## Ten Years Ago in Timmins

FROM DATA IN THE PORCUPINE ADVANCE FILES

The Advance ten years ago had a lengthy article on the Kirkland Lake Camp and its prospects. The tenor of the article is indicated by the heading, "Kirkland Lake Camp Second to Porcupine." With the advent of cheap power at Kirkland Lake, The Advance looked for great progress at Kirkland Lake, and in the past ten years the camp has certainly justified all expectations, and more. The fact that the veins at Kirkland Lake properties were reported as narrow did not discourage The Advance ten years ago, it being pointed out at that time that the millheads at Kirkland Lake were the highest in Northern Ontario, often running to \$23.00 per ton.

There were a number of interesting items from South Porcupine in The Advance of Sept. 20th, 1916, the following being some of the paragraphs from South End:—"Mr. William Asseltine will leave this week for Hamilton, where he will be united in marriage to Miss Ida I Carr, of 96 Holton avenue, of that city." "The Board of Trade purposes erecting an open-air skating rink for the coming winter in the centre of the town." "The firemen on Thursday afternoon last tested out the hose received by the Council from Latchford, and it proved to be satisfactory, thereby saving the Township considerable expense." "John T. Easton & Co., undertakers, are establishing a branch in Timmins." "The bowling team from Timmins journeyed over on Tuesday night and trounced the home team by 66 pins."

There were many local items under the heading of Timmins and district including the following:—"Mr. Chas. Kemsley, who has been on the staff of the West Dome Consolidated, as master mechanic, was married to Miss Holmes, of Cobalt, on Wednesday, Sept. 20th." "The T. & N. O. have employed a lady clerk on their staff at the local station. This is one of the several instances where women will be substituted for men on account of the war demands." "Cement walks have been laid along the business sections here, which certainly means that the town is prospering." "The dance given by Miss Omo, in the Union Hall here, was a great success on Tuesday evening, being well attended by local and South Porcupine dancers. In all there were about ninety couples present. The music was furnished by a local pianist and violinist." "Mr. Len Newton's new residence on Third avenue, just below Balsam street, is nearing completion and will soon be his place of abode." (Little did he think that ten years later it would prove to be a municipal gravel mine—chiefly sand). "Chas. Ramsay has built a home on Maple street and expects to move into it with his mother in the course of a few weeks." "Dalton Bros. are putting another storey on the house bought from K. Dreyer on Third avenue." "We notice that one of our speed merchants is driving his car at a moderate rate of speed. We wonder why?" (No, the answer is not that the town bought a motor cycle at \$587.19.) "Sergt. Dodds left for Camp Borden last week, and his place has been taken by Corporal Pillsworth, who will look after the affairs of the local platoon." "Mr. Leo Mascioli is re-modelling his store on Third avenue, next door to the

New Empire Theatre, and will be opened for business in the course of a few weeks. The building has been re-fitted with large plate-glass show windows and new interior decorations." "The special for the Empire Theatre on Friday and Saturday, Sept. 22nd and 23rd, will be "The Final Judgment," with Ethel Barrymore and a capable cast." "The first arrest under the new Ontario Temperance Act was made last week. The case was remanded until called on." "There is some misunderstanding in town in regard to the proper height of awnings. The regulation height of these awnings should be seven feet. The magistrate fined a couple of citizens the other day for a violation of this by-law. Other offenders should take warning." "Porcupine Premier Mines are constructing a new boiler house on their property." "Diamond drilling on the Dome Extension is still in progress. It is reported that nine holes have been drilled, and they are now working on the tenth."

There were literary folks in this camp ten years ago, in witness whereof the following advt. may be quoted from the want advt. columns of The Advance of Sept. 20th, 1916—"For Sale—62 volumes, World's Best history, half morocco bound, cost \$84, will sell for \$45.00; complete set Scott's works, half morocco bound, cost \$35.00 set, for \$15.00; 25 volumes Irish literature, half morocco bound, cost \$35.00, for \$15.00; 20 volumes poems, half morocco bound, for 60c per volume. Apply J. J. B., Box 20, Timmins, Ont."

