## Noted Financial Men Visit Timmins on Tour of North

Many Distinguished Leaders in Commerce, Finance and Industry in Party Here This Week. Under Auspices of the Bank of Commerce. Wished to See the North Land at First Hand.

Probably the most important body of financial men to visit Timmins in recent years was the group of about 45 reaching here by special train on Sunday evening and remaining in the camp until 1 p.m. on Monday. The party included directors, officers and prominent shareholders of the Canadian Bank of Commerce, and a number of the directors and officials of leading Canadian industries and concerns. The party visited the McIntyre on Sunday evening after their arrival here, and saw a gold brick poured there. On Monday they visited the Hollinger and the Dome, going to the latter mine by motor, and entraining at South Porcupine to continue their tour of the North Land. The purpose of the tour was to give the members of the party a first-hand knowledge of this North Land, its possibilities, resources and prospects. They visited all the leading centres of the North, and found much of interest every minute of their trip. They were all greatly impressed with the North Land, and the visit will no doubt have material effect in spreading the true gospel of the North. From the Porcupine the party went to Iroquois Falls to see the great plant of the Abitibi Power and Paper Co.

Those in the party included:—  
Sir John Aird, President, The Canadian Bank of Commerce, Toronto.  
Sir Joseph Flavell, Bart., LL.D., Chairman of the Board of Directors, The Canadian Bank of Commerce, and Chairman of the Board of Directors of Simpson's Limited.

### Cross-Eyed Children

are starting in life with a very serious handicap. In many cases the conditions which cause this disfigurement can be corrected, and the eyes can be trained to function normally. It is very important that this work should be done as early as possible, as the squint usually becomes permanent after the child's sixth year.
