Food Scarce and Prices High at Red Lake, Says John Jones

Flour at \$35.00 per Hundred, and Try and Get it. John Jones met Max Ryan and Outfit Forty Miles from Red Lake. Big Rush to New Field Expected this Spring.

Mr. John Jones returned to Timmins Sunday evening after a trip to Red Lake, and he had many interesting things to say in regard to the Red Lake Camp. To The Advance, Mr. Jones emphasized the shortsightedness and injustice of the C.N.R. in that railroad's exorbitant charges for the transportation of dog teams and supplies for the prospector.

Mr. Jones, who was accompanied on the trip to Red Lake, by Mr. H. Webb, formerly of Timmins, brought out 3600 feet of motion picture film taken in and around the new gold camp. The films include scenes showing Indians, prospectors on the trail, Hudson Bay Posts, Indian burial grounds, etc., etc. Some of the films were taken 40 miles north of Red Lake.

The trip in from Red Lake to Hudson was made in three and a half days by dog teams. There were three dog teams used, and these carried about 900 lbs., including motion picture machine, films, etc., etc.

"You can't buy flour or sugar at any price most of the time," says Mr. Jones. "Flour sells at \$18.00 per 100 lbs., and sugar at \$35.00 per 100. Bacon brings \$2.50 per lb. I have seen salt pork sold at 80c per lb. Mr. C. V. Gallagher, of South Porcupine, bought some at that rate one day recently."

Mr. Jones says that last Thursday while on the way out they met Mr. Max Ryan and his drilling outfit on the way in. Max was then about forty miles from Red Lake. In his outfit there were about thirty teams and three Fordson tractors. A large number of men, probably 60 in all, accompanied the diamond drilling part. This gang included Indians and white men who cut the road and otherwise prepared for the transportation of the diamond drilling amount. Mr. Jack Callinan is with Mr. Max Ryan.

While at Red Lake, Mr. Jones visited the Howey property. While he was there Mr. Percy Hopkins, of the Victoria Syndicate, was sampling on the property. Mr. Hopkins was formerly with the Ontario Department of Mines.

Mr. Jones expects a big rush to Red Lake in the spring. There has been an unusual rush already he says, rivalling the rush to other big camps on the continent in days past. One of the handicaps to the development of the camp is the attitude of the Canadian National Railways. The Government Railways are not favourable to Red Lake, to judge from their present attitude. It would appear to be good policy for the railways to encourage the development of Red Lake, as it will mean big and profitable business for them if a good camp is established at Red Lake. Instead of helping in the only way the C.N.R. can help at this time,—by giving all possible favours to the prospectors—the C.N.R. has made it plain that the prospectors can go to a much hotter place than Red Lake, so far as the Government Railways are concerned. The exorbitant charges for dog teams is a particular handicap and hardship for the prospector. The high charges for transporting dog teams is also likely to have other serious results. Men coming out from Red Lake find the charges for the return of their dog teams on the railway to high to be borne. As a result some of the prospectors have been turning their dogs loose at Hudson. Many of these dogs have starved to death or died from lack of proper care. There are many dogs lying dead along the trail and at Hudson. The death of these dogs is directly chargeable to the C.N.R., whose expressed attitude is that they don't care a snap for the prospector, and who apparently have as much regard for the dogs. No one should forget in days to come, if Red Lake Camp develops into a big and paying field, that the T.&N.O. showed its usual courtesy and foresight in the matter, while the Canadian National Railway could not see any farther than the red tape that evidently binds its eyes.

The following is from the last issue of The News, of Cochrane:—
"Mr. Earl McVittie of Gamble Robinson Cochrane Limited, has been transferred to the Timmins Branch of Gamble-Robinson where he went on Monday, to take up his new duties. We are sorry to lose Mr. McVittie from our midst as he has been located in Cochrane for some three years."

