALE MINES COMPANY HAS VALUABLE HOLDINGS

In the annual report of Golddale Mines, Ltd., Mr. James Y. Murdoch, the president, draws the attention of the shareholders to the fact that, in their ownership of 216,600 Coniaurum shares which are carried on the books at \$2.82 per share, they have an interest in the mine of considerable potential value.

"I draw to your attention," adds Mr. Murdoch, "the fact that your company is free of debt except ordinary current accounts with all taxes paid to date and has sufficient cash on hand and accounts receivable to pay all normal expenditures for some time to come.

"In addition to the sale of Group No. 1 to the Coniaurum Company, which was approved of by you at a special general meeting held on June 30th, 1924, the directors have disposed of two out-lying groups of claims for \$13,000 cash since our last annual meeting.

"Following the announced policy of your present board of directors the company's holdings in the Coniaurum

Company have been held intact, and at present there is no indication of any change in this policy. The directors deem it advisable to sell some of the other properties of the company if satisfactory arrangements can be made, and are therefore asking you to again approve of by-law Number 14, leaving them authority to sell, option, lease or otherwise dispose of the company's properties, and to purchase shares in other companies."
