DEATH OF CECIL VINCENT NEARY, OF SCHUMACHER

Popular and Highly-Esteemed Young Man Passes Away After Brief Illness.

Schumacher, Ont., May 4th, 1926. Special to The Advance.

There was very general and sincere regret last week at the news of the death on Thursday last, April 29th, of Mr. Cecil Vincent Neary, at the age of 22 years. Death followed an operation for appendicitis. On the Saturday previous the late Cecil Vin-

cent Neary was at work as motorman at the McIntyre evidently in his usual good health. On Tuesday he had to go under medical care and on Thursday, despite all that skill and attention could do, he passed away.

The late Cecil Vincent Neary was born at Wine Harbour, Nova Scotia. He had been in the Porcupine camp for the past four years and won wide circles of friends by his pleasant disposition and his good character. He was the son of Mr. and Mrs. W. E. Neary, of Schumacher, and in addition to the bereaved father and mother, three sisters also survive. The sisters are:—Hazel and Margaret at home, and Mrs. G. A. Conrad, of Halifax, N. S. To the bereaved family the deepest sympathy of all is

extended in their great loss.

The funeral took place on Saturday morning to the R. C. Church, Timmings, the remains afterwards being taken to Haileybury for interment there Saturday evening. The pallbearers were six friends of the dead young man:—Don Cooper, Charlie McGrath, Ernie Keizer, George Sutherland, L. McKinnon and Harry Campbell.

The number and beauty of the floral tokens indicated the general respect in which the late Cecil Vincent Neary was held by all and the deep sympathy felt for the bereaved family. Among the special tokens was a large wreath from Mr. and Mrs. Furlong and fifteen of the young men at the O'Connor House. Other floral tokens were sent by:—Edgar Eady, the United Church, Wilson Drug Store, Mr. and Mrs. A. Glazier, Arthur Olson, Mr. and Mrs. W. C. Arnot, Mr. and Mrs. F. Williams, Mr. and Mrs. L. Hemming, Mr. and Mrs. W. J. Mackay, Mr. and Mrs. F. Gaston and from the Mother and Father.

Happiness is one thing it is impossible to keep to one's self.

There are two kinds of men who never amount to anything; one, who can not do as they are told; and the other, who can do nothing else.

IROQUOIS FALLS MILL BANQUETS 1067 MEN

Abitibi Co. Gives Pleasant Event to Celebrate New Record of Production, of 551 1/2 Tons of Paper.

The banquet at the Abitibi Power & Paper Co. mill last Saturday to observe the production of 551 1/2 tons of paper in a single day was probably the most remarkable event of its kind ever held in the North Land. There were 708 men sitting down to the first table and 359 at the second, it being necessary to have the two sittings to accommodate all the staff concerned in the big new record at Iroquois Falls, without interfering with the shifts and production at the mill. Very brief addresses were given by Mr. R. A. McInnis, manager of the Abitibi, and Mr. Craighead, of the Geo. H. Mead Co., Dayton, Ohio. Mr. McInnis explained the credit due to each and all for the co-operation, efficiency and good spirit that had won success. Mr. Craighead congratulated the company, management and men, and pointed out that the Abitibi had maintained quality while achieving quantity. The mill was tastefully adorned and decorated for the occasion, and the menu prepared under the direction of Messrs. Ed. Stöver and James Kingston was a tribute to efficiency and skill. Mr. W. Tierney was the witty and effective chairman for the evening. Babe Warren's orchestra furnished the finest of music and there was the happiest entertainment given by a galaxy of talent that included Art Chisholm of Timmings, and Chas. Musgrave and Duncan Cowan, of Toronto. A speech by "Shorty" Quesnell was another big feature, "Shorty" just happening to be in town for the occasion. The whole event was a remarkably enjoyable success in every way and the 1067 men attending were unanimous in this opinion.

"Woe is me" said the horse, as he stopped.

Be content with what you have, but not content with what you are.

Give according to your means not according to your meanness.

FIRE RANGERS READY FOR SEASON'S WORK

Chiefs and Deputies on the Ground With Equipment, to Protect District from Forest Fires

The Fire Ranging staff for the district is all ready now for the season's work, and in view of the fact that the past two seasons have been wet ones with consequently little danger of serious forest fires, particular care will be taken this year to guard against any conflagrations, as it is felt that a third comparatively "safe" season is scarcely to be expected. At any rate, the chief fire rangers and deputies are taking no chances on the hope of a third wet season, but have planned to protect the district in the best possible way should this year prove to be a dry season with the resulting fire danger. Among the new instruments, by the way, which the Cochrane Forestry branch is provided is a hydrograph—a sort of sanctified barometer which will give a good forecast of atmospheric conditions fully three whole days in advance. This new instrument should be of much value to the department, indicating as it does the chances for rain or a hot spell as much as 72 hours ahead.

The Cochrane District Fire Ranging staff is in charge of Mr. Fred Hamilton, Supervisor. Under him is the following staff:—

Timmings Chief Ranger E. J. Gilligan, Deputies H. Clark, L. Levinge, T. McCutcheon.

Matheson, Chief Ranger T. Barrett, Deputies E. Potter, F. Miles, T. Haley.

Low Bush, Chief Ranger E. N. O'Grady, Deputies Joe Roy, Geo. Weir.

Englehart, Chief Ranger R. G. Stevens.

Smokey Falls, Chief Ranger W. R. Clark.

Cochrane Town and surroundings, Chief Ranger F. L. Fleming, Deputies John Murdock, Alf. Brunet, W. R. Gardner.

Kapuskasing, Chief Ranger J. Livingstone, Deputy J. Stillwell.

In referring to the organization of the fire rangers for the district under Supervisor Fred Hamilton, The Cochrane Post last week says that further addition to the equipment is expected but owing to the weather conditions no special rush is needed for this, but in case of a dry spell there is the assurance that the territory will be efficiently looked after; and considering the general conditions around here brought about by two wet seasons, there naturally must be a great deal of anxiety until the overburden of slash on the different homesteads is satisfactorily disposed of. This part of the work will be looked after immediately when the time arrives to start burning, but again, we must caution the settlers to consult and co-operate with the fire rangers about starting fires.

"From what we hear from Mr. Hamilton," says The Post, "it is the intention to have the surroundings of the towns and villages looked after immediately the weather conditions permit, and the towns and villages should at the same time clean up in their own limits. It is all a question of weather, but having had two wet seasons in succession, greater precautions than ever will have to be taken in order to avoid repetition of previous catastrophes."

Let's have more recreation and less wreckreation.

If ignorance is bliss, are the ignorant ones blisters.

To correct mistakes is a good work, but to prevent them is a higher achievement.

CHARMED!
Mrs. Duds meet Mr. Suds, the laundryman of fame. His sanitary cleanliness won for him his name.