Sheriffs' Sale of Lands

District of Cochrane

JOHN D. MACKAY,
Sheriff of the District of Cochrane. Sheriff's office, District of Cochrane. 10th day of January, A.D. 1926. -14-17

IS YOUR CHILD THIN AND WEAK?

Cod Liver Extract in Sugar Coated Tablets Puts on Flesh and Builds Them Up.

In just a few days—quicker than you ever dreamt of—these wonderful health building, flesh creating tablets called McCoy's Cod Liver Extract Tablets will start to help any thin underweight little one. After sickness and where rickets are suspected they are especially valuable.

Most people know that from the livers of the lowly codfish vitamins of the first class are extracted—the kind that help all feeble underweight men, women and children. Try these wonderful tablets for 30 days and if your frail puny child don't greatly benefit—get your money back. A very sickly child, age 9, gained 12 pounds in 7 months. Ask any druggists for McCoy's Cod Liver Extract Tablets—as easy to take as candy and 60 tablets, 60 cents.

Quick Relief for Rheumatics

Local Druggists Sell Rheuma on Money-back Plan.

If you suffer from torturing rheumatic pains, swollen, twisted joints, and suffer intensely because your system is full of that dangerous poison that makes thousands helpless and kills thousands years before their time, then you need Rheuma and need it now.

Start taking it to-day. Rheuma acts at once on kidneys, liver, stomach and blood, and you can sincerely exclaim: "Good riddance to bad rubbish."

Many people, the most skeptical of skeptics right in this city and in the country hereabouts, bless the day when Todd's Drug Stores, Ltd. and other druggists offered Rheuma to the afflicted at a small price and guaranteed money refunded if not satisfied. If you have rheumatism get a bottle of Rheuma to-day.

\$632,444,000 INVESTED IN CANADIAN MINES

Figures from the Dominion Bureau of Statistics show the growing importance of the mining industry in Canada. At present there is an amount totalling over six hundred and thirty-two million dollars invested in mines in the Dominion. Of this amount the amount invested in metal mines is \$481,828,000.00. About one-fifth of the total for metal mines is for gold and silver mines of the Dominion.

That the returns are in due proportion to the investment made is shown by the facts that the dividends paid by Ontario gold and silver mines amount to \$154,000,000.00 to date.

GIRLS' AUXILIARY HOLD EASTER MONDAY DANCE

The attendance at the annual dance given by the Girls' Auxiliary of St. Matthew's Anglican Church held on Monday evening in the Masonic Hall here was not as large as usual. This was due to the fact that at present there is a lot of "flu" in town and district, interfering in a noticeable manner with the attendance. The Hall was tastefully decorated for the occasion, symbols of Easter being very much in evidence. Music was provided by the A.S.D. Club Orchestra. During the evening the Girls' Auxiliary served a very enjoyable lunch. Despite the slightly smaller attendance, a very enjoyable evening was spent by those present.

