**Notice of Registration of BY-LAW No. 129**

Township of Calvert

Notice is hereby given that a By-law was passed by the Municipal Council of the Township of Calvert on the 22nd day of September A.D. 1926, providing for the issue of debentures to the amount of \$44,000.00 to pay for the construction of extensions to and additional cost of a Sewerage System together with appurtenances and connections in the Township of Calvert, and that such By-law was registered in the Registry Office for the District of Cochrane on the First day of October A.D. 1926. Any motion to quash or set aside the same or any part thereof, must be made within three months after the first publication of this notice, and cannot be made thereafter.

Dated this 4th day of October A.D. 1926.  
PAUL DUBE,  
-40-42 Township Clerk

**Notice of Registration of BY-LAW No. 128**

Township of Calvert

Notice is hereby given that a By-law was passed by the Municipal Council of the Township of Calvert on the 22nd day of September A.D. 1926, providing for the issue of debentures to the amount of \$16,000.00 to pay for extensions to, and additional cost of a Waterworks distribution system together with appurtenances and connections in the Township of Calvert, and that such By-law was registered in the Registry Office for the District of Cochrane on the First day of October, A.D., 1926. Any motion to quash or set aside the same or any part thereof, must be made within three months after the first publication of this notice, and cannot be made thereafter.

Dated this 4th day of October A.D. 1926.  
PAUL DUBE,

**ONTARIO'S MINING LANDS**

An attractive field is offered to the prospector in Northern Ontario. Seventy per cent. of the entire north-land is underlain with pre-Cambrian rocks, in which occur the nickel mines of Sudbury, the silver deposits of Cobalt, South Lorrain and Gowganda, the gold of Porcupine and Kirkland Lake, copper on the north shore of Lake Huron, and iron in Michipicoten and other areas.

Ontario is now one of the leading sources of gold, being outranked only by the Transvaal and United States. In 1925 the production was valued at \$30,207,545 over 83 per cent. of the entire output of Canada. The nickel mines of Sudbury produce 90 per cent. of the world's requirements of that metal. The silver output in 1925 had a value of \$7,084,864. Dividends and bonuses paid by gold and silver mining companies to the end of 1924 amounted to \$140,289,729.

Assistance is rendered by the Government in the way of cutting trails, cleaning streams and building roads, in order to afford access to mining claims or areas, and where a district proves its ore deposits to be of sufficient value and extent to warrant the expenditure, it is provided with railway communication. The Temiskaming Testing Laboratories at Cobalt are equipped to sample ores, and provision has been made for the purchase of gold ore.

For lists of publications, geological maps and reports, copies of the mining laws, and other information apply to

Minister of Mines  
Toronto Ontario.

**NEGOTIATIONS UNDER WAY FOR BATHURST CLAIMS**

A despatch last week from Hudson says:—  
"Interests associated with Mr. Noah Timmins, of Montreal, are negotiating for the purchase of Bathurst, Limited, which company owns a large number of mining claims in the Narrow Lake section of the Red Lake district. The Bathurst is capitalized at only 40,000 shares, of which about 26,000 are issued. It has been stated here that the Timmins interests have offered half a million for the property with a payment of \$50,000 to start the deal. Other interests are officially stated to have offered close to one million for the property, but the vendors appear to be in favor of dealing with Mr. Timmins on a basis which would leave them with a substantial interest. The more important group of Bathurst lies three miles north of the Dunkin McBain. One vein 17 feet in width carries very rich ore at surface. Another vein which carries considerable visible gold is from 10 to 30 feet in width and has been traced over half a mile in length. All indications point to a very important revival of interest in the entire Red Lake District. A channel sample of over \$18 per ton has been secured by the Timmins interests on property recently examined at Narrow Lake."

