OVER \$157,000,000 FROM DIVIDENDS FROM MINES

One Third of This from the Porcupine Gold Camp Mines in Less Than 15 Years.

Some weeks ago the Boston News Bureau published an article under the heading, "England Faces a Shortage of Gold." This was written by Herbert N. Casson, of London, England, whose prominence as a financial authority gave the article such prominence that The Bulletin, issued by E. H. Walker & Co., of Boston, Mass., took occasion to correct some misapprehensions likely to arise from omissions in Mr. Casson's presentation of the case. In discussing Mr. Casson's article, The Bulletin says:—

"The purpose of the article is to show a general decrease in gold production and in reviewing the situation Mr. Casson mentions the various gold-mining districts of the world. For some unaccountable reason, however, he has ignored Canada completely, notwithstanding her gold output is constantly increasing and will probably exceed that of the United States in another year or two.

"In citing several instances of declining production Mr. Casson says, 'The famous old Robinson gold mine (South Africa), which was the world's richest mine, is now about to go into voluntary liquidation. It is worked out after 37 years of unparalleled production. This one mine has paid \$60,000,000 in dividends. No other gold mine has ever reached this figure. It has produced 250 tons of gold, worth \$125,000,000.'

"The record of the Robinson mine is brilliant, indeed, but it sinks into insignificance, when compared with that of the great Hollinger mine at Porcupine, Ont. In less than 15 years Hollinger has produced about \$110,000,000 and experts say that she will produce half a million dollars down to 3,000 feet. Her dividend disbursements of the past 8 years aggregate more than one-half of the total paid by the Robinson during 37 years.

"Other mines in the North Country although operating on smaller scales, are enjoying like prosperity, as shown in the table below. Expansion is the general rule. Milling plants are being enlarged and new mines are coming into production, notably Premier Paymaster and Ankerite, while others are pushing development work with plants in view. A small army of prospectors are locating new mineralized territory and the entire area is the scene of great activity. Following is a record of total dividend disbursements to the end of July, 1926.

"Cobalt, South Lorrain and Gowganda, silver mines have paid dividends as follows:—

Beaver	\$ 710,000.00
Castle-Trudelwey	14,000.00
Coniagas	11,540,000.00
Crown Reserve	6,190,849.00
Keeley	1,520,000.00
Kerr Lake	10,110,000.00
LaRose	7,805,409.50
Lorrain Trout Lake	150,000.00
McKinley-Darragh	5,955,381.06
Mining Corporation	6,122,386.74
Nipissing	28,903,297.25
Inactive Companies	16,999,015.80
Private Corporations	6,000,000.00
Total	\$101,120,339.35

"Porcupine gold mine have paid dividends as follows:—

Dome	\$10,262,089.28
Hollinger	33,384,400.00
McIntyre	5,611,409.00
Porcupine Crown	840,000.00
Rea	12,000.00
Schumacher	1,728,000.88
Total	\$51,837,899.16

"Kirkland Lake gold mines dividends are as follows:—

Lake Shore	\$2,020,000.00
Teek-Hughes	474,714.40
Tough-Oakes	398,625.00
Wright-Hargreaves	2,131,250.00
Total	\$5,024,589.40

"The grand total of dividends paid by the gold and silver mines of the North Land is thus \$157,982,827.91."

Labour Day, September 6th, is the date of the Musicians' Ball, for the benefit of the Hockey Club. The event will be held in the McIntyre Hall, Schumacher.

MISTOOK NORTH BAY FOR THE CITY OF TORONTO

A despatch published this week in The Sudbury Star says:—

"Peter Generoux, aged and suffering from loss of memory was brought before the court to be committed to the jail for a short period to enable the police to investigate his case. The aged man arrived in North Bay on the C.N.R. train and without knowledge as to where he had started from or to where he was destined. On his arrival in North Bay he was under the impression he was still in Toronto and requested that he be directed to Wood street. The old gentleman was respectfully dressed and indicated that he had been accustomed to good care. No papers or such were found on him that would give information as to his home. He will be placed in care of the jail officials while the police endeavor to locate relatives or friends."

BEAUTIFUL LAWN OF THE KINGSTON HOTEL AN ASSET.

