Urges Formation of Club in North to Study Politics

Believes That the Only Way Northern Ontario Will Get Its Rights is "By Having Northern Ontario-Reared Politicians Claim These Rights." Suggests Club for Young Men to Study Politics.

A young man in South Porcupine has written The Advance the letter published below. The young man attached his name to the letter following the phrase "A Northern Boy," and The Advance, not being clear as to whether he wished his name published or not, is not giving the name in this issue. If, as we hope, he will follow up this thoughtful letter with another one on the same subject, we will be pleased to append his name, if he will permit, and something may be done along the line he suggests.

The very fact that young men, like our South Porcupine friend, show a thoughtful and keen consideration for the needs of the North is a hopeful sign indeed. That an organization such as he suggests would be helpful is apparent on the face of it. If such an organization could be kept full of politics (in the real meaning of the word) and free from partyism (in the objectional form) the proposed organization would indeed be a great blessing to the North.

It may be said, in passing, that there are to-day so many organizations that it is difficult to even keep track of them. It might be that the purposes sought by the young man of South Porcupine could be carried through in connection with some existing organization, such as the Board of Trade, for instance. It is undoubtedly true that something should be done to meet the need suggested. The Advance is certain that if the young men can only be keenly and intelligently interested in the politics of the North Land ("politics," being the science of government), then the future of this country is assured indeed. "A Northern Boy" is certainly right in believing that The Advance will be anxious to assist in any movement that promises advantage to the North. In this, The Advance will be delighted to assist either old or new organizations, as in the past. It must be said, in fairness, that the Ontario Government recently has shown a very commendable spirit of helpfulness to the North, and it would also be ungrateful to forget what has been accomplished for this country by the Boards of Trade and other bodies. But, if more can be accomplished, and if the help of the strength and the keenness of youth can be further enlisted, The Advance, to use a slang phrase, is "all for it." If The Advance can do anything in any way, this paper will be delighted to do so. The letter referred to reads as follows:—

South Porcupine, Ont., Sept. 18th 1926.

To the Editor of The Advance.
Sir:—This time, when the citizens of Northern Ontario are greatly interested in the political conditions and needs of Northern Ontario, and Canada as a whole, I consider most opportune for me to bring to your notice something which has been one of my fondest dreams for some time past.

That which has been on my mind is the forming of an organization for the young men of Northern Ontario. Not a social organization, not a literary organization, but a political organization—an organization in which the sons of Northern Ontario could study the political conditions and needs of Northern Ontario.

The citizens of Northern Ontario are clamouring for their rights—for justice, and have on many occasions appealed to the Ontario Government for means of opening this wonderful Northland of ours. Some have even gone to the point of talking secession from the rest of Ontario. The only way Northern Ontario will get these much wanted rights, will be by having NORTHERN ONTARIO-REAR-

ED POLITICIANS claim these rights. The youth of Ontario have to be learned in the conditions and needs of the North before they can get these rights, and they can only be taught these things by an organization with this purpose and the good of Northern Ontario in view. Such an organization CAN and MUST be formed.

The Northland is a land of labour men, and the needs of the labour man are to be considered more than those of other classes, because their needs are greater than those of the other classes. Therefore their needs and conditions would figure prominently in the studies of such an organization, and their conditions accordingly would be bettered.

Nowhere in Northern Ontario have the young men been politically organized, as elsewhere, and it is high time something was done in this respect. And it is up to the older men, the pioneers of the North, to see that something is immediately begun in this direction. I would like, at the earliest possible moment, to get in touch with men who are interested in such work, and to get their views on the matter.

I am writing this to you, sir, because you, through your worthy paper, are always working in the interest of the Northland, and if any movement will be begun for the forming of such an organization, I feel certain that you will be in it.

Hoping that an organization of this time will soon be formed,
I beg to remain,
Yours sincerely,
"A Northern Boy"

ORGANIZATIONS MAY USE HIGH SCHOOL GYMNASIUM

Board Will Allow Its Use for Physical Culture Purposes Under Certain Strict Regulations

At a recent meeting of the High School Board it was decided to allow the use of the gymnasium for physical culture purposes for town organizations, under certain special conditions and regulations. Previously the Board confined the use of the gymnasium to those attending High School. For the advantage of the town and sports generally, however, the Board is ready to allow a limited use of the gymnasium. Any organization wishing to use the gymnasium this winter should apply in writing to the Secretary of the High School Board, P. O. Box 11, Timmins, on or before October 1st. No other applications will be considered except those made on or before October 1st, in writing, and all applications must be from regularly established organizations. It is understood, of course, that all applicants will bear any expenses incurred in the use of the gymnasium.