**WHERE DID SUDBURY STAR LEARN THIS "KISS" DOPE**

The Sudbury Star last week had the following:—  
Heywood Brown, whose column "It Seems to Me," gives remarkable interest to the page following the pure and undefiled editorial columns of the New York Herald, touches on a subject of interest to all movie patrons, as follows:—  
"Some years ago I charged the motion picture producers with falsifying life in the matter of the method in which all screen ingenues received a kiss. I mean a welcome kiss. It was the custom of the actress always to do a back kick with her right leg, raising the limb precisely to horizontal. My assertion was that many young women were kissed without ever lifting either foot from the ground. And this was advanced in full sincerity. It had not been my privilege to see so very many kissed, but all of these accepted the caress flatfooted."  
Mr. Brown is well within the facts. The movie eaper is unnatural. The actress does not receive a real kiss, and consequently cannot "live her part." Were the intimate salute genuine, that is, an expression of mutual love, she would have to take it flatfooted in order to withstand the dynamic shock of the explosion, for the first kiss of lovers is the explosion of electrical currents on the lips which solders two hearts together. The stage and movie exhibitions of the kiss are frauds, and would cause an anticlimax if attention were not called away from the lips as they approach—but do not meet. Hence the kick that gives the bogus kiss its kick for the audience.  
At least that's the way we have figured it out. In real life a pretty girl accepting her lover's kiss has no time to kick. She's not thinking with or of her kicking apparatus.  
A cheap car affords more peace of mind. Another squeak doesn't matter.—Vancouver Sun.  
The next band concert will be at the Goldfields Theatre on Sunday evening, October 24th, after the church services. Excellent programme.

**NEW JEWELRY STORE TO OPEN HERE ON SATURDAY**

Mr. Adrien T. Pommier Has Well Equipped and Handsome New Quarters in the Reed Block

In an advertisement elsewhere in this issue Adrien T. Pommier makes announcement that on Saturday he is opening his new store, which has been entirely remodelled, on the corner formerly occupied by the Bank of Commerce, in the Reed Block.

In his new store Mr. Pommier has the most complete furnishings of any jewelry store in Northern Ontario. In connection with the store, there is an optical parlour which will be in charge of Mr. Sylvio Andre, general manager of the National Optical Co. The new and up-to-date jewelry store will be in charge of Mr. Thompson, formerly of Toronto.

Also in connection with the new store will be a small repair shop for quick repair work. Mr. Pommier will keep his old store in the New Empire Theatre Block open, and will do the finer and more intricate repair work there.

As announced in the advertisement elsewhere in this issue for the opening of the new store a special offer is being made to the first hundred ladies, and the first hundred gentlemen making a purchase of one dollar or over.

Mr. Pommier's new jewelry store is a credit to the town of Timmins and will considerably brighten up the corner of Pine St. and Third Ave.

**HALLOWE'EN TEA AND SALE OF HOME COOKING, OCT. 23**

A Hallowe'en Tea and Sale of Home Cooking, under the auspices of the Humane Society, will be held in the store next to Theriault & Hourigan's tailor shop, opposite the New Empire Theatre, Third avenue, on Saturday of this week, Oct. 23rd. The success of previous events under the same auspices gives assurance that it will be a pleasing affair. The cause is a very worthy one, and the attendance should be particularly large.

**MAN DIED AS RESULT OF FALL AT SUDBURY STORE.**

A despatch from Sudbury last week refers to a former resident of Kapuskasing as follows:—  
"Tony Tucker, a Russian, aged 50, was found dead Thursday morning, Oct. 14th, with his skull fractured, in the basement of John Wagner's store on Station street. Tucker was seen there about eleven o'clock on Wednesday evening by other lodgers in the house, who presumed that he was drunk and did not go to his assistance, when he was found yesterday morning he had been dead about ten hours. It is believed that in a drunken stupor Tucker fell down stairs fracturing his skull on the cement floor in the basement. He came to Sudbury from Kapuskasing a week ago with about \$95.00, but when found he had no money left. It is presumed that he spent the money on liquor. Little is known of the man except that during the past three or four years he has made a few visits to Sudbury."

**NEVER HEARD REAL CASE OF WOLVES ATTACKING MAN**

Mr. Andy Cullen, prospector, of Haileybury, has added himself to the long list of old-timers who are satisfied that wolves do not go out of their way to attack men. Mr. Cullen recently returned from a prospecting trip in the district near Sault Ste Marie, and in an interview at the Sault he made it clear that the stories often featured by The Toronto Star do not meet with his belief. The Sault Ste Marie Star says that Mr. Cullen "has a fund of wolf stories, all going to show that wolves will not attack a human being, provided the latter has had a chance to make camp." Mr. Cullen says a tent or a fire is the best protection against wolves.