CHUKUNI RED LAKE MINING ASSOCIATION

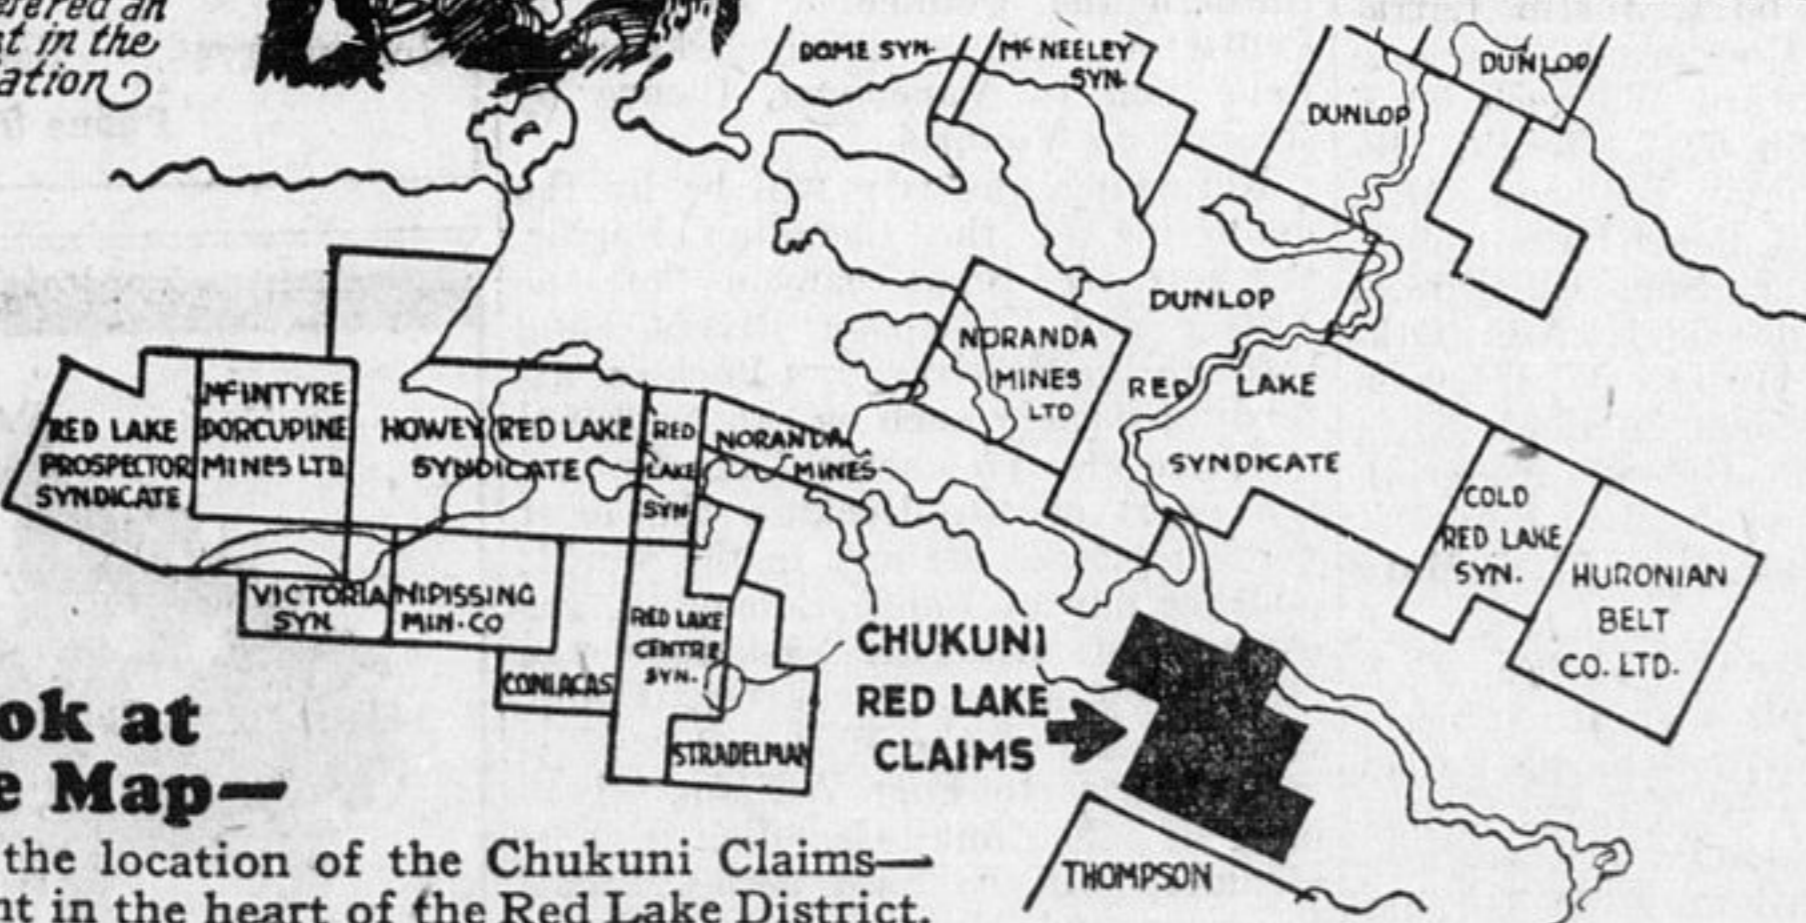

"\$25.00 Flutter in Red Lake Units Worth \$14,000.00 in Few Months"—Northern Miner, Cobalt

