PLEASE DON'T TELL ANYONE ABOUT THIS SNOWSTORM.

A snowstorm on Tuesday evening this week was aptly described by a local Irishman in these words:—"The snowstorm this spring was the worst we had all winter." Several inches of snow fell, the wind was fierce, and the way the snow drifted was ditto. The same Irishman might well be quoted as saying:—"If an early Easter means an early Summer, then we prefer last winter now to next summer at present."

P.S.—This item is not to be read now, as it might be taken as reflecting on the salubrious climate of this great North. It is published now simply with a view to being used in 1936 under the heading of "Ten Years Ago in Timmins," just to show how the weather has made wonderful progress and development in ten brief years.

THE VERY LATEST STORY AGAINST THE SCOTTISH.

The latest Scottish story originated in Timmins as a result of a conversation at the breakfast table between a Scottish father and his young daughter. There was marmalade on the breakfast table and that started the Scot's train of thought. The following is the conversation as it occurred.

Father—"Do you know why Dundee has become a world centre for the production of marmalade?"

Daughter—"Well, no, I do not!"

Father—"Well, you see, lass, that the Dundee Scots were very fond of oranges. And when the Scotsmen got through sucking the oranges, they had to find a way of making use of the skins."

FIRE DOES SOME DAMAGE AT BIRCH STREET HOME

A telephone call at 8.40 last night took the firemen and motor truck on a speedy run to 102 Birch street south, the home of Mr. and Mrs. Drady. The fire was upstairs in the house, and some coats on the wall were burned. The smoke was very dense and overpowering and in a short time the fire would have been a serious one. Mr. and Mrs. Drady were at church, and the youngsters noticed the smoke coming from upstairs and went outside for help. A neighbor phoned for the brigade. The youngsters had not been upstairs and the cause of the fire is not known. The fire was extinguished by use of the chemical tanks, the damage done not being serious.

FORMER CHIEF OF POLICE EXPRESSES HIS THANKS

The following letter was received this week from Mr. M. Greer, Chief of Police of the Town of Timmins for six years, and who resigned last week: Timmins, April 12th, 1926

To the Editor of The Advance

Dear Sir:—I feel that I would be ungrateful if I allowed the opportunity to pass without expressing my sincere thanks to the members of previous councils and to the Mayor of former years, Dr. J. A. McInnis, for generous support and co-operation and for the kindest of treatment and courtesy during the six years that I served as Chief of Police of the Town of Timmins. To the general public also I would like to express my appreciation for the invariable courtesy and consideration shown me. During my term of office I tried to do my duty without fear or favour, and it always was a great support to me to feel that I could always depend upon the Mayor and Council and the people at large for the heartiest support in following the honest path of duty. I leave the position feeling that I have always honestly followed out my oaths of office, and so have no regrets. For the loyal support and the good work done by the other members of the Force I also desire to show my gratitude. I might also mention that with the Provincial Police and the Police of the neighbouring township of Tisdale, relations have been most friendly and we have always worked together for the common welfare and the upholding of law and order. To the former Mayor and Councillors and to the good people of the Town of Timmins I extend the heartiest thanks and all good wishes.

Yours truly
M. Greer.

DISCOVERED A USE FOR GUM

Originally known as elastic-gum, crude rubber received the name of India-rubber from the discovery of its use for rubbing out lead-pencil marks. In the past few years the use of rubber has grown in leaps and bounds because science has been brought to bear on the different problems of its manufacture. Without scientific methods we should still be using rubber exclusively for erasing pencil marks. Columbus Rubber Boots are comfortable and durable because they are carefully and scientifically made. Extra reinforcing is placed where the wear is heaviest. All the best dealers handle them.