Mr. and Mrs. T. E. Kelly are visiting in North Bay.

NEW BARBER SHOP IN THE GOLDFIELDS THEATRE BLOCK

Mr. J. Robitaille has opened a new barber shop in the Goldfields Theatre block, corner of Balsam and Third, in the premises formerly occupied by Stadelman's Book Store. The new barber shop is equipped in very complete and up-to-date way, and will give the best of modern barber shop service.

HAMILTON MEN EXAMINE GOLD HILL AT BOSTON CREEK

Recently, more than usual interest has been roused in the Gold Hill property at Boston Creek. Some days ago a party of business men came north to look over the Gold Hill and Hilltop claims. The party included Dr. P. B. MacFarlane, and Messrs. Thomas B. Tough, Charles B. Witefield, Frank H. Gage, H. W. Rodgers, G. S. Dunkin, George W. Gorrie, Jack A. Bell, and W. H. Montague, while P. J. Knox of New Liskeard, joined the party at the northern end of the trip.

Development of the Gold Hill was found to be proceeding rapidly and the party had the opportunity of tracing No. 1 vein at various levels down to a depth of 700 feet. They were impressed with the way in which the vein widened out from a few inches on the surface to between six and seven feet in the lower working. On the 300-foot level the ore body had been opened up for more than 400 feet. Cross-cutting is now under way to pick up the vein at a depth of 800 feet. The visitors were shown several other ore bodies exposed on the surface, one of which lies to the south of vein No. 1 and has a width of several feet. As this vein dips to the north, it is expected that it will appear in the shaft at greater depth.

Hilltop Mines is the larger of the two properties, and the vein system common to both has been traced over the two properties for a length of approximately two miles. The visitors found that the Hilltop shaft, which is being sunk by hand drills had reached a depth of 54 feet, with the vein clearly defined all the way down. The work of installing a mining plant was well under way and shaft sinking at a more rapid rate should be resumed shortly. Several other veins outcrop on the Hilltop property. Carpenters were engaged in erecting fine buildings to house a crew of over 50 men. Another gang of men was working on the power line which will bring electricity to these two properties.

Mr. and Mrs. Jos. Berini returned on Saturday from a holiday visit to the south, which included a motor trip to Boston and other centres.

Evening Vocational Classes To Open Here on October 1st

Timmins High School Again Starting Night Classes for the Advantage of the Ambitious and for Those who Wish to Improve Their Education. Many Subjects to be Taught by Experts.

The evening vocational classes at the Timmins High School will open this year on Friday evening, October 1st, and will continue until Easter, 1927.

For some years past these evening classes have proved of great advantage and value to many in this district. They offer opportunity to those who wish to renew their educational facilities, and to the ambitious who wish to qualify for better prospects in life they give unusual chances.

The evening vocational classes, so successful in past years, this year will give courses in the following subjects: English for foreigners and non-English speaking students; English for advanced students (second and third year students); French (Conversational and business); electricity, theoretical and practical, business courses; typewriting, book-keeping and business practice; mechanical drawing; prospecting and geology; sewing and dressmaking; physical culture for men and women.

Students may enrol for the respective courses any evening, in the principal's office at the High School, from 7.30 to 9 o'clock, starting Monday, Sept. 27th.

The school is fully equipped in all departments to meet the requirements

of the various courses offered, and each evening class is in charge of an expert in the line taught.

Practically speaking, the courses are free, a nominal charge of three dollars for each subject being charged, but this fee is returned at the end of the term to students who attend 70 per cent. of the lessons.

The classes are put on by the Timmins High School and the Department of Education, and they offer ideal opportunity to those who wish to better their education and improve their chances in life.

Have you secured your tickets for the recital by the Hart House String Quartet at the Goldfields Theatre on Tuesday evening, Sept. 28th? If not, do so now before the seats are all taken up. Last year the house was sold out. No one should miss the opportunity to hear these wonderful musicians.