"The red deer and the wolves are always found together," Mr. Cullen said. "Where there are deer you can expect to see or hear wolves, though an odd wolf is sometimes found where there are plenty of partridges or rabbits. The average man sometimes thinks the wolves are after him when they are giving tongue after deer, and the man needlessly takes to a tree."

"When you have a camp erected, wolves may come around your tent, and even lie on your bed, without cause for alarm. I would just as soon hear them as I would a bunch of frogs. I have never yet heard of an authentic case of a man being attacked by a wolf, though I have often heard of men being devoured. These cases, when sifted down, always peter out. Perhaps if there were a large number of wolves in a pack, and a man had no shelter or fire, they would give him trouble, but I have never yet heard of it."

**SUGGEST GAME RESERVE NORTH OF NORTH BAY**

Under the heading of "Sport Here and There," The North Bay Nugget last week says:—

"Sportsmen in the North Bay district are talking of the possibility of creating a game reserve in this district, similar to the Sudbury reserve. According to the plan suggested a certain area in the vicinity of North Bay would be set apart as a sanctuary where wild life would not be disturbed by the guns of the hunters. The suggestion has been made that a portion of the country being opened up by the new highway to Cobalt would be a particularly suitable place. Here game of all kinds abounds. One motorist reported having seen a moose on the road about a week ago, while bear and deer are plentiful. Prospects are that as soon as the hunting season opens North Bay hunters will flock to this section and the fear is expressed that the game will be considerably decreased by the shooting. The suggestion is a good one. In the new road to Cobalt North Bay has a scenic route that should attract many tourists to the North. Every effort should be made to reserve portions of it in its present state."

**Fashion Fancies**

Marobou and Ostrich Make a Becoming Trimming for the Negligee.

By Marie Belmont

The silhouette of the hour, wider in the upper portion with perfectly straight lines for the skirt, is exploited in the becoming negligee pictured above.

Pale blue silk with a delicate flower pattern broadened in satin threads makes the garment, while the wide sleeves and deep V neck are edged in pale blue marabou flanked with deeper blue ostrich.

A slip-on affair might be planned on the same lines, with no opening down the front and a "halter" collar.

**HOLLINGER RECREATION CLUB DANCE THIS EVENING**

The Hollinger Recreation Club are holding one of their pleasant dances this (Thursday) evening in the Hollinger Recreation Hall. The A.S.D. orchestra will provide the music. Refreshments will be served. Dancing from 9.30 to 1.30. All certain of a pleasant evening.

**THANKSGIVING DAY THIS YEAR ON MONDAY, NOV. 8.**

Following the provisions of the statute passed some years ago, Thanksgiving Day and Armistice Day will be observed together on the Monday nearest to Armistice Day, Nov. 11th, which this year will be Nov. 8th. Accordingly Thanksgiving Day this year is on Monday, Nov. 8th, which is three weeks from next Monday. While the Thanksgiving and Armistice events are both to be observed on this day, according to the statute, at the same time a special observance has been requested for the actual day of armistice. Last week Hon. James A. Robb, acting prime minister stated that in accordance with the arrangements for Armistice Day sanctioned by His Majesty the King, the people of Canada are invited to mark the occasion by two minutes of silence at 11 o'clock Thursday morning, November 11. This is a special observance suggested by His Majesty, and is in addition to the regular holiday recognized by the Parliament of Canada for the Monday previous.

**Great Rejoicing by Rheumatic Cripples**

If So Crippled You Can't Use Arms or Legs, Rheuma Will Help You or Nothing to Pay.

Get a bottle of Rheuma to-day and wear a satisfied smile on your face to-morrow.

It's a remedy that is astonishing the whole country, and it's just as good for gout, sciatica and lumbago as for rheumatism.

It drives the poisonous waste from the joints and muscles—that's the secret of Rheuma's success.

But we don't ask you to take our word for it; go to Moisesley & Ball or any druggist and get a bottle of Rheuma to-day; if it doesn't do as we promise get your money back. It will be there waiting for you.