The Advance ten years ago has an interesting account of a meeting of the town council of that time. The council did not put on any side, but it got through a lot of important business. Mayor W. H. Wilson occupied the chair and the councillors present included Dr. H. H. Moore, Mr. A. R. Globe, Dr. J. A. McInnis, and Mr. A. Brazeau. The absent members were Messrs. J. P. McLaughlin and C. G. Williams. Authority was given for the paying of \$550.00 to Sutcliffe & Neelands for engineering work. The question of putting in a sidewalk on the north side of Third Avenue was discussed, there being a petition from the property owners for the work. There were some apparent engineering difficulties in the way at that time, and the town engineers (Messrs. Sutcliffe & Neelands), were asked to look into the question and submit an estimate of the probable cost. Mr. Newton, of Sullivan & Newton, spoke to the council favouring the enforcement of the by-law regarding the cleaning up of back yards to minimize the danger of fire. Councillor McInnis suggested that the matter be left in the hands of the Fire Chief, but Councillor Brazeau thought it was too much to expect one man to act as fire chief,

tax collector, assessor, sanitary inspector and fire inspector. It was suggested to have a permanent fire chief whose duty it would be to look after the work of sanitation. However, as nothing definite could be arranged, it was decided to leave the matter over until another meeting. On motion of Councillors McInnis and Brazeau, it was decided "that the excavation of the cellar of the fire hall be proceeded with, and that the cost of this work be exclusive of the tendered price."

Ten years ago the Augurita Mines, which had 126 acres half a mile southeast of the Dome, had run into free gold in their No. 2 diamond drill hole. Three gold veins were cut by the diamonds, and three holes were each down about 450 feet. The vein in which free gold was said to occur was found in the core to average \$20.00 a ton.

Reference was made in The Advance ten years ago to the generous contributions made by the Hollinger employees to the various good patriotic causes. The Hollinger Mines employees, The Advance said, had contributed \$1,762.50 to the Timmins branch of the Red Cross Society, and an equal amount to the Porcupine branch of the Canadian Patriotic Fund. The Timmins D. Y. B. Club had received \$450.00. The total thus contributed by the Hollinger employees was almost \$4,000.00. "It is understood," says The Advance, "that every employee contributed one day's pay to this donation, and that this will be done every third month on the distinct understanding that there will be no soliciting, selling of tickets or tags for the balance of 1916. It is to be hoped that the fine example set by the Hollinger employees will be followed by those of the other mines in the neighborhood, and by the townspeople, merchants and their employees in the Town of Timmins. The giving of dances, entertainments and such consume a large part of the money subscribed to them, and the selling of tags and tickets is a constant source of annoyance, so that the scheme of monthly or tri-monthly payments or subscriptions would do away with the necessity for all that. Many of the merchants have already done their bit, but there are still a number to realize the importance of the occasion."

In another column of the same issue will be found the following letter of thanks from the D. Y. B. Club:—"To the Employees of the Hollinger Mine:—On behalf of the members of the D. Y. B. Club, I wish to extend our grateful appreciation of your kind and generous donation of \$450.00, recently received by this club. We are indeed very thankful to you, and hope to use the money to such advantage that it will bring many comforts to our boys in the trenches. Yours very truly, The D. Y. B. Club per E. Lafferty, Corresponding Secretary"

The Advance always had a keen appreciation for a good humorist. "It isn't a difficult matter for a man to love his neighbour as himself,—that is, if she's young and pretty," said The Advance.

## More Than Three Hundred Assist in Search Last Week

Citizens and Pupils of the High School, Public School and Separate School Give Noteworthy Help to Police in Search for Lost Baby. Fire Rangers Also Give Valuable Service. Telephone Co. Aid in Securing Helpers.

Something of the true old-time spirit of this North Land was evidenced last week in the way that young and old turned out and worked in the search for the lost baby,—the little Philott girl, aged about two years and a half. The child was lost for two days and two nights, and from the time word was received that the youngster was missing until the child was found again, groups of willing workers were busy earnestly searching for a trace of the youngster. Chief of Police E. Pascoe told The Advance this week that fully three hundred people took part in the search for the child, groups being out continuously night and day. The Provincial Police assisted the local police, and the local Chief Fire Ranger and his staff were untiring in their efforts. The Fire Ranger and all his men, using four canoes, made a thorough search of the bush, visiting all shacks, and generally conducting a complete search. Volunteer citizens showed equal interest and helpfulness, placing themselves at the disposal of the police and doing everything they could to help. Some of them were out day and night. Mr. Cadman, of the Porcupine Power & Telephone Co., assisted very gener-

