Your Patronage Solicited

I came to Timmins seven years
ago poor. And to-day I am walk-
ing with a cane because I am crippled
up after having a paralytic
stroke, which left me with a weak
leg, but I am still in the Singer
Sewing Machines and Willis Pianos
business, and ready to treat all
courteously as usual, under the
same name.

The New Liskeard Speaker last
week suggests that every town in the
district offer a reward for the capture
of the dastardly murderer of Inspec-
tor Constable. In commenting on the
reward of \$1000 offered by the town
of Cochrane, The Speaker says:—
"We would like to see every town in
Temiskaming, North and South, sup-
plement this offer by at least one
hundred dollars each." The idea is
right but the most of the towns
should make it at least \$500.00

Rouyn—A New Community Becomes Mining Railhead

Top—A view of Rouyn, a city in the making. Centre—The Canadian National
Railways branch line near Rouyn. Lower left—A truck of ore from
the Noranda mine. Right—View of the Noranda mine.

Rouyn, one of the newest communities in the Province of Quebec, is now in
touch with the rest of the world by means of a branch line, 44 miles in
length, which reaches the Quebec-Cochrane main line of the Canadian
National Railways at Taschereau (formerly known as O'Brien), a divisional
point. Previous to the advent of the branch line, access to Rouyn was by
means of land and water route. Now the railway runs directly into the muni-
cipality and provides efficient service for freight and passengers.

As the work of railway construction was progressing, the citizens of
Rouyn, encouraged by the solution of transportation problems, effected
considerable progress in developing civic improvements and a further pro-
gramme will be undertaken now that it is possible to obtain supplies ex-
pediently and more economically.

Rouyn is the centre of a most important gold-copper field, some mines
being of proven value, with others offering good prospects and inviting
further development. With the completion of the branch line it will be possible
to ship in heavy material required for the construction of a smelter for
handling ores of the local mines.

The new branch from Taschereau to Rouyn traverses a territory well
wooded, with numerous lakes and streams, a section of which in the vicinity
of Lois Lake is good agricultural land, offering inducements to colonists.
