DR. W. L. GOODWIN'S TIP ON LAKE SAVANT AREA

Likely New Gold Field Recommended by One of the Staff of Ontario Dept. of Mines

How Dr. W. L. Goodwin, of the Ontario Department of Mines, is largely responsible for the Savant Lake gold finds is indicated in an article in the last issue of The Northern Miner. Dr. Goodwin is well known in this district, and mining men, prospectors and others who know him are always more than ready to hear his views and opinions. What Dr. Goodwin thinks is always felt to be well worth

considering. The Northern Miner says:—

"Gold discoveries that have all the earmarks of importance, and which may develop into a first class camp, have been made at Lake Savant, about 500 miles west of Cochrane, and only a half day from the Transcontinental Railway. Several of Ontario's best prospectors are engaged in the field and an element of interest is added by the fact that several men who took part in the early development of the Horne property have claims.

"To Dr. W. L. Goodwin, of the Ontario Department of Mines, must go much of the credit for the influx of prospectors. At one of his lectures he said that the Lake Savant district offered splendid virgin prospecting ground, and some of his audience took the tip.

"There is no question of the gold being present in good quantities. In quartz-schist shearings five to eight feet wide gold is readily panned anywhere. Samples taken from a narrow vein of well mineralized quartz show plenty of visible gold. Prospectors say the formation is attractive. Feldspar porphyry is reported as having been found in the vicinity.

"So far about fifty claims have been staked but it is expected that this number will rapidly grow as there is considerable talk about the field in mining circles and several parties are headed in. Three or four tell The Northern Miner that they are building winter cabins and like the layout so well that they propose to carry on considerable work this winter.

"Duncan McCrea and George Simmons, backed by a New Liskeard syndicate which includes Ed. Miller and others of the Horne crowd, went in early in the summer on Dr. Goodwin's trip. They got good pannings and told some of their friends about the chances. Peter Graham and Peter Morris followed in last month and while the former pair were showing them around they discovered, from their canoes, the quartz veins, showing visible gold, which have led to much of the excitement.

"Tom Montgomery, finder of the Waite-Montgomery, has staked. Harry Crawford has struck free gold, Bert Tyrell reports that he can pan gold on his claims. A prospector named Flanerty has good pannings in schist. George Potter, of Matheson, an old Yukoner, is said to have been the first to have staked in the field. He had

apparently been looking over the field on his own.

The McCreas-Simmons Syndicate, which has what appear to be among the best of the stakings, is sending a gang of men in to thoroughly prospect their showings, with steel and powder.

"Lake Savant is about thirty miles long, five miles wide, a beautiful stretch of water studded with island. The stakings are all down in the southwest corner of the lake.

"The lake is reached from Bucke Station, on the C.N.R., a short distance east of Sioux Lookout. It is but 18 miles from the track, taking a half day's canoe trip with three short portages. The new field has therefore considerable advantage over Red Lake, and several of the men interested seem to think the showings just as good."

CAREER OF DOMINION'S NEW GOVERNOR GENERAL

Spent Six Years in India. Has Creditable Reputation as a Diplomatist.

A correspondent has written The Advance asking for particulars as to Viscount Willingdon, Canada's new Governor-General. To answer the question, nothing, perhaps, could give the information better than a resume of the accounts as circulated throughout the Dominion. This account says:—

"Lord Willingdon, Governor-General of Canada, has had a long and distinguished career in political life in Great Britain and India, and he recently headed the British Government Commission negotiating with the authorities at Peking for the disposal of the Boxer indemnity of \$55,000,000 which was returned by Great Britain to the Chinese treasury when the message reached him inviting him to be Governor-General of Canada in succession to Lord Byng.

"Lord Willingdon, who as Sir Freeman-Thomas, was a member of the British House of Commons, was raised to the peerage as Baron Willingdon of Rotton, Sussex, on July 20, 1910. He was Liberal M.P. for Hastings from 1900 to 1906, and member for the Bodmin division of Cornwall from 1906 to 1910. He was junior lord of the treasury from 1905 to 1912. He was lord-in-waiting to the king from 1911 to 1913, and held the rank of major in the Essex Yeomanry.

"Canada's new Governor-General of Bombay, India from 1913 to 1919, and Governor of Madras from 1919 to 1924. When Lord Brassey, his father-in-law, was Governor of Victoria, Australia, 1897 to 1900, Lord Willingdon was A.D.C. to the Governor. Lord Willingdon was recently appointed by the King a Knight of the Grand Cross of the Order of St. Michael and St. George. He is a Knight of Grace of St. John of Jerusalem.