That's what was realized by the original investors in the "Howey" syndicate. The property controlled by the Chukuni Red Lake Mining Association is just two miles east of the "Howey" claim and thought to be on the same "break".

PUBLIC OFFERING
(Limited to 5500 Units)

Units \$10.00 each
POSITIVELY NO PERSONAL LIABILITY

The locators of these claims would not sell for cash, they preferred an interest in the Association.

Look at the Map—

See the location of the Chukuni Claims—Right in the heart of the Red Lake District.

Join Today—Big Development Coming

To make money like the "Howey" investors you must "get in on the Ground Floor". Units in the Chukuni Association should advance rapidly once development starts.

Don't Delay

The present offering of Chukuni Red Lake Units is to secure working capital. Once the allotment of 5500 units is absorbed no more will be available.

Reservations will be made in the order in which they are received. Supply is Limited—Wire or 'phone your order today at our expense.

FORD CAR RUNNING FROM HUDSON TO PINE RIDGE

Distance of 84 miles on Red Lake Route Covered by Ford in Seven Hours.

Prospectors coming out from Red Lake tell with much interest of the Ford motor operating a regular service now on the route between Hudson and Red Lake, the northern terminus of the Ford route being Pine Ridge, about 84 miles from Hudson, and about fifty miles shy of Red Lake. The Ford makes the trip in about seven hours and so far has had few delays and no breakdowns. About nineteen miles of the journey is over trail roads and the other 65 miles on the frozen lake. The Ford is owned by a hotel owner at Sioux Lookout, a gentleman named Moberley. The car is driven by Mr. Gauthier, of Timmins, a brother-in-law of Mr. Bissonnette of this town. The Ford has balloon tires and chains, and when it passes prospectors on the trail, as it often does, the old-timers stop and laugh, and ask, "What in the Sam Hill is the prospecting business coming to, when we can't get away from Henry even up here on the way to Red Lake."

The Ford is charging \$20.00 per hundred pounds, live or dead weight, and will take freight or passengers, or anything that will pay the rate. The car is doing a thriving business, and is also standing up well under the hardships of the trail.

Stranger—"How many men work in the plant?"
Kidder—"About half of them."

ANOTHER BIG STRIKE MADE AT WOMAN RIVER

Chas. Paull, Pete McDonough and Jake Davidson Stake at Spot 70 Miles East of Red Lake.

A strike reported as even exceeding the Red Lake one is now said to have been made at Woman River, seventy miles east of Red Lake. According to a prospector just back from Red Lake, the new find was first reported by an Indian who brought samples in to Hudson. The Indian was looking for Pete McDonough to have the McDonough Brothers do the necessary staking. According to the story reaching here, the Indian travelled on to Pine Ridge and located Pete McDonough and told him of the new gold strike. The Indian carried with him spectacular gold ore samples that were enticing enough for any old timer. Pete McDonough at once started off for the new field, but news of the find had leaked out and Chas. Paull and Jake Davidson were on the scene at Woman River as soon as Pete or before. McDonough staked a bunch of claims, and so did Paull and Davidson. The samples shown by the Indian were unusually rich, but that is about all that anyone knows about the new find. If the new strike has much ore as rich as the samples shown, the Woman River find will back Red Lake right off the map. The return of the McDonough Bros and Messrs Paull and Davidson will be awaited with much interest.

Mr. Walter Armitage, manager of the Townsite branch of the Hollinger Stores, left last week to visit his parents in Yorkshire, England.