ously in getting volunteer searchers by having the telephone girls call up all the business places, suggesting that one from each place be loaned to help in the search. The response to this call showed that Timmins is the right kind of a town and that even the council can not kill kindness and helpfulness. Very material assistance in the search was given by the boys of the High School, Public School and Separate School, each of the three schools lending about seventy pupils for the work on Thursday. Chief Pascoe asks The Advance to express his personal thanks to each and all assisting so kindly and earnestly in the search for the lost child. It was no one's fault that search was specially centered in the wrong direction, the clues all suggesting that the youngster had travelled otherwise than in the northerly direction actually taken by the child. Chief Pascoe expresses particular appreciation to the three schools for letting the boys come to assist in the search. Everyone was delighted when the child was found, little harmed by its unfortunate experience, and especially were all glad, indeed, that no sort of crime had been involved in the disappearance of the youngster, as some had sadly feared.

## USE OF ELECTRICITY IN CANADA ON THE INCREASE

The amount of electricity generated in Canada for Canadian use during the first five months of 1926 surpassed that produced in the corresponding months in 1925 by 17 per cent. and that of 1923 by 38 per cent. Killowatt hours generated throughout Canada for the first five months of 1926 totalled 133,198,000, as compared with 113,589,000 and 96,293,000 in the corresponding periods of 1925 and 1923 respectively.

## TREASURER'S SALE OF LAND FOR TAXES

TOWNSHIP OF CALVERT  
District of Cochrane, Province of Ontario

TO WIT:  
By virtue of a warrant issued by the warden, Reeve of the Township of Calvert bearing date of the Tenth day of August, A.D. 1926, sale of lands in arrears for taxes in the Township of Calvert will be held in the Municipal Hall of Ansonville, Ont. at the hour of ten o'clock in the forenoon on the 22nd day of November, A.D. 1926, unless the taxes and costs are sooner paid. Notice is hereby given that the list of lands for sale for arrears of taxes is being published in the Ontario Gazette on the 14th day of August, 1926, and that copies of the said list may be had at my office.

Treasurer's Office,  
This 14th day of August, A.D. 1926  
**PAUL DUBE,**  
Treasurer.

## ONTARIO'S MINING LANDS

An attractive field is offered to the prospector in Northern Ontario. Seventy per cent. of the entire northland is underlain with pre-Cambrian rocks, in which occur the nickel mines of Sudbury, the silver deposits of Cobalt, South Lorrain and Gowganda, the gold of Porcupine and Kirkland Lake, copper on the north shore of Lake Huron, and iron in Michipicoten and other areas.

Ontario is now one of the leading sources of gold, being outranked only by the Transvaal and United States. In 1925 the production was valued at \$30,207,545 over 83 per cent. of the entire output of Canada. The nickel mines of Sudbury produce 90 per cent. of the world's requirements of that metal. The silver output in 1925 had a value of \$7,084,864. Dividends and bonuses paid by gold and silver mining companies to the end of 1924 amounted to \$140,289,729.

Assistance is rendered by the Government in the way of cutting trails, cleaning streams and building roads, in order to afford access to mining claims or areas, and where a district proves its ore deposits to be of sufficient value and extent to warrant the expenditure, it is provided with railway communication. The Temiskaming Testing Laboratories at Cobalt are equipped to sample ores, and provision has been made for the purchase of gold ore.

For lists of publications, geological maps and reports, copies of the mining laws, and other information apply to

## A NEW & BETTER FURNACE

### At a Sensational Price

Gilson's of Guelph now offer you a perfected furnace—pipeless or pipe style—at a sensational price. The first revolutionary improvement in home heating in half a century—low priced, efficient, quickly installed in any home, school or church.

**Costs Less to Buy—Less to Use**

The new Gilson "Magic" is built of Tungsten Plate. Transmits heat THREE TIMES faster. Patented air-blast burns all the gas and smoke. New type cone-shaped grate gets more heat units out of fuel. Electric arc welding seals the furnace tight as an egg against leaks of gas, dust or smoke.

**Burns Hard or Soft Coal, Coke or Wood**

You are not dependent upon hard coal alone as you get excellent results from any kind of fuel—soft coal, coke, oil or gas. You enjoy an extra saving by using low cost fuels.

**Write for Easy Payment Plan**

A moderate payment down installs the new Gilson "Magic." Learn all the features of this new sensational-priced heating system. We will welcome your inquiry. Catalogue, sketch plan forms, estimates and full information, gladly supplied without obligating you in any way. Act at once—this is the time to make plans for heating your home properly.
