

ATTACKED HIS WIFE AND THEN ATTEMPTED SUICIDE

Kapuskasig Man and His Wife Are in the Spruce Falls Hospital

A man named Slapnick, of Kapuskasing, and his wife are both at the Spruce Falls hospital for treatment for wounds said to be inflicted by the man. According to the story told, Slapnick beat his wife and then attempted to kill himself. A despatch last week from Kapuskasing tells the story as follows:—

"What might have proven a double tragedy occurred Saturday night when a man, by the name of Slapnick, attacked his wife with some sort of implement, cutting her badly about the face and head, after which he attempted suicide by gashing his own throat with a razor. Both are now in the Spruce Falls hospital, where they were rushed for medical treatment. The woman is recovering, as is the man, whose trial will be held when his condition permits."

WHITE GEESE TRAVELLING WITH FLOCK OF GREY GEESE

The restless way in which the flocks of geese migrating to the north acted recently on their trip through the country attracted more than usual attention. Anyone at all interested in natural history found the flights of the geese of special attraction. Many unusual things were noted by many interested. Everyone seemed to be struck by the restlessness of the birds, and many guesses were made as to the probable cause. The New Liskeard Speaker always is interested in natural history notes, and last week published the following paragraph:—

"Many flocks of geese have gone north the past week. Tuesday one flock of 60 or 70 grey geese went straight north among them being four white geese. Our informant, who is keenly interested in these summer tourists, says never before has she seen white geese with flocks of grey. Some of the flocks flew back and forward, circling and in some cases, dropping to the fields. Was there dissention between leader and followers—was there mutiny in the ranks—was there premonition of the heavy storm that reached us Saturday night and stayed awhile with us—or was some one using a gun? Some have since gone south. A pair of wild ducks spent several days last week on a little creek near town."

ENGLISH INTERESTS MAY FINANCE NIGHT HAWK

In connection with the discussion of the situation relative to the Night Hawk Peninsular Mine, The Northern Miner last week says:—

"Night Hawk Peninsular Mines have made a deal with the power people whereby they can do one of several things in connection with the threatened tie-up of operations due to change in power which means a change from 60 to 25 cycles energy. An arrangement has, or is being made, The Northern Miner understands for taking care of the big outlay necessary. Night Hawk can either continue to get 60 cycle power by paying a monthly rental for the Great Northern plant at Indian Chutes; it can suspend operations and make an immediate change in equipment or it can leave the change until some more convenient time. Though there is no official word available on the point, it is likely that the mill will be closed down on May 15th, the mine kept de-watered with steam power and supplies ordered immediately so that mining can be resumed as soon as the change in electrical equipment is made.

"English interests are said to be interested in Night Hawk to the extent that they might put sufficient money in the company's treasury to try to develop the mine to the point where larger mill tonnage and operating economies can be effected. Just how far these negotiations have progressed is not known."

COBALT AFTER RADIO BROADCASTING STATION.

According to The Northern News, Cobalt wants a radio broadcast station. For some years Timmins has had such a station at Sandy Falls, the famous 3 G.G. The Northern News last week says:—

"A petition from local radio owners, asking for a broadcasting station in Cobalt, is to be presented to the Federal Department of Marine and Fisheries at an early date. Signatures are being obtained by R. L. McAdam, who reports that the proposal is meeting with great approval in town. The Kiwanis Club members are supporting the scheme. The Department exacts a fee of \$50 per annum for the privilege, which sum covers the current fiscal year. In a letter received from the Deputy Minister it is stated that a wave length of 248 metres would be assigned to the station here, and that it would be entitled to its share of the week's time allotted to that length. The intention would be to broadcast locally at hours that would not interfere with the big programmes sent out by the larger stations, it is stated by the promoters of the scheme."

The next Band Concert will be held in the Goldfields Theatre on Sunday evening, May 23rd, after the church services.

MR. JOHN MASSIE'S DOGS TAKE FURTHER HONOURS

At the noted Buffalo Kennel Show at Buffalo, N.Y., last week, two Timmins dogs took high place and thus reflected credit on their town and on their owner, Mr. John Massie. Northwood Sandy, born and bred in Timmins, was first in the open class and second in the novice class of Cocker Spaniels. Northern Queen, another of Mr. Massie's dogs, and one that has won high honours at Toronto and other important dog shows, won the place as the best female dog in the show at Buffalo. Over 500 dogs, the pick of dogdom in the United States and Canada were exhibited at the Buffalo show, so the honours won by the Timmins dogs are accordingly worthy of particular note.