A visitor to Timmins last week from Southern Ontario held to the opinion that Timmins was a town of beautiful lawns and well-kept places. He saw in many parts of the town beautiful grounds and lawns and flowers. But he also saw many untidy and unkempt places. Yet he maintained that Timmins was remarkable for its fine lawns and flowers. The real reason for this was the strength of a first impression. Coming into town an absolute stranger, he stepped off the train to see first the T.&N.O. lawn and flower plot, and the little park in course of construction. Then as he crossed the road his eye was caught by the beautiful and well cared-for lawn of the Kingston Hotel, with its fine showing of flowers. It was the Kingston Hotel lawn that made the lasting impression upon him "what a beautiful lawn!" he said, and all through his stay in town he carried a mental picture of that attractive spot. The incident indicates the value of a well-kept place in leaving a good impression upon the visitor. The touch of beauty is also something to be prized by the people of the town. The more lawns and gardens like that of the Kingston Hotel the more Timmins becomes a better town in which to live.

W. F. MacLEAN RUNNING AS INDEPENDENT CONSERVATIVE

Mr. W. F. MacLean, the Dean of Parliament, is well known in the North Land where he has visited on more than one occasion, and where he has also interests in some mining properties. Accordingly there will be special interest in the following statement issued last week by Mr. MacLean:—

"The North York Township Conservative Association (Willowdale), having sustained the decision of its executive that the recent Conservative convention in South York was both illegally constituted and unfair and that they could not endorse the candidature of R. H. McGregor, is my reason for announcing myself as an Independent-Conservative candidate against Mr. McGregor in South York. "I hope to leave the issue as between us to the entire electorate, over 13,000 for a decision. So I will go to the polls and leave it to the others to decide by their ballots.

"I will make fuller announcement on Monday but my campaign has opened and I am in the field to the finish. I will open up on Monday."

NOTED STRING QUARTETTE TO VISIT HERE AGAIN.

Lovers of music will be delighted to know that Timmins is to have a visit on September 28th from the Hart House String Quartette, whose wonderful programme of music here several months ago was such a treat to those who enjoy the best of good music. The Kiwanis Club, who sponsored the previous visit are also arranging for the event on Sept. 28th. Tickets will be on sale shortly for the big event on Sept. 28th and as on the previous visit of this gifted quartette, The Advance advises securing tickets early as possible to avoid disappointment.

REPORTED SHORTAGE OF HARVESTERS IN THE WEST

There will be a probable shortage of 20,000 men needed to harvest the grain crops of the prairie provinces and the situation is serious, according to a statement by R. A. Rigg, director of the employment services of the Canadian Department of Labor. This shortage is after a second series of harvester trains from the Maritime provinces and from the provinces of Ontario and Quebec will have reached the west. In a final effort to get more men from the east another series of harvester trains will be run. They will be from the Maritimes on September 3 and from Quebec and Ontario on September 4.

TIME NOT SO IMPORTANT TO ORDINARY STATESMEN

Last week the daily newspapers published a despatch from Swastika indicating the difference between statesmen and business men in regard to appreciation of punctuality and the value of time. The despatch says:— "Incidents which serve to illustrate one of the differences between a politician and practical business man occurred recently, and though the scenes were somewhat removed the circumstances were much the same.

"A C.P.R. train was about to pull out of Windsor Station, Montreal. It was the president's train. As the engine whistled, ready to go, Mr. E. W. Beatty was still standing on the platform chatting with friends. Promptly on schedule the train started to move. The president of the company stepped lively in time to avoid being left behind.

"The other scene was at Porquis Junction where Mr. Mackenzie King, ex-premier of Canada, kept T. and N. O. Train No. 47 waiting for nineteen minutes while he and his friends arrived by motor from Iroquois Falls, said good-bye to their friends on the station platform and later caused a further delay while two of the party who missed the train at the station ran down the tracks and climbed aboard. As a result of delays caused by the ex-premier's party the train drawing his private cars were nineteen minutes behind schedule leaving Porquis Junction."

The present popular style in feminine attire, no matter how attractive and comfortable it looks, has been described by a well-known local bank president as being like a barb wire fence—it protects the premises but does not obscure the view.