"Born on September 12, 1866; Lord Willingdon was educated at Eton and at Cambridge University. At both of these institutions of learning he achieved fame on the cricket field as player and captain. He married Lady Marie Adelaide, daughter of the late Earl Brassey, on July 20, 1892. Two sons were born to them the older of whom, Gerald Frederick, was a lieutenant in the Coldstream Guards and was killed in the war on September 14, 1915, at the age of 22 years. The second son, Captain Inigo Brassey Freeman-Thomas, was born on July 25, 1899 and served with the Indian Infantry and is now on the Reserve of Officers. He was A.D.C. on his father's personal staff, 1919-20. His wife is Maxine, daughter of the noted actor, Sir Johnston Forbes Robertson.

"Lady Willingdon is a Lady of Grace of St. John of Jerusalem.

"Lord Willingdon's ideal of public duty was indicated in his address at a dinner given in his honor on July 22. Among other things his lordship said: "The Empire is to all citizens a great trust and a great responsibility. Indeed I think it would be outrageous for any one of us to shirk that responsibility. It is in that spirit that I go to Canada heartened and encouraged by the wish of friends and hopeful that I shall secure the confidence and friendship of the Canadian people. I am determined, as far as it lies in me, to do my utmost to ensure the prosperity and progress of the great Dominion."

Stays Lit in Any Wind~ Does Not Smoke

SMP BEACON LANTERNS

SOLD EVERYWHERE

A NEW & BETTER FURNACE At a Sensational Price

Gilson's of Guelph now offer you a perfected furnace—pipeless or pipe style—at a sensational price. The first revolutionary improvement in home heating in half a century—low priced, efficient, quickly installed in any home, school or church.

Costs Less to Buy—Less to Use

The new Gilson "Magic" is built of Tungsten Plate. Transmits heat THREE TIMES faster. Patented air-blast burns all the gas and smoke. New type cone-shaped grate gets more heat units out of fuel. Electric arc welding seals the furnace tight as an egg against leaks of gas, dust or smoke.

Burns Hard or Soft Coal, Coke or Wood

You are not dependent upon hard coal alone as you get excellent results from any kind of fuel—soft coal, coke, oil or gas. You enjoy an extra saving by using low cost fuels.

Write for Easy Payment Plan

A moderate payment down installs the new Gilson "Magic." Learn all the features of this new sensationally-priced heating system. We will welcome your inquiry. Catalogue, sketch plan forms, estimates and full information, gladly supplied without obligating you in any way. Act at once—this is the time to make plans for heating your home properly.

The GILSON "MAGIC"

"Nurses were present from North Bay, Chapleau, Espanola, Sturgeon Falls, Copper Cliff, Chatlivox, Mich., and Lansing, Mich., at a meeting of District No. 9 of the Registered Nurses Association of Ontario held in the nurses' recreation rooms of St. Joseph's Hospital, Sudbury, on Wednesday evening, Sept. 29th. Enthusiasm prevailed throughout the meeting, reports being given by Miss Riordan, district chairman, of the provincial meeting held in Belleville in April, the executive meeting at Toronto in June and the Canadian National Convention at Ottawa in August.

"Plans were laid and committees named for the annual meeting to be held in North Bay next January. At the conclusion of the meeting, a dainty lunch was served by the hospital faculty and the Sudbury nurses."

YOU'RE WRONG, YOUNG LADY BUT MAC LANG IS A PRINCE

Mac Lang is sure making his way in this world. He used to be M.P.P. for this riding. Now he is M.P. for South Temiskaming. And then see what one girl would make of Mac! Read the following from the last issue of The Haileyburian.—

"From time to time one reads of startling answers given to questions put to pupils in the schools, commonly known as "howlers," but it is seldom that one hears a more astonishing statement than one made last week in our own public school. One of the teachers had asked the pupils to tell who is the King of Britain and the answer of a bright girl, who had evidently been impressed with recent event in the political world, was "Mac Lang." Although Haileybury people are justly proud of the fact that a resident of the town has been elected to parliament, and are impressed with the honor to such an extent that it has been suggested that he should be included in the cabinet, it seems strange that any child of school age should get the idea that he is to be elevated to the very head of the Empire. It is quite certain that even such a compliment as this will not turn Mr. Lang's head and that he will continue to be just one of the town's good citizens."

ENGLAND TRYING TO GET A REP. FOR APPELSEAUCO

Actually sent over to this country by cable was the following despatch published in scores of daily newspapers last week:—

Barnstaple, England, Oct. 6—Lovesick motorists are a greater menace to the public than drunken drivers, if the testimony of Dr. James Coburn Anderson may be believed. Dr. Anderson, driving his car on the wrong side of the road, ran down a motorcyclist and killed him. In his defence he said he was so infatuated with a young girl in North Devon that he had not been able to eat or sleep for days and his mind was a blank because of the infatuation.

