PROMOTER NECESSARY FOR OPENING OF NEW MINES

Broker Should Work with Promoter. All Should Assist to Keep the Game Honest and Straight

The Denver Mining and Financial World recently had the following editorial article on the mining promoter and his place in the mining development:

"The more we see of life the greater is our desire to mind our own business and let the other fellow do the same. A just government will iron out the dishonesty that may creep into business. Infringing upon the other fellow's rights causes him to try and secure a similar advantage. When everyone is doing it, the public and the law rise up and wipe out the frauds. One rotten apple in a barrel may turn all bad just as one unfair practice in any line of business may injure everyone in the business.

"The New York Stock Exchange had to mend its ways to secure the confidence of the nation. Even today there are practices prevalent on the big board that are not wholly approved. It has, however, eliminated practices that would have ended its existence if they had been allowed to continue. The New York curb market went through the same battle. The unlisted securities market must overcome questionable practices if it is to grow.

"The promoter is absolutely necessary in the work of opening up new mines and in the drilling of oil wells. This being true, nothing should be allowed to retard or cripple the work of the promoter. If there are practices prevalent that are injurious to the honest financing and development of our resources these practices should be wiped out. Efficient financing at the lowest possible cost is the aim of every promoter. The broker should work with the promoter. He should not put out false quotations underquoting shares of a company in the financing stage. If he does he is a detriment to the legitimate financing of a western enterprise and is casting discredit on western industry.

"The west needs more promoters and fewer unlisted brokers. There would be less wasted effort and more work done underground if more men of ability would become promoters and get their own projects under way and let the other fellow do likewise."

GOOD PROGRESS MADE BY THIS DOMINION OF CANADA

Pointing to the progress Canada had made during the last two decades, Sir Henry Thornton, president of the Canadian National Railways, speaking to the Kiwanis Convention in Montreal recently said that from 1901 to 1911 Canada's increase in population was 34.1 per cent, equal to the best decade in the history of the United States. During the next ten years progress was impeded by the Great War, but even during these trying times the growth in population was 21.95 per cent, as against 14.9 per cent in the United States.

"Equally encouraging to Canadians are the figures which show that in 1870 the 38,000,000 people of the United States were producing from the oil fields, gold, copper, iron, and coal mines, the same mineral wealth that is being produced by the nine million people of Canada to-day," said the speaker.

RECORDING 37 CLAIMS A DAY AT PINE RIDGE

Total of 405 Mining Claims Recorded in Period of Eleven Days.

A total of 405 mining claims have been recorded at Pine Ridge from the opening of the mining recorder's office at that place to the time of the first report sent out—a period of eleven days. The recording office was moved to Pine Ridge from Red Lake on June 10th, and in the report on the 25th, covering eleven days the figures worked out to an average of 37 claims a day for each of the eleven working days. This is considered a record for this time of year and for the stage reached in the rush to the camp. It would suggest considerable interest being maintained in the Red Lake area.

An interesting comparison has been made with previous staking. Up to June 10th approximately 4,850 claims in the old Red Lake Mining Division were recorded at Kenora and Red Lake, of which 250 represented the number on the books prior to the Howey discovery of last year, and 4,600 the result of the rush of prospectors into the area last Winter, when the applications to record made a new record in the history of the Mines Department. The heaviest day saw 166 claims recorded, and in one period of three days a total of 444 applications were received and filed.

Clear evidence of the small-sized rush now under way to the Woman Lake area is given in the figures, a total of 256 claims in that district having been recorded from June 10 to 22, inclusive, compared with 114 in the old Red Lake camp proper, 21 at Birch Lake and 14 in the Rieckaby-Bee Lake district, located immediately west of Red Lake close to the Manitoba boundary.

Of the 256 claims recorded as being in the Woman Lake territory, 115 are located on or adjacent to Clearwater Lake, 102 on Woman Lake itself, 14 on Arrow Lake, 13 on Washagomis Lake and 12 on Fly Lake.

In the Red Lake area there were 43 claims recorded as staked out at East Bay, 28 at Trout Lake, 19 at Post Narrows, 18 on Gull Rock, 6 at Wolf Narrows, 3 on Trout Bay and 2 on the Chukuni.

The Birch Lake region claims which were recorded were located as follows: 12 on the Shabumeni River and 9 north of Washagomis Lake.

All of the 14 claims recorded as being situated near the Manitoba boundary were adjacent to Bee Lake. It is considered that this territory carries an eastward extension of the ore bodies of the well-known Bulldog gold camp of Manitoba.

The Woman Lake area is taken as embracing all that territory from Bear Lake north up Woman Lake River and Woman Lake to Narrow Lake, then east to Washagomis and south through Clearwater and Fly Lakes. The Birch Lake district comprises all ground north of Narrow and Washagomis Lakes over the height of land to the Shabumeni and Birch Lake.

Prospectors in to-day from the North report that there are numerous parties in the bush adjacent to the south-west arm of Birch Lake, and that the area there is being pretty thoroughly combed. Between Woman Lake and Clearwater the ground is staked solid, and attention is now being diverted to the territory further south on both sides of Fly Lake.