DISTRICT NURSES HEAR REPORT BY CHAIRMAN

None of the nurses from Timmins attended the meeting of the Registered Nurses Association for District No. 9, but there will be more than passing interest here in the meeting. In the last issue of The Sudbury Star there appeared the following reference to the meeting:—

"Nurses were present from North Bay, Chapleau, Espanola, Sturgeon Falls, Copper Cliff, Chatlivox, Mich., and Lansing, Mich., at a meeting of District No. 9 of the Registered Nurses Association of Ontario held in the nurses' recreation rooms of St. Joseph's Hospital, Sudbury, on Wednesday evening, Sept. 29th. Enthusiasm prevailed throughout the meeting, reports being given by Miss Riordan, district chairman, of the provincial meeting held in Belleville in April, the executive meeting at Toronto in June and the Canadian National Convention at Ottawa in August.

"Plans were laid and committees named for the annual meeting to be held in North Bay next January. At the conclusion of the meeting, a dainty lunch was served by the hospital faculty and the Sudbury nurses."

ades in the prevention and cure of disease and this improvement is due in a large measure to the scientific investigation and research conducted in our laboratories. The knowledge thus gained would be of little use however unless sent to those who need it or those who can apply it in the education or treatment of others.

"The most valuable contributions made by research workers in so far as the health and happiness of the people are concerned have been in the field of preventive medicine. Many of the diseases which years ago afflicted the people are seldom heard of and still greater results are confidently expected.

"The prevention of disease is largely a matter of education. It cannot be accomplished through the efforts of the physician alone; he will lead the way but the general public must be taught to take such an interest in their own health that they will be willing to accept the advice given.

"Dental infection is one of the most frequent causes of disease and the Ontario Department of Health has organized a special effort for the purpose of informing the people in regard to the prevention of dental diseases. This campaign will take the form of a Dental Health Day to be held on Wednesday, October 20th.

"The activities will include a motion picture film which has been prepared by the Ontario Motion Picture Bureau, radio talks from the various stations, instruction to school children, the distribution of special booklets by the Insurance Companies, newspaper publicity which the press is giving without charge and window display.

"The dentists of the Province, at the request of the Department of Health will give private instruction on mouth care to all who desire it and the general publicity will stress the importance of a proper diet, thorough mastication of the food, and careful cleansing of the mouth.

"The educational health service and social welfare organizations of the Province are co-operating, and this, the first Province-wide effort of this kind in Canada, promises to be a great success."

The First Spoonful will convince you

You will recognize immediately that here is a corn flake different from any other you have tasted, and far superior in flavor. If you haven't tasted Quaker Corn Flakes, you can't imagine how good they are—big, tasty, crunchy, crisp flakes that stay crisp.

The flavor is guaranteed, and the package is twice sealed to preserve the freshness.

OBJECTS AND PURPOSES OF DENTAL HEALTH DAY

What it is Desired to Accomplish by the Event on Wednesday of Next Week

Dental Health Day is to be observed in Timmins on Wednesday of next week. There will be a free dental clinic held in King's Hall, with special attention given to children, and all the dentists of town co-operating to make the event a complete success.

Dental Health Day is under the auspices of the Ontario Health Department, and what is aimed at and the purposes of the day are clearly outlined in a letter received by The Advance from Dr. Conboy who is in charge of this feature. Dr. Conboy was a visitor to Timmins some months ago and the address given here by him was of the greatest interest and helpfulness. Dr. Conboy in his letter says, in part:—

"What wonderful advancement has been made during the past few de-

DEVELOP COAL DEPOSITS NEAR THE LONG RAPIDS.

It was reported at Cochrane this week that Messrs Smith and Travers have been awarded a contract to do considerable diamond drilling in the prospective coal territory lying in the vicinity of Long Rapids on the Matagami river. Information was lacking as to whether the work would be done on behalf of the Government, or whether it was part of a programme being carried out by private enterprise.

Prospecting operations during the past Summer have confirmed the presence of important deposits of lignite. It remains for a drilling campaign, as well as shaft work to show whether the seams at the lower horizon are made up of a grade of coal suitable for domestic use.

Speed up Business with CHEVROLET

for Economical Transportation

CHEVROLET Coupes for salesmen's use and Chevrolet Utility Express Trucks for hauling and delivery are speeding up business for thousands of firms in Canada. Careful owner records show that Chevrolet pays for itself many times over in lower operating costs, in freedom from tie-up, and in longer life. These records prove beyond doubt that Chevrolet cars and trucks provide the utmost economy of transportation in commercial use. Ask your Chevrolet dealer to show you the reports of actual Chevrolet owners. They may suggest ways in which Chevrolet can speed up your business and cut down your costs.

The Smoothest Chevrolet in Chevrolet history is selling at the Lowest Price for which Chevrolet has ever been sold in Canada. Ask about GMAC Plan of Deferred Payments.