TEN-YEAR-OLD BOY MEETS DEATH IN WHITE RIVER

A despatch last week from Cobalt says that Hilliard Fowke, 10 years of age, son of Mr. and Mrs. Thomas Fowke, Charlton, was drowned in the White River last Tuesday afternoon, according to word reaching here today. The boy had been playing near a saw mill with a companion and suddenly disappeared. The body has not been recovered.

NEW GARAGE OPENED ON CEDAR, NEAR FOURTH

Mr. N. G. Clancy has opened a new garage in the Lennan property at the corner of Cedar street and Fourth avenue, the premises formerly occupied by the New Ontario Machine Shop and Garage. All kinds of auto repairs will be looked after, as well as light electrical work and the best of work and service are assured.

NEW REGULATIONS FOR PROSPECTING FOR COAL

In view of the interest now centering around the reported coal fields along the Mattagami river north of Cochrane, the following Order-in-Council will be of more than passing interest. It was recently given out by the Ontario Dept. of Mines:

Upon the recommendation of the Honorable the minister of mines, the committee of council advise that pursuant to the provisions of Sections 119 to 120a inclusive of the Mining Act of Ontario, regarding the issue of boring permits for petroleum, natural gas, coal and salt, in that part of the province lying north of the Transcontinental Railway, the following regulations are approved by Your Honor.

1. The holder of a miner's license is limited to three applications for boring permits, regardless of the mining division or divisions in which the land may be situated.

2. An application for a boring permit shall be endorsed by the mining recorder on the applicant's license, and shall count the same as a mining claim in respect of the number of mining claims a license-holder is entitled to stake out.

3. The holder of boring permits on three contiguous areas who has given notice to the minister of mines of his intention so to do, may perform, or cause to be performed, all the work required by the mining act of Ontario on one or two of them.

4. In computing the amount expended on working conditions, the holder of a boring permit may reckon as expenditure not more than 25 per cent. of the cost of machinery placed upon the ground during the term of such permit for the development of the area.

5. Boring or diamond drilling may be allowed on working conditions at the rate of \$10.00 per foot.

6. The actual cost of surveying an area covered by a boring permit may be allowed on working conditions, but not more than \$150.00 shall be so allowed.

7. The holder of a boring permit shall not later than 30 days after the date on which the permit expires, deliver a report in writing to the minister of mines showing the work done under the permit during the term of the same, and giving the names and residences of the men who performed the work and the dates upon which each man worked in its performance. If boring or diamond drilling is done, the said holder shall also furnish to the minister a sketch showing the position and depth of the holes, also if test pits are put down or shafts sunk, like information regarding the same, together with such particulars as the minister may require regarding the depth, thickness and nature of any deposit of economic character penetrated or not, within such holes.

8. The fee for filling an application for a boring permit staked out by a license holder on his own license shall be \$5.00 and if staked out on behalf of another license holder the fee shall be \$10.00.

BIG BOXING EVENT AND CONCERT WEDNESDAY NEXT

To be Held in the Hollinger Hall. Promises to be One of the Very Best Yet.

There have been several boxing events staged by Mr. Tex Jardine, and all of them have been appreciated and popular. Indeed, some people have gone so far as to say that Tex Jardine is the only man who can stage a real good boxing bout here and give all a little more than their money's worth. However, a boxing event under his auspices will be generally recognized as good stuff, so all interested will be pleased to learn of the boxing display and concert to be given in the Hollinger Recreation Hall on Wednesday evening of next week, July 14th, commencing at 8 p.m. There will be a number of speedy boxing events. One feature advertised is a four-round affair, catch weight, between Tiger Flowers, of Kentucky, 220 lbs., and Shorty Grant, of Bobaygeon. Shorty says that all the Flowers that will be left when he gets through will be the Tiger Lilies on the Kentucky champion's coffin.

The proceeds of the event will go to the purchase price of the handsome silver cup recently bought for competition among P.D.F.L. teams. This cup is to be known as "The Boxers' Challenge Cup." The P.D.F.L. teams will compete for the trophy, in knock-out matches. The gates are to be split fifty-fifty up to the final game; in the final, the whole proceeds to go to the League for the cost of medals for the winners.

THREE-YEAR-OLD BOY FALLS UNDER WHEELS OF TRAIN

Gus Kryzakos, a three-year-old Sudbury boy had his right leg practically severed below the knee when he fell under the wheels of a train entering the Sudbury yards last week. No one saw the accident in its actual happening, but the lad was noticed some time previously playing in the railway yards and it is thought that he ran along side of the train as it came in from Sault Ste Marie. Perhaps he tried to grasp one of the irons and either slipped or was dragged under the wheels. He was rushed to the hospital and the leg was amputated. He is in a serious condition but it is confidently expected that he will recover.

LANCASHIRE FOOTBALL CLUB DANCE LAST WEEK

The Lancashire Football Club Dance, held in the Hollinger Recreation Hall last Wednesday evening, was one of the best ever held here. Besides waltzes and foxtrots there were two sets of Lancers, and an Old Country waltzing contest. This was a special feature as the dancers had to keep within two chalk marks, two feet apart, and reversing was not allowed. This competition was won by Neil Dougall and Miss O'Neil. Another feature was the couple who were on a certain spot when the music ceased. This was won by Mr. F. Uttley and Mrs. Barrett. A prize was given to these respective couples. Another feature of the evening was the Charleston which nearly every dancer finally broke into from the oldest to the youngest.
